BUTTERFLY BUSH

(*Buddleia Variabilis Variegata*)

Tens of thousands of homes are planting this hardy bush. Every lawn will have it as its beauty becomes known. Set this Spring, will soon bloom and increasingly all summer and for years. See page 10 of SPECIALTIES for fuller description and prices.

GIANT FLOWERING MALLOW MARVEL.

This magnificent, hardy perennial grows 5 to 6 ft. high and increases year by year to a clump several feet around the base, and 3 to 5 feet across the top, bearing profusely of wonderful flowers 4 to 7 inches in diameter. Entirely hardy in U. S. and Canada. See fuller description and prices on page 10 of SPECIALTIES.

FROBELIA SPIRÆA

Everblooming, Large, Bright-Crimson Flowers

A handsome, hardy, round shrub, 3 to 4 ft. high that blooms continuously and profusely from early Spring 'till winter. Fine as single plant, but most effective as a bed border or a row in front of a porch, or of taller plants. See fuller descriptions and prices on page 10 of SPECIALTIES.

PERSONAL TO ALL WHO BUY SEEDS

When Springtime comes and you plow and are ready to plant, what seeds will you have? That the seeds exert a great influence on the crop, no person will deny. Then it is particularly important that you secure seeds of first quality. **O. K. Seeds are All Right Seeds.** Planting them is like taking out an insurance policy on your crops. So, since you want seeds that will make you a garden of the best varieties; that will supply your table with tender, delicious vegetables and make a glad harvest in your fields, order the **O. K. Seeds.** Our list of varieties is not the longest, but it embraces the **BEST.** You can select from this catalogue, without making a mistake, by first reading the reliable descriptions to pick what you want as regards season, color, quality, etc. **O. K. SEEDS ARE NOT CHEAP SEEDS,** but they are the **BEST SEEDS** at the **LOWEST PRICES.** We solicit your order.

EVERITT'S SEED STORE.

How to Order

If you have them, use the order sheet and envelope that we sent with this catalogue. You may register your letter, with money enclosed, for safety. All Postmasters and Rural Carriers will register letters for you. Or send by **Postoffice** or **Express Money Orders, Bank Draft,** or **Check,** if more convenient. **Postage Stamps** may be sent for small amounts, 2c and 5c stamps preferred. Don't send revenue stamps. **CANADIAN CUSTOMERS** may send their currency or postage stamps.

We cannot ship to railroad stations where there is no agent, unless the freight is prepaid. You know whether your station has an agent or not so be careful about this or you may suffer delay in getting your goods.

If shipment arrives with loss don't fail to have the freight or express agent write on the receipt the nature and extent of the loss, then, at once, make your claim against the railroad company, through the agent, or send signed receipt to us and we will do it for your account. We guarantee safe arrival.

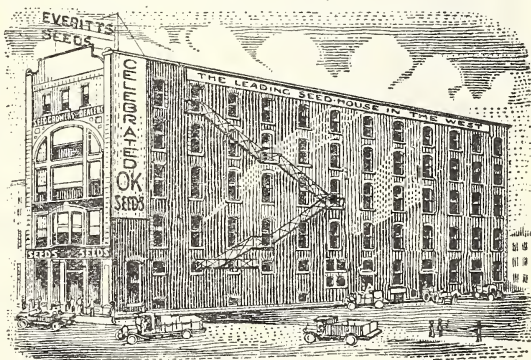

We deliver all seeds, grains and potatoes in pkts., ozs., $\frac{1}{4}$ lbs., 1 lb., 5 lbs., **FREE BY MAIL** unless stated to the contrary. If sent by freight or express they are at purchaser's cost. We can send any quantity of seeds by Parcel Post in lots of 70 lbs. in the local, 1st, 2nd, and 3rd, zones; also in 50 lb. packages in the other zones.

\$1.25 worth of seeds in pkts., ozs. & $\frac{1}{4}$ lbs. for.. **\$1.00** } This is our free seed offer for 1925: Send \$1.00 for seeds selected in pkts., ounces and quarter pounds to the value of \$1.25 and for each additional dollar sent for seeds in pkts., ounces and quarter pounds, select 25c worth more of seeds. Don't select larger quantities on this offer.

We prepay postage on pkts., ounces and pounds up to 5 lbs. at prices given. Keep this in mind when comparing our prices with others.

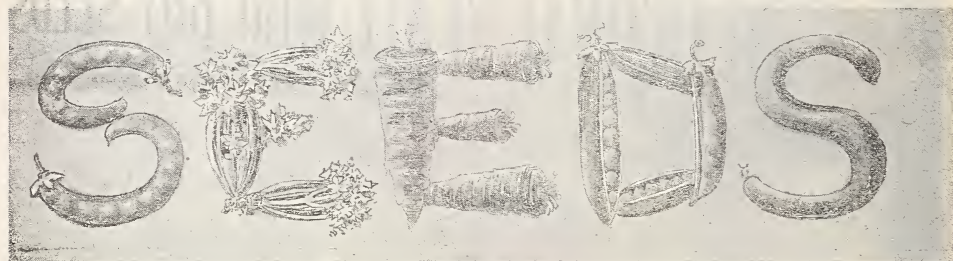

AS TO WARRANTY

We exercise care to have all of our seeds pure and reliable, but in growing, buying, shipping and cleaning seeds, and in growing the crops from them, so many things may occur over which we have no control that we, in common with all other responsible seedmen, do not give any warranty, express or implied, as to the description, quality or productiveness or any other matter of any seeds, bulbs or plants we send out, and will not be responsible for the crops.

EXPLANATORY—Through an unfortunate transposition of pages by the printer, pages 37, 47, and 50 are out of their right positions in a few catalogues. We trust this condition will not bother you much.

Everitt's Specialties in Vegetables and Flowers

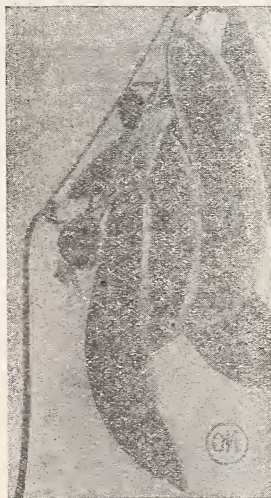

IF YOU WANT A BETTER AND MORE INTERESTING GARDEN SELECT SOME THINGS FROM THESE PAGES.

Succotash Pole Bean

Did you ever hear of a bean having the flavor of Sweet Corn? Succotash combines the flavor of corn and beans, hence the name, and you have a succotash dish without mixing the vegetables but grow them already mixed. The seed is dark colored and is a true bean, yet bears some resemblance to a kernel of corn. Grow this variety as you would other pole beans and use the same as snap pods or as a green shell bean. Pkt. 10c; ¼ lb. 20c; ½ lb. 35c.

Yard Long Beans or Chinese 3 feet

An attractive and curious and good Pole Bean. With this bean the pods often grow to be nearly a yard long. Our customers have reported 37 inches, 36 inches, 34½ inches, 34 inches, 33 inches, 32 inches, etc. The whole pod and beans are crisp, tender and with a delicious Asparagus flavor, rivaling almost any of the short podded beans when cooked. If you want something in your garden, that will excite the curiosity of the whole neighborhood, plant some of these beans. Price, Pkt. 10c; 3 for 25c; 15 for \$1.00; ¼ lb. 40c; ½ lb. 75c; 1 lb. \$1.25, postpaid. A hint, Buy \$1.00 worth and sell them.

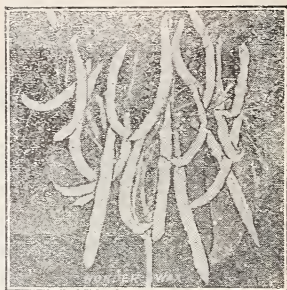

Succotash Pole Bean

I must say I raised the finest cucumbers last year that we have ever had before. The Butterfly Bush also did wonderfully well, and many of my neighbors remarked about them. My gladioli were prettier than ever before. We also had fine tomatoes.—Mrs. Schenover, Lewiston, Ill.

I have used Everitt's O. K. seeds for the past five years and don't find any other seed as good. I want to praise Bells Colossal tomatoes. From one packet of this seed and one packet of the greater Baltimore and your yellow tomato, I sold tomatoes by the bushels. I planted one ounce of ever-bearing cucumber and sold bushels of those. I always recommend Everitt's O. K. Seeds to my neighbors and friends.—J. W. Comer, Noland, N. C.

Last year I obtained from you and raised Farmers Interest corn. I challenge the country to compete with it. My son got first prize on it in his club work. I am not ashamed to sign my name to this report.—E. C. Owens, R. R. D. 1, Hebron, W. Va.

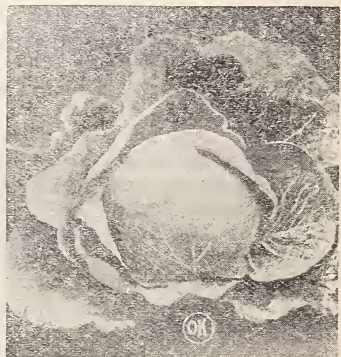

Wonder Wax Beans

Wonder Wax Beans

Brings highest market prices —is a wonderfully heavy yielder —stringless and tender — fills every need for home and market, slim, flat, plump, handsome and meaty pods. This is the earliest wax-podded bean. In bearing for a long season. ¼ lb. 15c; ½ lb. 25c; 1 lb. 45c; 5 lbs. @ 40c.

I have been buying seeds from the O. K. Seed Store for five years, and I have never bought anything but what has been good in every respect. O. C. Leffew, Farbus, Tenn.

Golden Acre Cabbage

Golden Acre Cabbage

Our most Valuable Cabbage Specialty for 1923. The Earliest Cabbage. Market gardeners and private gardeners who plant this cabbage cannot praise it enough on account of its earliness and solid heads, weighing 4 to 5 lbs. usually and sometimes 10 lbs. The plants are very short stemmed and the heads rest almost on the ground. It is very vigorous in growth and sure to yield good crops even in bad seasons. It matures before early Jersey Wakefield. Pkt. 10c; 3 for 25c; ¼ oz. 30c; oz. \$1.00; ¼ lb. \$2.50.

Everitt's Specialties—Continued

Early Wonder Beet

An Improvement, by Selection, of Crosby's Egyptian. As a variety to bunch for the market, it has no equal. Color is a rich dark red, small top, single tap root and a fine keeper. It merits a place in every garden, private or for market. Pkt. 8c; oz. 15c; ¼ lb. 35c; lb., \$1.00.

My Early Wonder beets were wonderful. Every seed planted produced a beet of excellent quality. The Swiss Chard was fine also. The Harris Early Pepper was extra, very prolific, and extra early. The "President" Canna was a popular bloomer, very beautiful even after a hard freeze.—Mrs. Grace S. Hadlock, Elk City, Kansas-11

Nuttings Early Gem Beet

Unexcelled in Quality and Appearance—This new beet will be esteemed on account of its desirable shape, smooth beautiful appearance and unexcelled quality for the table. The color of the skin and flesh is bright red. Solid, sound and crisp. Highly recommended for stewing, canning, pickling and if planted late, it makes a good Winter beet. Pkt. 8c; oz. 15c; ¼ lb. 35c; lb. \$1.00.

Danish Sludstrup Mangel

By Actual Test Exceeds Any Other Variety in Weight and Feeding Value

This variety from Denmark. Sludstrup, was awarded the highest certificate for the best mangel in that country. It easily excels other mangels in weight of crop that can be produced per acre, besides it has higher feeding value than an equal weight of other kinds. In color it is distinct being reddish-yellow. Root large. It is easy to harvest because it grows more than half above the ground and has small tap root. Pkt. 5c; oz. 15c; ¼ lb. 30c; lb. \$1.00.

Pe-Tsai or Cabbage Celery

It is a species of Cabbage with a fine delicate flavor, as tender as head lettuce, and in great demand for numerous dishes such as salads and cold slaw, or it may be cooked quickly. The culture, storing for winter, etc., are the same as for late Cabbage. It cannot be grown successfully as a spring crop. For fall crop, seed should be sown early in August. Pkt. 7c; ½ oz. 15c; oz. 25c; ¼ lb. 75c.

Rubicon Carrot

The Best in shape—Finest Quality Carrot.

This fine carrot is earlier than the famous Danvers and about the same size. The flesh is deep red orange color of the finest quality. An ideal kind for bunching for market and the home garden. Pkt. 5c; oz. 15c; ¼ lb. 40c; lb. \$1.25.

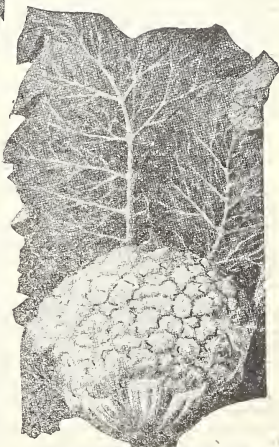

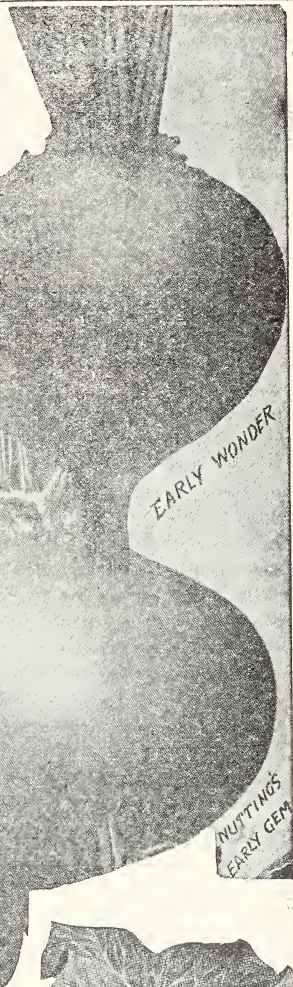

Dry Weather Cauliflower

This variety is of vigorous and dwarf growth and produces stone-hard and snow-white heads. As indicated by the name, it is a leading type for dry weather districts, being a sure header when other sorts fail, sometimes on account of the weather. The large leaf development (see illustration) protects the head from the hot sun. Pkt. 20c; ½ oz. \$1.25; oz. \$2.00.

After having planted and raised crops from your O. K. Seeds for a number of years I want to tell you that I have found them the best that I have ever planted. J. W. McWharter, Haytonville, Ky.

The seed which I purchased from you last year proved to be very good seed making a good yield. Especially the White Eury Tobacco. Also the flowers sent as presents were beautiful and I was much pleased with them. Max Laide, Bingham, Ill.

Dry Weather Cauliflower

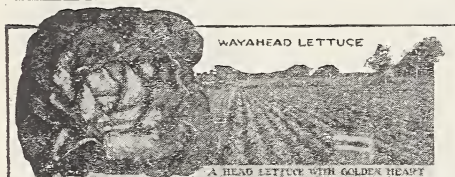

Everitt's Specialties—Continued

Climbing China Cucumbers

A remarkable long green Cucumber from China. Don't confuse this with the Japanese Climbing. It is a much finer variety. The Cucumbers grow about twice as long—about 20 inches—and are slimmer, 2 to 3 inches, and handsomer. Color deep green. The flesh is solid, crisp and fine flavor, free from any bitter taste. Vines grow strong and are very productive. They will vine on the ground or may be trained on a trellis or any support. The cucumbers are early bearing for use almost as early as shorter kinds. We recommend this cucumber as a variety of much merit for the table as well as one of the most novel vegetables. Pkt. 10c; 6 for 50c; 15 for \$1.00; oz. 40c; ¼ lb. \$1.25.

A SUGGESTION—Buy by the dollar's worth and sell them.

WAYAHEAD LETTUCE

The Earliest Hard-Heading Variety.

The name of this lettuce was suggested by the fact that it comes way ahead of any other hard-heading variety. Every gardener will appreciate the combination of earliness, firm head, handsome appearance, and splendid, crisp, table quality. For growth in cold frames, for early Spring and in the open ground for Spring, Summer or Fall crops it has honored its name by giving a lettuce of the finest quality throughout the season. Get it for every garden. Pkt. 10c; oz., 25c; ¼ lb. 75c; lb., \$2.50.

Wonderful, or New York

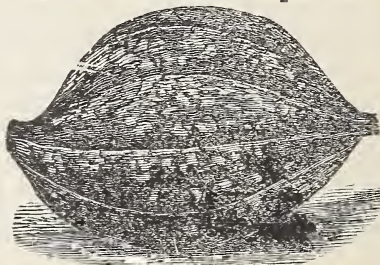

HEADS SOMETIMES MEASURE 15 INCHES ACROSS.

This new variety grows immense heads. It is distinguished from others by the rich, golden-yellowish color on the inside of the heart. The outside of the leaves is a dark green. It is crisp, tender and delicious. It is one of the best to resist heat and dry weather and grows very vigorously. We recommend it highly for mid-summer. Pkt. 10c; oz. 25c; ¼ lb. 75c; lb. \$2.50.

I have used O. K. SEEDS of almost all descriptions and have never found any better seeds, that I have ever used. I am a grower of watermelon seeds for several years and always get my seeds from you. I can always recommend O. K. seeds. —Frank Jelden, R. F. D. 1, Buffalo, W. Va.

I have been planting the China Cucumber for four or five years. It is an early cucumber and I like it very much for slicing for use on the table. I also have grown Bells Colossal tomatoes for seven or eight years. It is not as early as others but it has an excellent flavor. —W. J. Morrisen, 301 W. Maple, Mt. Pleasant, Michigan.

Blue Hubbard Squash

A new type of Hubbard squash which excels all in the superior quality of its flesh, and is the best keeper of all the Hubbards. Form and habit of growth similar to the original Hubbard, but differing in being the largest of the class and in having an extremely hard, blue-gray shell. All lovers of the good Hubbard Squashes should now get this best one. Pkt. 10c; oz. 20c; ¼ lb. 60c; lb. \$2.00.

A NEW SPINACH Princess Julian

The Julian is the most thoroughbred type of long-standing spinach ever introduced. It is wonderfully uniform in type and most attractive in appearance. In form it is a dense, compact rosette with very short leaf stalks, the leaves are large, and rounded, thick in texture, very much blistered and crumpled and of intense, very dark green color; will hold up well in shipping to distant markets. It is noted for its freedom from male plants and its slowness to go to seed. In some of the southern spinach markets the past season, because of its attractive appearance, the Julian found a ready sale when other varieties were a drug on the market. Pkt. 10c; oz. 20c; ¼ lb. 60c; lb. \$2.00.

In my order I received some Big Boston and Wayahead lettuce seed from you, and I want to say were the finest lettuces I have ever grown. Many of my neighbors used some of the lettuce and were loud in its praise. The gladiolus bulbs were the prettiest I have ever seen. —Mrs. S. E. White, Albertville, Ala.

I purchased some China Cucumber seed of you and wish to say that, that cucumber was one of the finest for slicing and pickling that I ever saw. The Swiss Chard grew rapidly and was very tender. Your Easy Blanching celery was no trouble to blanch, and was brittle and juicy. —J. L. Dow, R. F. D. No. 2, Belleville, Ark.

Wonderful or New York

Everitt's Specialties—Continued

Golden Champlain MUSKMELON

THE EARLIEST MELON

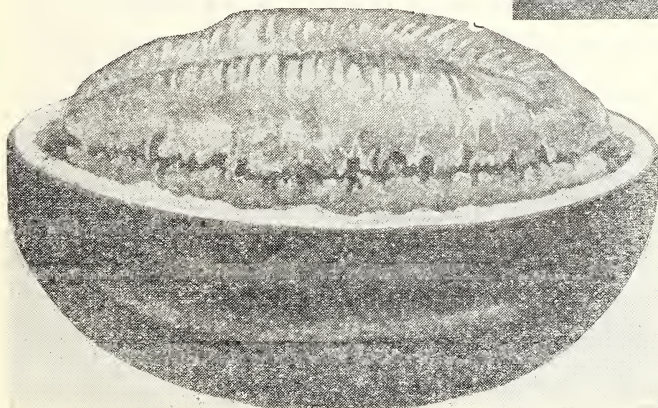

All growers for Market know that the first melons on the market bring about double the price. This is the only very early melon that has the high quality of the best late ones. They are not large, weighing 2 to 3 lbs. Nearly round and slightly ribbed. The flesh is very deep, tender, rich, golden color. The flavor is good, clear out to the thin rind. They can be picked "ripe" and shipped to market 500 miles away and arrive in good condition. The Golden Champlain is also extraordinarily productive. Probably this is because the vines are sturdy. The strong vines are frequently as thick as a man's thumb. With this melon it is the rule to sell

around \$200 worth of melons per acre before competitors have any to market. The grower who will plant an acreage of Golden Champlain this year is in line to make real money.

Do These Reports Mean Anything? "They come up to all your claims and more," Connecticut. They are good lookers and good eaters, come early and stay late," New York. "They are the melon for me," Penna. "The only melon that will ripen in our short season," Idaho. "They got there quick before blight and rust hurt the vines," Fla. The Champlain is the only melon that ripened here this season," Maine. "I had 26 fine canteloups in one hill," Vermont. "You have proved to me that what you said of the Golden Champlain was true," Indiana. "They are sure money melons," Dakota. "I would rather have one acre of Golden Champlain than 5 acres of any other kind," Ohio. "Very early, flavor fine and a great market melon," Texas. **Price—Pkt. 15c; oz. 35c; ¼ lb. \$1.25; per lb. \$4.00.**

Improved Early Hackensack

The result of selection and breeding from the famous old Hackensack. The new type is not so large as the old one, growing to the convenient size of 5 to 6 lbs., shape round, slightly flattened, deeply and broadly ribbed with bold netting. The melon is very handsome and rich looking. Flesh green, thick and sweet, delightful flavor. Just the flavor you like in greer melons. Pkt. 10c; oz. 20c; ¼ lb. 60c; lb. \$2.00.

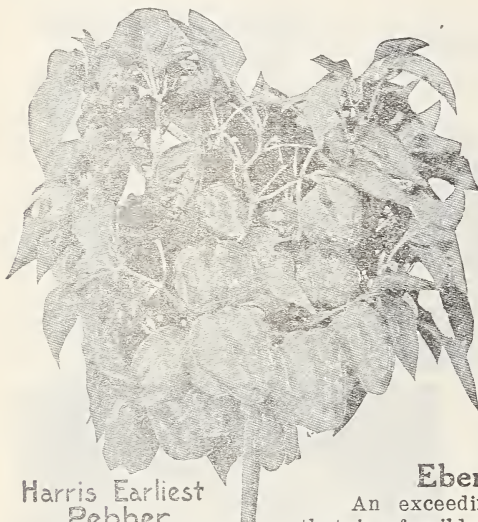

Everitt's Orange Watermelon

Everitt's Orange Watermelon

The peculiarity of this fine melon is that when well ripened the inner core separates from the rind. Frequently one can lift the entire heart of the melon out of the shell or rind by cutting the melon rind only. The inner portion of the melon quite resembles an orange after peeling, hence the name. The flesh of this melon is of a pink shade, of fine quality. Considered by many a great delicacy and prized to serve on special occasions. It grows to a medium size. Very productive. Pkt. 10c; oz. 20c; ¼ lb. 50c; lb., \$1.75.

Everitt's Specialties—Continued

Harris' Earliest Pepper

Harris Earliest Pepper

This pepper is the surest cropper of all. The plants grow only 12 to 18 inches high and usually bear so many peppers that you wonder how the plant can hold them. The peppers are of good size too, being 3 inches long by about 2 to 2½ inches in diameter. The flavor is very mild and tasty. The color is red when ripe.

If you want to be sure to have sweet peppers and lots of them plant this variety. If you have not been very successful in raising peppers your success will change with this variety. In an average season you will get about four times as many as of any other kind. Pkt 10c; 6 pkts 50c; 13 pkts. \$1.00; oz. 75c; ¼ lb. \$2.50

Ebenezer, or Japanese Onion

An exceedingly fine onion introduced from Japan that is of mild and pleasant flavor and that will keep all winter. The onions are flattened and of a light yellow color. They can be raised successfully from seeds or sets. On account of its high quality it commands high prices wherever offered. Ripens early and all at the same time. Has very small neck. Suited to raise large onions from the seed or sets. The sets from this variety keep late in the Spring which is an advantage over all others. Pkt. 10c; oz. 50c; ¼ lb. \$1.50 lb. \$5.00

FIRST CROP RADISH

It is the earliest of the round radishes and the slowest to go to seed. This makes it a wonderfully profitable market variety and desirable for forcing. Round as a ball bright scarlet, with the smallest top. Crisp and finest quality for a long time. Has made bunching radishes in 20 days from sowing the seed. Pkt. 10c; oz. 20c; ¼ lb. 40c; lb. \$1.50.

WINS-ITS-WAY TOMATO

SEE COLORED ILLUSTRATION ON FOURTH COVER PAGE

This new variety is an ideal tomato for nearly every use to which tomatoes are put. For the gardener who wants a beautiful tomato at just the right time to get the highest prices it is just the variety for him to grow. For the commercial canner it has exceeding high merit while the home gardener will quite surely find it his ideal.

WIN-ITS-WAY arrives about 5 days after the extra early kinds but excels all of them in productiveness. The plant on our last cover page is reproduced from a photograph of one plant. Note it bears its fruit well to the center of the stalk and it continues to bear full size fruits throughout the season. Fruits are large

size, almost round, brilliant red, solid, no core and very small seed cavity. As regards its keeping qualities, it is unsurpassed, if equaled by any other. This quality makes it possible to ship it long distances. In short it has distinct merit over varieties already in cultivation. Pkt. 20c; 3 for 50c; 8 for \$1.00; oz. \$1.25.

For my extensive trade in hot bed plants, I used your Bell's Colossal Tomato seed. The largest and best tomatoes we ever raised" is the invariable report. My own likewise. The coming season I shall use it as my special. Moonflowers from seed purchased from you were wonderful and attracted many callers just to see them. J. T. Hillegras, 169 Jay St. Ulrichville, Ohio.

I purchased some cannas from you last Spring and the results were amazing and wonderful. The people passing by would stand in awe at the sight of them. Really, they were indescribable. Mrs. Lewis Ruffing, Greenville, Pa. 9 Walnut St.

Everitt's Specialties—Continued

YES, THERE'S SOMETHING NEW UNDER THE SUN.

"To-Pep-O"

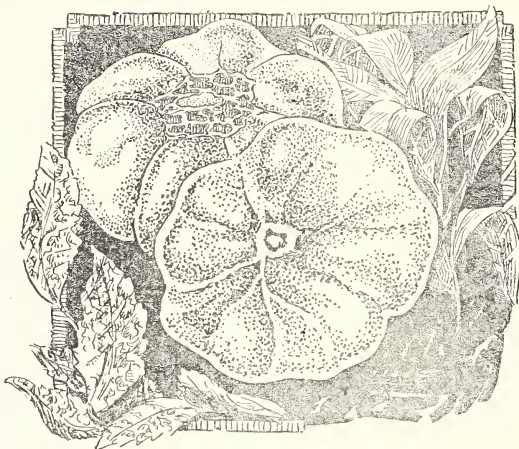

Coined from
the words,
"Tomato,"
and "Pepper."

The reason for this new word you will find by reading below.

THE ORIGINATOR SAYS:

"The To-Pep-O vegetable is the result of hybridizing the Stone Tomato with the Bell pepper. After five years of selection a product has resulted that rivals the finest production of the California plant wizard, Luther Burbank. This new vegetable combines the characteristics of both parents and has some new ones. In shape it retains the bulge of the pepper and approaches the flatness of the tomato. In flavor it resembles the Bell pepper but is milder and has the zest of the tomato. In size it grows 6 to 8 inches in diameter. Its color is vivid red, or golden-yellow striped with dark green. So gorgeously-colored are they that dealers use them for decorating their show windows. Its uses are many and more will be found. It is admirable for stuffing like peppers; also with tomatoes and other vegetables in salads; it can also be stuffed with shrimp, crab or lobster salads. Soups, chowders, fish, gravies, dressings and other table delicacies are improved in flavors by the addition of sliced To-Pep-O. The plants bear heavily and for a long season. The fruits will keep in ordinary temperature for 30 days."

The To-Pep-O was originated in California, and our seed was grown there. From the fact that both the Stone tomato and the Bell pepper succeed all over the country we have confidence that this new vegetable will succeed for our customers anywhere and be an admired and useful novelty in their gardens. Do not plant the To-Pep-O close to peppers. PRICE Pkt. 25c; 3 for 50c; 7 for \$1.00.

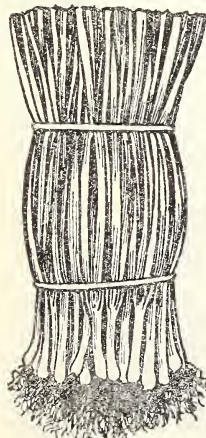

A NEW WAY TO GROW AN OLD CROP.

Onion seed is enormously high this year on account of crop failures. Therefore it behooves every person who intends to raise a crop of onions, either for marketing green, or matured, to investigate onion plants.

Our onion plants are grown in the south by a company that has \$1,020,000 invested in the business and a capacity of 15 million plants a day. This statement perhaps gives a better idea of the present tremendous popularity and demand for onion plants than any other way that we can express it. It is quite well established in sections where the plants have been used that the dry sets are no longer wanted, and large crops for large onions are planted with plants rather than with seeds. Every onion plant will produce a good green onion, or a good matured onion, which cannot be said for any dry set, nor for seed. Onions from plants, also mature weeks earlier than from seed sown.

VARIETIES—Crystal White Wax and Yellow Bermuda. (See descriptions in department of Onion seed in this catalogue.)

PACKAGES AND PRICES—500 plants \$1.25; 1,000, 2,500, 5,000 and up in any of these units @ \$2.25 per thousand. Express or Parcels Post paid to purchaser.

Onion Plants

All the seeds I ordered from you last spring were O. K. and made splendid crops. My watermelons and Banana muskmelons were as fine as could be. I grew Banana Muskmelons on poor land, but they grew 13 inches to 2 ft. long. They were fine and bore until killing frost. All of the rest of the seeds did well. H. K. Yarbrough, R. 2, Ticon, Ga.

Copenhagen Market Cabbage has been my favorite, but I find that Golden Acre can be marketed from 8 to 10 days earlier and stands longer without bursting than any cabbage I have ever tried. I raise plants for sale and am going to increase my sowing of Golden Acre this year. Otto Craycroft, Sandoval, Ill.

Frost Proof Cabbage Plants

These plants can be set in the open ground as early as the ground is fit, usually a month earlier, and will make full-grown heads a few weeks before the ordinary cabbage plants. This gain will surely be appreciated by the grower who wants the big prices for the first-on-market.

VARIETIES—Early Jersey Wakefield; Charleston Wakefield, Early Flat Dutch, and Copenhagen Market.

PRICES—500 for \$1.60; per 1,000 \$3.00 delivered.

Garden Spot Special Offer

500 White Bermuda Onion Plants \$1.25
500 Crystal Wax Onion Plants 1.25
4 Dozen Assorted Cabbage Plants50
All for \$2.50 Postpaid, delivered.

Everitt's Specialties—Continued

HARDY RAINBOW CARNATIONS

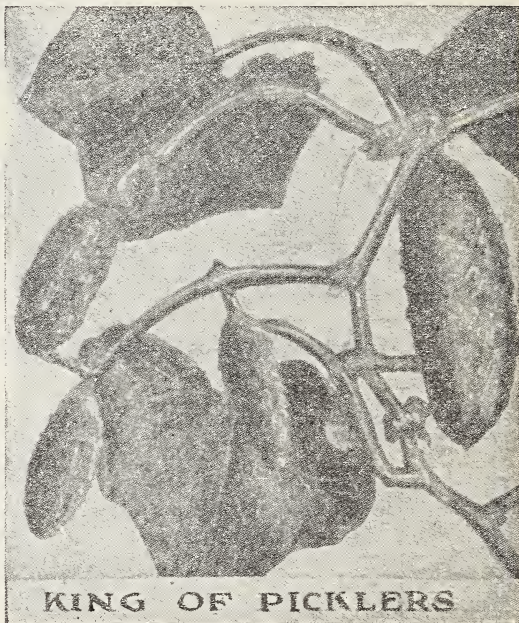

(SEE COLORED ILLUSTRATION ON FIRST COVER PAGE)

Will bloom in 4 to 6 weeks from planting. Will bloom continuously—every day you can cut flowers 'till frozen. Hardy, will stand the hardest winters in the North, or can be potted in the house in Fall and have carnations in winter.

Don't you want carnations for buttonhole and house bouquets? Each plant of the Rainbow Carnation will give you open flowers each day. The form is as refined, and the fragrance as exquisite as the hot house carnations. Can be grown with the greatest ease and will bloom in 4 to 6 weeks from setting the plants. Will be one of the most prized plants in your garden. Colors, red, pink, white and yellow, and shades of the same.

Price RUN OF COLORS—Or all colors mixed. One plant 30c; 4 for \$1.00; \$2.50 per dozen. If bought by the dozen we recommend the mixed.

SEPARATE COLORS—These are difficult to produce and consequently come higher. Colors, Red, Pink, White or Yellow—40c each; 3 for \$1.00; per dozen \$3.50. All delivered at prices. (See Illustration in colors on front Cover Page)

KING OF PICKLERS

King of Picklers Cucumbers

Has Yielded Over 250 Bu. Per Acre

This cucumber is fine in form, solid and thick. It is very productive, has yielded over 250 bushels per acre. It is the finest of all for pickling and is also fine for slicing. It is desirable both for home and market. All gardens will be better by having the **KING OF PICKLERS** Cucumbers. Pkt. 10c; oz. 20c; ¼ lb. 50c; lb. \$1.50.

The Marvel Onion

IF YOU WANT A DIFFERENT ONION PLANT THE MARVEL

Grows about 5 inches long by about one-third the diameter. Color light yellowish-brown with a thin skin. Flesh very white and has a "tasty" flavor. Owing to its shape, can be planted closer than round or flat onions which secures more crops from a given piece of ground. Desirable market onion. Sow the seed and get full-size onions the first year. Pkt. 10c 3 for 25c; oz. 50c; ¼ lb. \$1.50.

I was well pleased with all the seeds ordered from you. The canna bulbs were fine. The bloom was beautiful and very much admired by all who saw them. They all came true to color and were just as you described them to me in your catalogue.—Dale S. Ramsey, Blountville, Tenn.

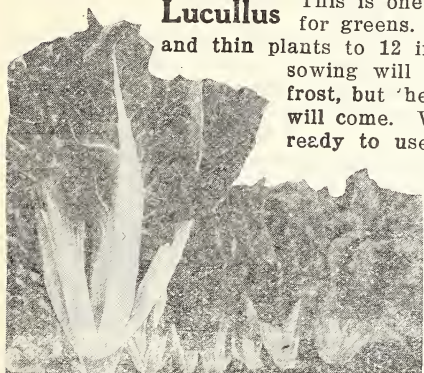

I bought ½ bu. of your Green Mountain Potatoes to plant last Spring. They are good sized potatoes and I think they are the best potatoes I ever ate. I intend to plant more this year.—J. S. Hans, Anderson, Ind.

Everitt's Specialties—Continued

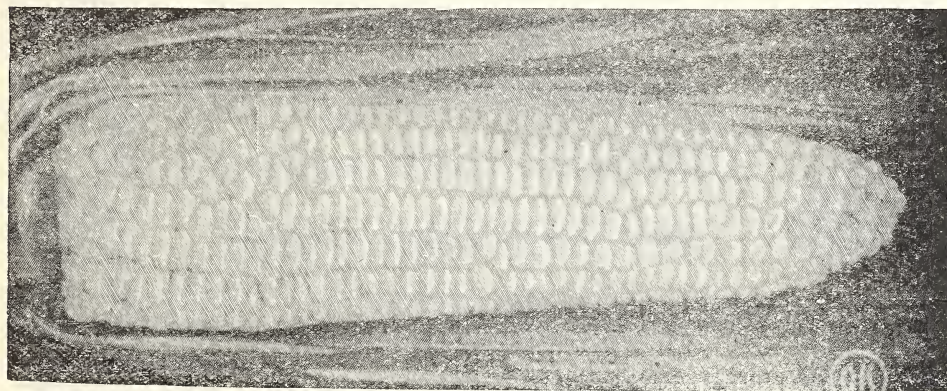

A WONDER PLANT—SWISS CHARD

Lucullus

This is one of the best and most productive garden plants for greens. Sow seed in spring in rows about 30 in. apart and thin plants to 12 in. apart. It will grow about 15 in. high. One sowing will keep you supplied all summer, until killed by frost, but the leaves must be cut off so new and tender ones will come. With protection it will stand over winter and be ready to use in the spring. The cooked greens are finer flavored than spinach. The heavy ribs may be boiled and served in melted butter or milk dressing when they are as delicious as asparagus. This vegetable is so easily grown and so good that it will be a surprise if it is not soon found in every garden. Pkt. 7c, ½ oz. 15c; oz. 25c; ¼ lb. 60c.

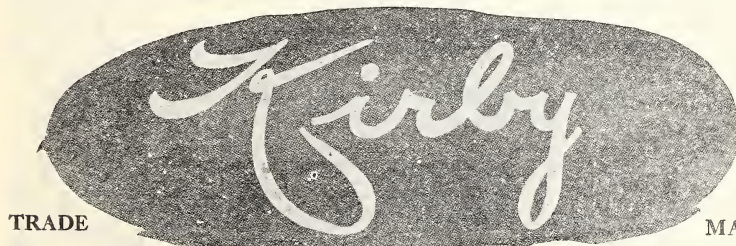

The seeds we received from you last year were very satisfactory. The Red Cut Tom Watson was especially good. M. A. Godsey, Martinsville, Ind.

WHIPPLE'S EARLY SWEET CORN

This new sweet corn matures as early as the small-eared kinds and has ears approaching Stowell's Evergreen in size. This will be hard to credit until you actually raise it. The possibilities of this corn with a market gardener are very great. The ears are so large and it comes so early and the quality is so good that the marketer of it will find it wonderfully profitable. Of course the private gardener will also appreciate its advantages. ¼ lb., 10c; ½ lb., 25c; 1 lb., 40c; 5 lbs., 35c.

(Registered U. S. Patent Office)

ket price. Market gardeners and truckers should not fail to plant it. Home gardeners will also find it a great pleasure to grow and use it. Pkt., 10c; oz., 20c; ¼ lb., 50c; lb., \$1.50.

KIRBY Cucumber

IT STAYS GREEN

Kirby's is the earliest of the White Spine type; fruit 7 to 8 inches long, cylindrical in shape. Color is a fine dark green the full length which attracts attention everywhere. Always commands the highest mar-

2nd Cover Page Collection of Hardy Plants

These Three Valuable Plants are Illustrated on 2nd Cover Page

THE BEAUTIFUL BUTTERFLY BUSH A SENSATIONAL PLANT

The Butterfly Bush or Summer Lilac is a "Gem" amongst Flowering plants. Note these things: (1) Blooms first year. (2) Hardy. (3) Gets larger each year; will grow 3 ft. to 6 ft. high and large around. (4) Heavy with bloom from June until frost. (5) Can be started indoors in pots. (6) Very fragrant, purple, blossoms 6 to 10 in. long, like lilacs. Fine for bouquets. (7) Attracts butterflies—they are always hovering about this plant. (8) Unusual and attractive decoration for lawn—will bring admiration of neighbors and visitors.

THOUSANDS DELIGHTED

Read these letters from people who bought our Butterfly Bush last spring: "The Butterfly Bush is the most beautiful plant I have ever seen. In bloom all summer. Best plant in our garden."—Chas. W. LaBreton, McKeesport, Pa. "We have two of your Butterfly Bushes. They have bloomed all the year and are now the prettiest I have ever seen in the way of flowers. We would not take anything for them."—W. D. Allison, Jasper, Ala. "I am delighted with my butterfly Bush. There is nothing in our garden any lovelier and that is saying a great deal because I have everything from daffodils in the Spring to Chrysanthemums in the Fall."—Mrs. McCulla, Waukegan, Ill. "The 5 Butterfly Bushes I got of you last Spring have proved a joy to us and to the friends to whom

I gave them."—Mrs. Geo. Alfa, Peoria, Ill. "My Butterfly Bush is 3 ft. high and produced 75 blossoms. If I could not get another, you could not buy this one for 10 times what it cost me."—Mrs. Edward M. Bailey, Melbourne, Mo. "The Butterfly Bush is certainly a wonder for it bloomed all summer clear until late this Fall, just as you said it would."—Mrs. Wm. Schlemser, East St. Louis, Ill.

Order today. Be the first in your neighborhood to have this beautiful plant on your lawn. Sent prepaid to any point in the United States with directions for planting and care. Good condition guaranteed. See illustration on second cover page.

Price One bush or plant 40c;
3 for \$1.00; 6 for
\$1.75; Dozen for \$3.50 delivered.

Giant Flowering Mallow Marvel

HARDY EVERYWHERE, FLOWERS, AUG. AND SEPT.

Here is a wonderful perennial, being a greatly improved form of Hibiscus, growing 5 to 7 feet high, in a clump several feet around the base with tops 3 to 4 feet across, loaded with giant flowers 5 to 8 inches in diameter from July to September. It is so remarkable and beautiful that we just know that every home-maker will love to have them. Absolutely hardy everywhere in the United States and Canada. Thrives on all soils, but comes to greatest perfection where ground is rich and well watered. We can safely say that there is not another hardy perennial or shrub that surpasses it for size of plant, brilliancy of flowers and profusion of blooms. We offer them in CRIMSON or RED, PINK and WHITE. Don't make the mistake of getting the low growing Hibiscus. The Giant Mallow is tall, strong, robust, erect growing. Plant 5 to 6 feet apart each way because they develop into large bushes. All of our plants have large roots as they have already bloomed. Full directions for planting and care with each shipment. Delivered at prices below. (See Illustration on 2nd Cover Page.)

Price SEPARATE COLORS—Red or Crimson, White and Pink. (Our supply of these separate colors is fairly limited. Please tell us whether we shall send mixed colors if out of them) One 60c; three for \$1.50; 6 for \$2.50; dozen, \$4.50.

MIXED COLORS—In all the rich colors and shades of crimson, pink and white; One 40c; 3 for \$1.00; 6 for \$1.75; doz. \$3.50, delivered.

Hardy Spirea Frobeli

BRIGHT CRIMSON EVERBLOOMING

You probably have the White Spirea and nothing can well be more beautiful for a short period in early Spring. But you will want this too when we tell you that it is a handsome round shrub, 3 to 4 ft. high and BEARS LARGE CLUSTERS OF ROSEY CRIMSON FLOWERS, LIKE THE ILLUSTRATION ON 2ND COVER PAGE, FROM JUNE UNTIL WINTER. It will begin to flower freely when only a few inches high and flower until killed by frost. One of the few Autumn flowering hardy shrubs and the best one. Fine as a single plant, but most effective planted in a border, in front of taller shrubs or in front of your porch. Plant two feet apart.

Price 2 year bushes; one 60c; 3 for \$1.50; 6 for \$2.50; dozen for \$4.50, delivered.

Everitt's Specialties—Continued

Everitt's Unusual Lawn Decorations

Give Your Lawn A Tropical Appearance

A Round Bed of Castor Beans, Cannas and Caladiums

The scheme of this bed is to plant a center of tall Castor Beans, like the Zanzibariensis. Three or four plants will be plenty. Then a circle of Cannas, and outside a circle of Caladiums. The bed may be just as large as you want it or as the space will permit. If the bed is more than 6 feet in diameter, and the larger the more showy it will be, we suggest using two heights of castor beans and two heights of cannas in two circles, also a circle of geraniums or coleus can be put outside of the caladiums.

PRICE—For a 6 ft. bed One Pkt. Ricinus' Castor Beans 10c; 10 canna roots, (See Canna list page 54) 18 caladium bulbs (See Dept. Bulbs page 54). If you make a bed 10 feet in diameter order 25 Canna Roots and 36 caladium bulbs and put them in two circles.

A Round Bed of Castor Beans, Cannas and Caladiums

(See Colored Illustration on 3rd Cover Page)

Permanent Ornamental Grass Bed

This group is made up of these three hardy grasses:

Erianthis Ravena (PLUME GRASS or HARDY PAMPAS GRASS) One Clump 60c; 3 or more @ 50c each.

Eulalia Japonica Variegata One Clump, 50c; 3 or more @ 40c each.

Eulalia Japonica Zebrina One Clump, 50c; 3 or more @ 40c each.

A Showy Object

The grasses in this group are not nearly so well known and used as their merits deserve. Our Mr. Everitt has such a bed on his front lawn where it was continued for 17 years since it was planted and it bids fair to continue until it is dug up and removed. It's the showiest object on the lawn and never fails to attract the attention and admiration of the many people who pass on the sidewalk and street. We can hardly imagine any object, for the cost, that will give equal satisfaction and pleasure, as well as enhance the value of a property as a bed of these ornamental grasses.

Planting the Bed

Lay off a circle 6 to 8 feet in diameter. Grade it so the center is about 6 inches higher than the outside. Put two or three clumps of Erianthis at the Center. Then plant 3 or 4 clumps each of the other two varieties, alternating about 18 inches from the outside of the circle. Plant in a good rich soil, and treat as any other hardy plant. The clumps will increase in size until all the space is filled. To increase plantings, divide the clumps in the spring. To make a greater showing the first year two clumps may be used as one, which by the second year can be removed to make other plantings. The plumes that are borne on all the varieties in the fall make splendid, everlasting bouquets for the house.

Our Special Offer. To plant the bed we will furnish two Erianthis; 3 Eulalia variegata and 3 Eulalia Zebrina for \$3.00 delivered by Parcels Post—Only \$3.00 to start a lawn feature that will be your pride as long as you live, and for your successor unless the bed is removed.

(See Colored Illustration on 3rd Cover Page)

For strong growth and beautiful flowers, they excelled any that I ever grew. I cannot see how you can sell such splendid gladiolus bulbs at such a low price. The wonderful or New York lettuce was surely wonderful, and the best we have ever grown. —Miss Lilly Amburgey, 112 10th St. Norton, Va.,

I want to say that the Knight or Maryland Muskmelon did well for me. It is very productive, and a fine flavor. It is ahead of Rocky Ford with us. Lucullus Swiss Chard and Big Boston Lettuce are as good as we have ever grown. —S. R. Jackson, Rio, La.

Everitt's Specialties—Continued

Sataka's Mammoth Flowering Morning Glories

We just believe that every person who receives this catalogue ought to order a Pkt. of this new type of Morning Glories from Japan. We consider it one of the best SPECIALS that we list. When we tell you that individual flowers, when well grown, measure 6 inches across, you will probably doubt it, as we did. But the grower of our seed sent us a dry and pressed flower and sure enough it measured 6 inches in diameter. As to the color: There is no use to try to tell you except they cover all colors, shades and tints and stripes, besides some are fringed, crumpled and crimped:

PRICE—Pkt., 15c; 4 for 50c; ¼ oz., 30c.

The Evening Primrose

(*Enothera*)—Who has not watched with awe the moving pictures of opening flowers—and appreciated that what required weeks to obtain. Nature's action was accelerated for your pleasure. Yet you can enjoy such a thrill in your own garden if you will sit for 15 minutes at twilight and watch the Evening Primrose (*Enothera*) drop their calyx and unfold their petals. The buds close during the day but presto; a wealth of large golden blooms will greet you and bid you "good night." If this interesting feature were better known, more seeds of this plant would be sold.

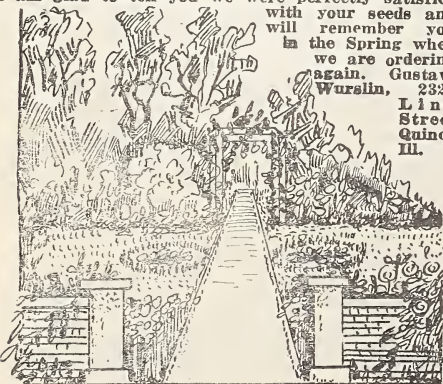

The evening Primrose is one of the most beautiful plants for beds, mixed gardens and borders. They are of easy culture, but prefer a dry soil and sunny position. Lime is their special fertilizer. One or two feet in height and branching and produce freely and continuously, June to September, large, single, Poppy-like flowers of white, yellow, rose color, etc. The flowers remain closed from mid-forenoon until the approach of twilight. Plants should stand 12 inches apart.

PRICE—Pkt. 15c; 2 for 25c; 5 for 50c.

I am glad to tell you we were perfectly satisfied with your seeds and will remember you in the Spring when we are ordering again. Gustave Wurslin, 2328

11th Street
Quincy Ill.

The Butterfly Bush grew into a beauty. The Early Hackensack Cantaloupes were fine and also the Bells Colossal Tomatoes. Parsnips were nice size and rich flavor. Will send for seeds before Spring. David D. Johnson, 521 13th St. Huntingdon, Pa.

Last year we planted some Zinnia Seeds and the flowers were wonderful, extremely large and rich colorings, although it was dry here last summer. Also two Butterfly Bushes were very lovely. And a Honeysuckle which was very small when put out but made a very rapid growth. We were well pleased with everything we planted. E. R. Oleander, Riley, Ind.

I purchased some cannas from you last Spring and the results were amazing and wonderful. The people passing by would stand in awe at the sight of them. Really, they were indescribable.—Mrs. Lewis Rufing, 9 Walnut St., Greenville, Pa.

The Butterfly Bushes came out very fine, and had plenty of blossoms. Other seeds were good.—A. D. Edwards, Atlantic Mine, Mich.

Plant Your Family Orchard

MAKE IT THE TALK OF THE TOWN

"Buddy" Will Bring the Fruit!

And you won't need
an acre, either, if you
plant our

DWARF TREES

50 Dwarf Fruit Trees can be given to the space required by one Large Standard Tree. And with right care will bear in one, two and three years after planting depending on the variety. When developed, Apples, Pears, Peaches and Plums will produce $\frac{1}{2}$ bushel to 2 bushel of fruit each year. Also the fruit will be larger and more highly colored, because it will get more sun and air, and it will be more highly flavored. The fruit can be picked standing on the ground. Think what that means. Also you can have 50 trees of fruit comprising all different kinds on the space where one large tree would stand. The dwarf trees are as hardy as the standards.

OUR VARIETIES

APPLES—McIntosh Red, Northern Spy, Baldwin, Sweet Pound and Early Harvest.
PEARS—Duchess, Buerre de Ajok, Kiefer, Seckel and Bartlett.
PEACH—Early Crawford, Elberta, Late Crawford and Belle.

PLUM—Burbank, Lombard, German Prune and Shropshire Damsom.
CHERRY—Early Richmond, Montmorency, White Oxheart and Black Oxheart.
QUINCE—Champion and Orange.

OUR PRICES

One tree, any variety	\$1.00
Five trees, any variety @85 each
Ten trees, your choice any varieties @75 each
Fifty trees, your choice, any varieties @65 each

ALL DWARF TREES DELIVERED TO YOU AT THESE PRICES, WITH FULL DIRECTIONS FOR PLANTING AND THEIR CARE.

Dwarf Fruit Trees are very attractive and an orchard of them, even a small one, is a sight any owner will be glad to show. Also they can be trimmed and trained to grow in numerous ornamental forms, all of which will be explained in our directions.

Wild Cucumber

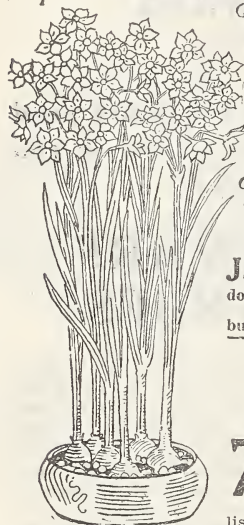

(Echinocytis)

Sometimes it is difficult or impractical to remove unsightly objects. In such cases it is a wise plan to cover them and make them attractive with a mass of green foliage and flowers. The wild cucumber is excellent for this because it is probably the fastest growing vine of all and one's object is accomplished early in the season. The bloom is beautiful, sprays of white flowers followed by large, prickly seed pods, resembling cucumbers. It will grow a length of 30 feet in a season with clean, bright green foliage. Seed may be planted Fall or Spring, when planted in the Spring soak the seed in warm water 24 hours before planting. Price: Pkt. 15c 2 for 25c; 5 for 50c.

Flower**
for the-
Millions
From
Oct. to May

Jap-Bulb-Fiber

This is a compost to put in a dish and plant bulbs there-
in and the best for that purpose. Pkg. for about one
dozen bulbs, 20c. Delivered.

SPECIAL—We will give a package free with each \$1.00 worth of these
bulbs offered above if asked for.

Nearly everybody knows this wonderfully popular flower for
house blooming. Its handling is so simple and its adaptability
so universal that it might be called "The Winter Flower for
the Millions," in country, towns, and in cities, for people living
in houses, cottages, apartment or single rooms. They can
be grown in clear water with pebbles or sand to support the
plants, or 'n dishes filled with Jap-Bulb-Fiber and can be
blooming from October until the next May. Very fragrant. Plant
indoors only.

Fancy Grade—Each 8c; 6 for 35c; dozen 60c; 25 for \$1.25.

We have kept a good supply of these bulbs in cold storage
to supply our trade all through January, February, and March,
until the spring flowers come outdoors.

Chinese Sacred Lilly This is a magnificent form of
Narcissus, bearing beautiful
silvery white flowers with golden cup. Very fragrant. The bulbs
are very large. Indoors only. Treat the same as Paper White
Narcissus. Each 15c; 6 for 75c; 12 for \$1.40. Delivered.

Cut Flower Garden Mixture

7 Of the Best
Flowers For
Bouquets **Free**

All are described in our flower seed
list. Each variety is a gem for cut
flowers and bouquets that will last quite a while. The mixture
is so prepared that a continuous array of blooms will appear
throughout the summer. This mixture can be used in several
different ways: Between rows of vegetables, in odd corners
and in any vacant place.

A Suggestion Spade or plow up that space or that
lot of yours, or next to you, that was
an eyesore of weeds last year and make it a beauty spot this
year. It can supply bouquets for you and the whole neighbor-
hood. If you want to you can make it a community movement
and interest the boys and girls in it.

Our Offer We will give one large packet **FREE** on each
order for \$1.00 or more sent from this cata-
logue. If you want more than a packet, the price will be, 1 oz.
20c; ¼ lb. 75c; per lb. \$2.50. Less than one pound will plant
or sow an ordinary city lot. Keep in mind, only one **FREE** pkt.,
not one for each dollar's worth bought.

Bleeding Heart

(Dicentra)—An old favorite which has been difficult to
obtain for years. Many will now want to plant it in their early
flower gardens, where it will continue for years. It is one of
the most attractive and most desired plants. Early in Spring
to June, it bears long racemes of heart-shaped, rosy-red flowers.
It is perfectly at home and hardy in any climate and does well
in all situations, even in shade.

Strong Clumps 60c; 3 for \$1.50

Dozen, \$5.00 Delivered.

Caution

After it blooms the top dies and does not mark
the place of the plant. Therefore put a marker
where it is, as it will come back the next spring.

The seeds I got from you were all O. K., and were just
what they were recommended to be and proved satisfactory, as
they always have ever since I have been dealing with you. G.
G. King, Douglas, W. Va.

The seeds I got from you were fine, and I had very good
success with them. W. M. Richards, Dundee, Ill.

The seed corn which I purchased from your store was plant-
ed the middle of May and matured fine. The variety was the
Farmers Interest. H. Blank, Boonville, Mo.

In writing to you I want to recommend the
Kentucky Wonder Wax pole bean for crisp, meaty,
delicious beans. For immediate use or canning there
is no bean to compare with it. We planted only one
packet of this seed and we had beans until frost.
We canned eighteen quarts, and sold twice to the
grocery—Wm. G. Halley, 517 E. Brown, Bellefontaine,
Ohio.

I have raised more peppers from Harris Earl
less than I have ever raised from any other kind that

FREE

FREE

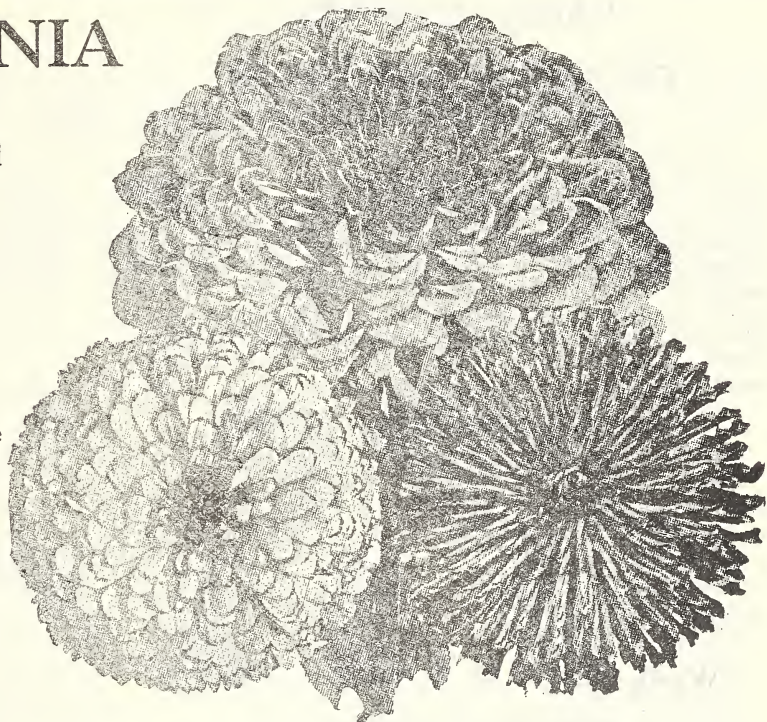

I have raised before. I had beautiful yellow toma-
toes from your seeds. I can say that O. K. seeds
are as good as I ever bought.—Mrs. J. C. Foley,
Heaters, W. Va.

I have found Everitt's seed high in quality and
in germination. Special tests made on several of
the varieties, have given better results than other
seeds planted at the same time. The O. K. Seeds
were stronger plants and yielded a better crop.—
Edward Gregory, Cloverport, Ky.

ZINNIA

Wonderful
Giant
Flowered

They Have
Taken
The
Country
By
Storm

Note The Indianapolis Flower Society adopted the Zinnia as the official flower of the City. Its report referred particularly to the Giant-flowered strains. So great has been the demand on our house for the seed that on some days a guard had to be stationed at the entrance door to keep the people back until some of those on the inside could be served and depart. We offer the best types.

Zinnias Giant Dahlia Flowered

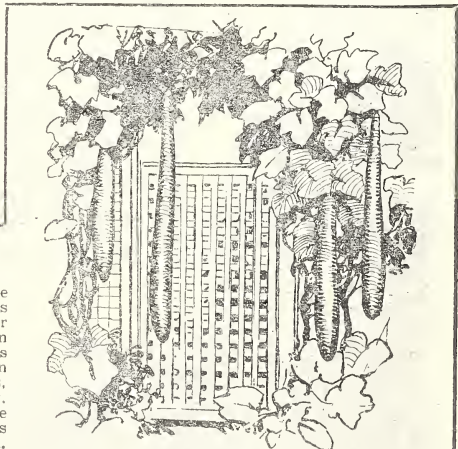

Marked improvements have been made in the Zinnia during the past few years, the old types have been nearly replaced with giant sorts. Planted in the early spring they will bloom in eight to ten weeks from planting and will continue throughout the summer and fall. The blooms are immense size, often measuring five to seven inches across and the colors are bright and attractive. Separate colors.

GOLDEN YELLOW—Pkt. 10c; 3 for 25c.
PINK SHADES—Pkt. 10c; 3 for 25c.
SALMON ROSE—Pkt. 10c; 3 for 25c.
ORANGE—Pkt. 10c; 3 for 25c.
SCARLET SHADES—Pkt. 10c; 3 for 25c.
EVERITT'S SUPERIOR GIANT MIXTURE—
Pkt. 10c; 3 for 25c.

Special Offer One Pkt. Each of above six varieties for 50c.

MEDIUM FLOWERED BEDDING ZINNIA or the Old Fashioned Zinnias. Fine mixed Pkt. 5c; oz. 25c.

The seeds which I got from you (pansy seed) did fine. I transplanted 6,000 plants the 1st. of October which were fine plants and am looking forward to some nice flowers next Spring. The Butterfly Bush was the marvel of all who saw it, and I am confident you will get several orders for them from some of my neighbors. The bush had many beautiful flowers its first year and continued to bloom until frost.—Mrs. Myrtle Graham, Ex-cambaba, Mich.

Lagenaria.

Lagenaria

Called by Some "New Guinea Butter Bean"

This is really not a bean, but is a tasty edible product when cooked as butter beans, or fried as an egg plant or boiled like a squash. Directions for cooking on each packet. It also has much merit in the size and attractiveness of the vine. The leaves and blooms are larger and handsomer than Moon Vines which, in connection with the curious fruits, which easily grow 25 inches long and frequently 3 ft. make a vine the talk of a whole neighborhood. See the illustration drawn from a photograph. Succeeds everywhere. Will grow about 50 feet in one season. Pkt. 10c; 6 for 50c; 12 for \$1.00; oz. 50c.

HARDY FLOWERING Perennials and Shrubs

Blooming Frost to Frost

Honest Now, Mr. and Mrs. Householder, if you were to make the very best wish, would you not wish for a planting of hardy things on your place that will give you flowers and nice foliage from early spring until late fall? But when you made such a wish you probably would not know just what to select. So here we help you out. All you will need to do will be to send for the collections at the prices, delivered, or buy from our list of Hardy Shrubs as many as you want. The plants in this collection are our regular full size stocks. These collections should appeal particularly to people starting a new place.

HARDY FLOWERING SHRUBS

Blooming Frost to Frost

1—50c Spirea—Anthony Waterer	June-Nov.	Crimson
1—50c Wigella Rosa	June-Oct.	Pink

Worth \$5.35—All for \$4.25—Delivered

HARDY PERENNIALS

Flowering From Frost to Frost

Perennials were the chief dependence of the old-fashioned garden and are coming more in style than ever before these busy days, when people want what require very little care. The following fine assortment will give blooms from the early days of spring until autumn frosts. Sow the seeds indoors in February, March or April and set plants as early as the ground will permit. This collection must appeal strongly to every person starting a new place. The plants increase in beauty and may be divided for new plantings after a year or two.

1 Pkt. seeds 5c; 1 plant 25c; Variety Campanula, Mixed, Blooms June.
1 pkt. seeds 10c; 1 plant 25c; Variety Chrysanthemum, mix. Blooms Oct.
1 pkt. seeds 10c; 1 plant 25c; Variety Coreopsis, mix. Blooms all summer.

1 pkt. seeds 12c; 1 plant 25c; Variety, Delphinium, Belladonna, Blue, Blooms, June.

1 pkt. seeds 12c; 1 plant, 25c; Variety, Dianthus Barbatu (Sweet William) Blooms, Aug.-Sept.

1 plant of each variety, \$2.50.

OUR OFFER

The 10 pkts of seeds for 60c.

The 10 plants for \$2.00.

All Delivered.

Nothing could please me more than to put a good word for your vegetable and flower seeds. The Early Wonder Beet is really early and very delicious. I like the crispness of the head lettuce and the Bells Colossal Tomatoes were just fine. I also had 100 mixed gladiolus bulbs and they were a dozen different colors and the flowers were superb. Also the Zinnias looked like large dahlias especially the cactus variety. I can assure you I have been a satisfied customer and hope to remain so in the future. Acathae Weishaar, Matteson, Ills.

Your red and yellow onion sets were truly O. K. in every respect. Clarence Miller, Huntsville, Mo.

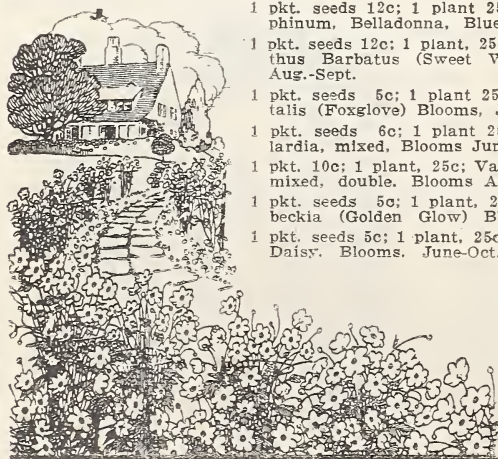

The Butterfly Bush which I received from you was very satisfactory, and it is doing nicely and bloomed the first year. Adele Foeller, Belleville, Ill.

We have been very well satisfied on the whole with our seeds. Our flowers were very pretty and bloomed abundantly especially the fringed petunia. Alysum was wonderful, also annual Phlox. Please send us new catalogue, Marguerite G. Bartley, Hinsdale, Ill.

The two pounds of Farmers Interest White Dent corn I got of you last year yielded 10 bu. of ears of the finest corn I ever saw. I think Farmers Interest corn is the corn to grow on good land. I can't speak too highly of it. Curtis Bean, Domana, Va.

I am well pleased with the seeds and plant I bought of you last Spring. Will certainly remember you in the Spring. Please send catalogue. George L. Rinker, Martinsville, Ind.

We think the seeds are very good. Always have good crops from your seeds, D. Mumme, B. 3, Stockport, Ohio.

General List of

CELEBRATED O. K. SEEDS

WITHIN THE PAGES OF THIS CATALOGUE YOU WILL FIND EVERYTHING YOU NEED IN
DEPENDABLE SEEDS TO GROW A SATISFACTORY AND SUCCESSFUL GARDEN.

Everitt's (O. K.) Culture **ARTICHOKE SEED**

Sow early in hotbed, or outdoors in May. Transplant to rows 3 feet apart and 2 feet apart in row. It is hardy in the north. One oz. of seed will sow 25 feet of row for plants. The unripe flower heads are used delicious. Pkt. 10c; oz. 40c.

Everitt's (O. K.) **ASPARAGUS SEED**

Asparagus is the first vegetable to come in the spring and is very popular with those who know its value. Every garden should have a generous supply and when properly set and cared for will last a lifetime. Plant in trenches 10 inches deep and 1½ feet apart. Place plants in the trench 6 to 8 inches apart, spreading roots out flat. Then cover with about three inches soil. Well-rotted manure spread on top is very beneficial. 100 plants for average family.

New Washington Asparagus. Everybody should renew old beds with this. Recommended by the U. S. Government at Washington. This variety produces large, straight, white shoots of excellent quality. It is nearer being rust-proof than any other variety. Pkt. 10c; oz. 25c; ¼ lb. 75c. Strong roots. doz. 50c; 50 for \$1.25; 100 for \$2.25.

Columbia Mammoth White Pkt. 10c; oz. 20c; ¼ lb. 50c.

Everitt's (CK) **Seed Beans**

Lima Beans should not be planted until the latter part of May. A quart of large Lima Beans plants 100 hills. of the smaller sorts, 200 hills.

GROW LOTS OF BEANS—Remember our prices include delivery.

Dwarf Green Pods

Burpee's Stringless Green Pods (Round Pod) Early, hardy, vigorous and productive. Pods large, 5 inches long, stout, round and crease backed, dark green in color; strictly stringless, tender and brittle. One of the best for market. ¼ lb. 12c; ½ lb. 20c; 1 lb. 35c; 5 lbs. @ 30c.

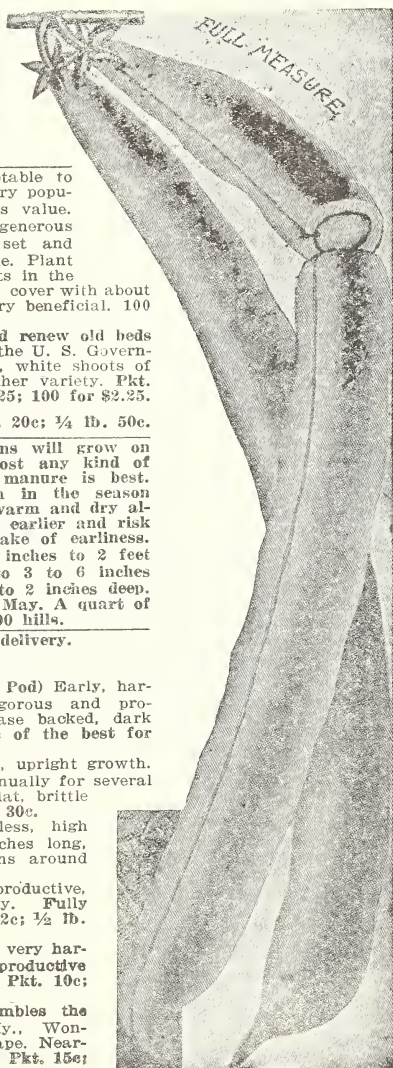

Bountiful (Flat Pod) A most early variety of sturdy, upright growth. Free from rust and mildew, it bears continually for several weeks. Pods are seven to eight inches long, straight and flat, brittle and stringless. ¼ lb. 12c; ½ lb. 20c; 1 lb. 35c; 5 lbs. @ 30c.

Full Measure (Round Pod) A fine early stringless, high quality bean. Pods straight, 6 inches long, very fleshy, round, crease backed and showing depressions around the beans. ¼ lb. 12c; ½ lb. 20c; 1 lb. 35c; 5 lbs. @ 30c.

Giant Stringless (Round Pod) an extremely productive, handsome and tender variety. Fully stringless. Pods slightly longer than Burpee's. ¼ lb. Pkt. 12c; ½ lb. 20c; 1 lb. 35c; 5 lbs. @ 30c.

Imp. Early Red Valentine (Round Pod) A very hardy, early productive standard sort, slightly stringy but splendid quality. ¼ lb. Pkt. 10c; ½ lb. 20c; 1 lb. 35c; 5 lbs. @ 30c.

Bush Kentucky Wonder (Flat Pod) Resembles the popular Pole Ky., Wonder, with pods 6 to 7 inches long, flat and irregular in shape. Nearly stringless and of very splendid flavor, seeds brown. ¼ lb. Pkt. 15c; ½ lb. 25c; 1 lb. 40c; 5 lbs. @ 35c.

DWARF WAX OR YELLOW POD

Our prices include delivery.

Wonder Wax (See Specialties.)

WARDWELLS
KIDNEY WAX

(Flat Pod) This is one of our specialties.

A very popular, early variety. Pods large, 5½ to 6 inches long, straight and flat, fleshy, brittle, fine grained and stringless, very attractive. ¼ lb. 12c; ½ lb. 20c; 1 lb. 35c; 5 lbs. @ 30c.

Davis White Kidney Wax (Flat Pod) Early Mammoth Pods, 6½ to 7 inches long. Slightly stringy. A market gardeners favorite. ¼ lb. 12c; ½ lb. 20c; 1 lb. 35c; 5 lbs. @ 30c.

Imp. Golden Wax (Flat Pods) Very early and quite productive; flesh brittle, stringless and of good quality; seed white, much mottled brown. ¼ lb. 12c; ½ lb. 20c; 1 lb. 35c; 5 lbs. @ 30c.

Black German Wax (Round Pods) A standard sort. Early, pods fleshy, stringless, attractive, about 5 inches long. ¼ lb. 12c; ½ lb. 20c; 1 lb. 35c; 5 lbs. @ 30c.

Bush, Shell Beans

Large White Marrow Large, oval shaped, white beans, grown as a field crop for baking. ¼ lb. 10c; ½ lb. 20c; 1 lb. 30c; 5 lbs. @ 25c.

Navy or Pea Bean A small round, white bean, extensively grown as a field crop. ¼ lb. 10c; ½ lb. 20c; 1 lb. 30c; 5 lbs. @ 25c.

Red Kidney The beans are deep red in color. Much raised as a field crop. ¼ lb. 12c; ½ lb. 20c; 1 lb. 30c; 5 lbs. @ 28c.

BUSH LIMA BEANS

Henderson's Early A vigorous, hardy small type of Bush Lima; much in favor with family gardeners and canners. Also much raised as a field crop for dry beans. A surprising crop can be grown on a small space. ¼ lb. 15c; ½ lb. 25c; 1 lb. 45c; 5 lbs. @ 35c.

Burpee's Imp. Both beans larger than the old type; average one more bean to the pod; ¼ lb. 20c; ½ lb. 35c; 1 lb. 50c; 5 lbs. @ 45c.

Forhook Preferred by many particularly by market gardeners. Very thick white beans. ¼ lb. 20c; ½ lb. 35c; 1 lb. 55c; 5 lbs. @ 50c.

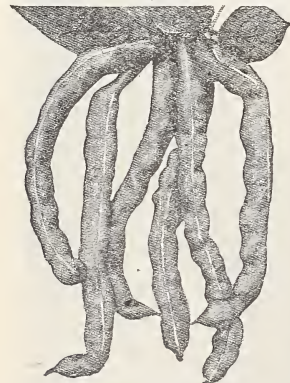

POLE BEANS

Kentucky Wonder The most popular (Round Pod) green-podded climbing, or corn-hill bean; early and wonderfully productive. Bears until frost. Pods, 8 to 9 inches long

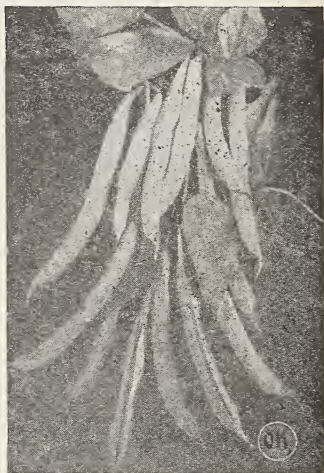

"All of the seeds we have ever bought from you have given entire satisfaction especially Bells Colossal tomatoes, radishes and cucumbers."—Lee S. Ayer, Deputy, Ind.

"All seeds received from you have given good returns. The early wonder bet did wonders. King of Picklers cucumbers are good and also First Crop radish."—Chas H. Moore, Shoals, Ind.

Kentucky Wonder

REMEMBER—You may select \$1.25 worth of seeds in Pkts., ozs. and ¼ lbs. for each \$1.00 sent us in payment for Pkts., ozs. and ¼ lbs.

Wardwells Kidney Wax

The returns from an acre of corn can be doubled by planting this bean in the corn hills. ¼ lb. 12c; ½ lb. 20c; 1 lb. 35c; 5 lbs. @ 30c.

Golden Cluster Wax

(Flat Pods) Unsurpassed in Wax Pole Beans. Pods 6 to 7 inches long, in clusters. Flesh thick and stringless. Beans white, ¼ lb. Pkt. 15c; ½ lb. 25c; 1 lb. 40c; 5 lbs. @ 35c.

Lazy Wives (Flat Pods)—Borne in such large clusters that a mess can soon be gathered, hence the name. Pods long, broad, fleshy, stringless. Beans white. ¼ lb. Pkt. 15c; ½ lb. 25c; 1 lb. 40c; 5 lbs. @ 35c.

Horticultural or Cranberry (Flat Pods) An old well known standard sort. Stringless and of good quality; color dark green, splashed with bright red. ¼ lb. 15c; ½ lb. 25c; 1 lb. 40c; 5 lbs. @ 35c.

Cut-Short or Corn Hill (Flat Pods) A well-known hardy, late and productive sort. Green Pods 3½ to 4 inches long, straight and flat. Some strings. One of the best for planting in corn. ¼ lb. 15c; ½ lb. 25c; 1 lb. 40c; 5 lbs. @ 35c.

Kentucky Wonder Wax (Round Pod) — One of the earliest of the pole wax sorts. Pods 8 to 9 inches long, thick, crease backed, very fleshy, brittle, but has some strings. ¼ lb. 15c; ½ lb. 25c; 1 lb. 40c; 5 lbs. @ 35c.

Yard Long or **CHINESE THREE FEET—RUNNER**—See specialties.

Succotash Pole Bean (See Specialties.)

"I can say that I got better results from your seeds than those purchased from any other place. Mrs. M. C. Mitchell, 520 H. St., Bedford, Ind.

Everitt's (CK) Beet Seeds

Culture For best results, select a deep, rich loam and fertilize with well decomposed manure. Sow 14 to 16 inches apart, cover 1 inch. Thin to 4 to 5 inches apart. Or sow in beds and transplant to garden, plant as soon as ground is fit in Spring for early. For Autumn, plant May and June; for Winter, about July 1st, according to variety. One pkt. will make about 250 plants. One oz. about 800 plants; 7 lbs. per acre.

EARLY WONDER—See Specialties.
NUTTINGS EARLY GEM—See Specialties.

Crosby's Egyptian The first to produce edible roots. Plant for first crop. Roots globe-shaped, skin blood red, flesh red, slightly zoned, small top. The Crosby strain is a great favorite for home and market garden and for forcing. Pkt. 5c; oz. 10c; ¼ lb. 25c; lb. 85c; 5 lbs. @ 75c.

DETROIT (DARK RED)

but also for home use and canning. Its early maturity, and the splendid shape and color of the root make it popular everywhere. Color of skin dark blood red; very crisp, tender and sweet, and remains so for a long time. Pkt. 5c; oz. 10c; ¼ lb. 25c; lb. 85c; 5 lbs. @ 75c.

This variety is one of the best deep red turnip beets, not only for market gardeners

Extra Early Eclipse Round, very early, grows good size, and is very tender. Has small top, bright red flesh. It is excellent for home and market. The O. K. strain is unexcelled. Pkt. 5c; oz., 10c; ¼ lb. 25c; lb. 85c; 5 lbs., @ 75c.

Long Blood Red Requires longer to grow than the round ones, but you can get more of these from the same ground than of any other kind. For winter use or for stock. It can be planted as late as July or August. Pkt. 5c; oz. 10c; ¼ lb. 25c; lb. 85c; 5 lbs. @ 75c.

CRIMSON GLOBE

We offer an unusual fine strain of this most beautiful beet, if beets can be called beautiful. Especially on light soil this most handsome beet will be appreciated by all who try it. The skin and flesh are both very dark. Quality the finest. Has a small top. Season late. A good keeper. Pkt. 5c; oz. 10c; ¼ lb. 25c; lb. 85c 5 lbs., @ 75c.

Edman's Blood Turnip A fine second Early. Roots nearly round. Dark, Red. A splendid Keeper. Pkt. 5c; oz. 10c; ¼ lb. 25c; lb. 85c.

SWISS CHARD—LUCULLUS See specialties.

Mangels and Sugar Beets RAISE THEM FOR STOCK AND POULTRY

Mammoth Long Red If your soil is fairly deep this is the one to plant. Grows as much as 2 feet long, much above

the ground. Makes a great yield, as much as 60 tons to the acre. The favorite with dairymen and sheep raisers. Pkt. 5c; oz. 10c; ¼ lb. 20c; lb. 60c; 5 lbs. @ 50c.

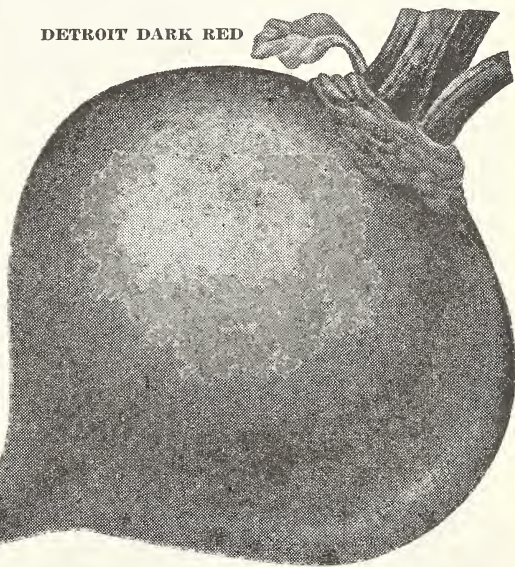

Golden Tankard This variety grows almost entirely on top of the ground. It is therefore well adapted where the soil is not loose to much depth. Shape oval, color deep yellow; quality good; productive, early, easily harvested. Pkt. 5c; oz. 10c; ¼ lb. 20c; lb. 60c; 5 lbs. @ 50c.

Champion Yellow Globe The best yellow globe mangel. Heavy yielder and has high feeding value. Pkt. 5c; oz. 8c; ¼ lb., 15c; lb. 50c; 5 lbs. @ 45c.

GIANT SLUDSTRUP MANGEL—See specialties.

Klein Wanzleben Sugar This is the richest in sugar, but is not profitable to grow for stock, as it is small and roots deep in the soil. Only recommended for making sugar. Pkt. 5c; oz. 10c; ¼ lb 20c; lb. 50c; 5 lbs. @ 45c.

DETROIT DARK RED

Everitt's (O. K.) Broccoli Seed

Culture Sow the seed in May. Plant in garden late in June or early in July, in rich mellow soil. Set 18 inches by 2 feet. Similar to Cauliflower.

Large White Heads compact and very certain to head. Delicious. Color white. Pkt. 10c; oz. 40c

BRUSSELS SPROUTS

Culture Related to the cabbage family and produces a great number of small heads on the main stem. Plant the seed in moder-

ately rich soil, in hill 2 feet apart each way. Leave only one plant to a hill. They are considered a great delicacy. Prepare like cabbage. One Pkt. will give about 500 plants; one ounce about 2,500 plants.

Imp. Dwarf Market The favorite variety in most parts of the country. Grows about 20 inches high with sprouts 2 inches in diameter around the stem. Delicate flavor. A sure cropper. Pkt. 10c; oz. 20c; ¼ lb. 75c.

Paris Market Taller than above. Most excellent and a sure cropper. Pkt. 10c; oz. 25c; ¼ lb. 75c.

Everitt's (K) Cabbage Seed

ly set the plants out as early as ground will permit. For late set plants about middle of June in latitude of Indianapolis. One Pkt will make about 300 plants, one oz. about 2,000 plants, one-quarter lb. for one acre.

EARLY and MID-SEASON GOLDEN ACRE—See Specialties.

Everitt's Selected Early Jersey Wakefield The most widely known and popular early variety for home and market, heads pointed and very solid. Pkt. 5c; oz. 20c; ¼ lb. 75c; lb. \$2.50.

CHARLESTON LARGE WAKEFIELD Only about one week later than early Jersey Wakefield, but the pointed heads are fully ½ larger. Pkt. 5c; oz. 20c; ¼ lb. 75c; lb. \$2.50.

Early Winnigstadt True Stock. Medium early, short stemmed, pointed heads, solid, very productive. The kind mother raised in her garden and liked it. Pkt. 5c; oz. 20c; ¼ lb. 75c., lb. \$2.50.

Copenhagen Market

Very fine. The earliest of the solid round head varieties. Stem short, heads are large, round and solid, of an upright growth with few leaves. A very profitable kind to grow. Pkt. 5c; oz. 20c; ¼ lb. 75c; lb. \$2.50.

All Head Early

One of our Specialties. It is as early as any summer cabbage and makes such large, uniform, handsome, solid heads that it competes with the later fall varieties. Unsurpassed in eating qualities. For Fall and Winter should be sown, late. Pkt. 5c; oz. 20c; ¼ lb. 75c; lb. \$2.50

Early Flat Dutch

a time when there is an excellent demand for the flat head varieties and when the

Culture

Sow seed in hot bed or house for early, in beds for late or main crop. Early kinds set 18 inches apart. The late and large kinds in rows 2 to 3 feet apart and 2 to 3 feet in rows. Do not follow cabbage or turnips with cabbage. For early

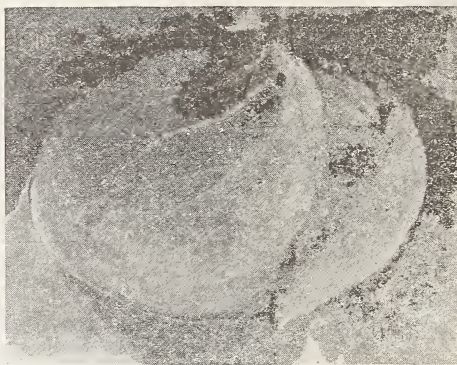

Cabbage will succeed on any land that will grow good corn. The richer the soil the bigger will be the crop. Sow seed in hot bed or house for early, in beds for late or main crop. Early kinds set 18 inches apart. The late and large kinds in rows 2 to 3 feet apart and 2 to 3 feet in rows. Do not follow cabbage or turnips with cabbage. For early

All-Head Early Cabbage

pays the highest prices: Pkt. 5c; oz. 20c; ¼ lb. 65c; lb. \$2.25.

Louisville Drumhead Second early, heads large and solid. One of the best to withstand Summer heat. Pkt. 5c; oz. 20c; ¼ lb., 75c; lb. \$2.50.

Danish Winter Ballhead

This desirable cabbage comes just at the market usually

Surehead Selected Stocks "All Head and sure to head" Heads are large round and flattened, very hard and fine-grained; splendid keeper. A universal favorite for main crop. Pkt. 5c; oz. 20c; ¼ lb., 75c; lb., \$2.50.

Danish Winter Ballhead

For late Winter and Spring, this one is hardly excelled. It is a rough and ready sort, thriving very well on thin soil and in adverse seasons. It is well and favorably known on nearly all markets and is sought after in March and April when it comes out of the pits as fresh as when put in. Pkt. 5c; oz. 20c; ¼ lb. 75c; lb., \$2.50.

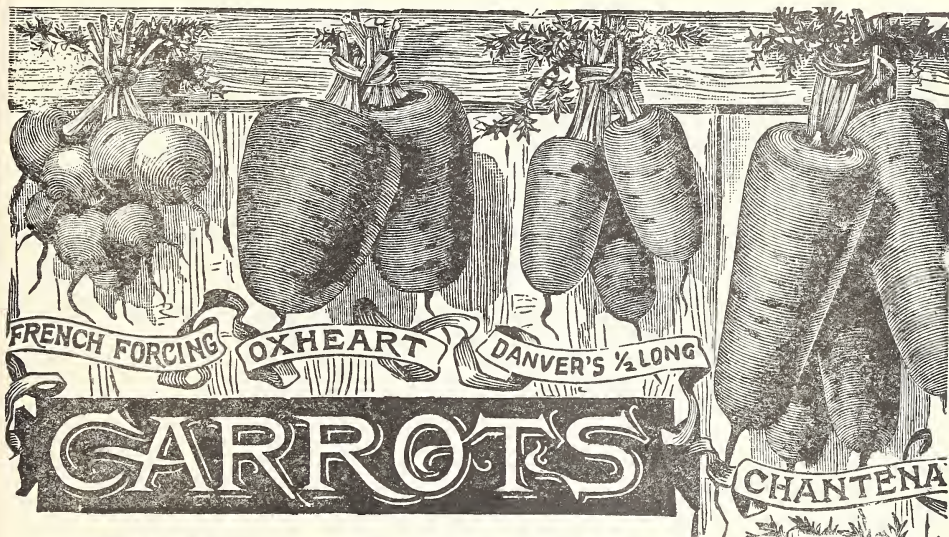

Large Late Drumhead

A favorite winter cabbage; recommended for its fine, large, deep, heavy and solid long-keeping heads on short stems. Can be kept in good condition till late in the spring. This is another of our Specialties. Pkt. 5c; oz. 20c; ¼ lb. 75c; lb. \$2.50.

Cabbage Plants We can supply leading varieties of cabbage plants beginning March 20. Send for our list and prices. **FROST-PROOF CABBAGE PLANTS—** See specialties.

Everitt's Premium Late Flat Dutch

Everitt's O. K. Culture This delicious and nutritious vegetable is not appreciated as it should be. Properly cooked, it is a great delicacy. A sandy soil is best, but any good rich soil will produce good crops. Sow in early spring in rows 15 to 18 inches apart and thin to 3 to 4 inches, according to size of variety. Cover the seed half an inch and give good cultivation throughout the season. They may be eaten either when a half inch or so in diameter, or when fully grown.

CARROT SEED

One pkt. will sow about 40 feet; one ounce, 150 feet.

RUBICON CARROT—See Specialties.

Chantenay Model This carrot comes between the very early and later varieties. Of the same style as Danvers, not quite so large, but finer quality. Color rich dark orange. In some markets is preferred to others for bunching. In shape and quality this leaves nothing to be desired in a medium season carrot. Pkt. 5c; oz. 10c; ¼ lb. 30c; lb. \$1.00

SELECTED DANVERS The most largely grown of all—Color, rich dark orange, very smooth, cylindrical, very handsome; easily harvested. It is a very heavy yielder and profitable to raise for poultry and other stock. Pkt. 5c; oz. 10c; ¼ lb. 30c; lb. \$1.00.

Half Long Nantes Grows 6 to 8 inches long. Skin, rich orange color and smooth. For table very fine and free from woody fiber. Pkt. 5c; oz. 10c; ¼ lb. 30c; lb. \$1.00.

Imp. Long Orange This is the old standard late variety. If it is a matter of keeping for late spring, sow Long Orange. It is a very heavy producer. Profitable to grow for chickens and stock. Give deep, light soil. Pkt. 5c; oz. 10c; ¼ lb. 30c; lb. \$1.00.

Extra Early Scarlet One of the earliest, small round root. For garden as well as under glass. Pkt. 5c; oz. 10c; ¼ lb. 30c; lb. \$1.00.

Ox Heart also called GUERANDE. It is very early, short, thick and extra fine quality. It is also very popular as an early bunching kind for market. Deep orange color. Finely adapted to shallow, hard soils. Pkt. 5c; oz. 10c; ¼ lb. 30c; lb. \$1.00.

White Vosges Shorter and thicker than the Belgian. Very productive. Easily harvested. Pkt. 5c; oz. 10c; ¼ lb. 25c; lb. 75c.

Everitt's (CK) Culture The roots, dried and ground, are used as a substitute for coffee, also very palatable when cooked. Sow early in the Spring in rows 18 inches apart and thin to 6 inches between plants. The plants are perennial and spread from the roots.

Chickory Seed

Large Rooted The dried roots are roasted and mixed with coffee or used as a substitute. Pkt. 5c; oz., 20c; ¼ lb. 55c.

Witloof (French Endive) A delicious new salad plant that should be in every garden. Seed when sown in May or June form long, parsnip-shaped roots. The roots are taken up and placed in sand in a warm dark place when they make growth of lettuce-like leaves which are cut and served as a salad. Pkt. 10c; oz. 20c; ¼ lb. 65c.

Everitts O. K. Collard Seed

Culture Sow seed as for cabbage, in June, July and August for succession. When a month old, transplant in rows a foot apart each way and cultivate thoroughly. One oz. will make about 2000 plants.

Georgia Bears large bunches of leaves which are used as greens. It also furnishes green forage for stock or poultry. As fast as the leaves are pulled, new ones make their appearance. Pkt., 5c; oz. 10c; ¼ lb. 50c.

Everitts O. K. Corn Salad Seed

Culture Sow in early Spring. Also August, September or October, and treat like lettuce, except that it may be planted closer, as it is smaller. It may be carried through the winter in cold frames or by covering with leaves or litter. Used as fall and winter salad. Serve like lettuce or spinach. One oz. to 100 feet of row.

Large Round Leaved The well-known variety. Ready to use in 4 to 5 weeks. Pkt. 5c; oz., 15c; ¼ lb. 50c.

FOR STOCK FEEDING

Belgian White and Yellow

are stock carrots. They differ only in color of skin. Ten to 15 inches long, very large and productive. Can be pulled by hand. Either kind. Pkt., 5c; oz., 10c; ¼ lb. 25c; lb. 75c.

Everitt's (CK) Celery Seed

Culture

Plant seed in house or hot bed for early plants. For main, late crop, it can be sown early in open ground. When 3 inches high transplant to 4 inches apart. When well rooted transplant again to permanent place, on surface or in trenches. Set plants 8 to 10 inches apart. One pkt. will produce about 800 plants; One ounce about 4,000.

Golden Self-Blanching

Our strain of this variety is unexcelled. Plants compact and stocky, with yellowish-green foliage, of a fine nutty flavor. Attains a good size and when blanched is of a handsome

golden yellow color. Pkt. 10c; oz. 40c; ¼ lb. \$1.25.

GOLDEN PLUME— See Specialties.

Winter Queen

This grand variety grows stout, thick and heavy, with more heart than most other kinds. It bunches up handsomely, presenting an attractive appearance when offered for sale, while it has that sweet nutty quality so much desired in celery. The leaves are light green, which with the stems, blanch easily to a creamy white. Pkt. 5c; oz. 25c; ¼ lb. 85c.

White Plume The earliest and most easily blanched celery in cultivation, hence its popularity. Foliage light-green shading to nearly white at tips. Blanching silvery white. An excellent autumn variety. Pkt. 5c. ounce 25c; ¼ lb. 85c.

EASY BLANCHING CELERY

Notwithstanding the splendid varieties of celery that were before the gardening public, this new variety is already enjoying an enviable popularity, purely on account of its great merit. Plants of Easy Blanching, set out at the time of Golden Self-Blanching will be ready for market two weeks later than that variety,

but will produce about twice as much weight and will sell at higher prices, because of its magnificent appearance and high quality. Its habit is dwarf and compact with a wealth of rich, crisp, nutty flavored hearts and stems, every bite of which will be relished. It blanches with the greatest ease, quite a time before it is possible to get other green celeries ready for market or the table. It is a celery for Summer, Fall, Winter and Spring. Pkt. 10c; ½ oz., 25c; oz., 50c; ¼ lb. \$1.50.

Cauliflower Seed

Culture

Treat very similar to cabbage. Ground should be rich. Cauliflowers make their best growth in the cool, moist days of Fall. One oz. will produce about 2,000 plants; one packet about 300 plants.

DRY WEATHER CAULIFLOWER—See specialties.

Early Snowball

For forcing or growing in open ground, it is the acknowledged leader. It has short outer leaves and can be planted 2 feet apart. Is early, solid, pure white and is sure to head. Pkt. 10c; ½ oz. \$1.00; oz., \$1.75.

Dwarf Erfurt

Our stock of this variety is almost as early as the Snowball, heads are larger and creamy white. Has many friends and by some is even preferred to the above variety for forcing and outdoor growth. Pkt. 10c; ½ oz., \$1.00; oz. \$1.25.

Everitt's (CK) Culture

Cress Seed

Plant thickly in drills 6 to 8 inches apart. Prized for the piquancy of its leaves. It makes an appetizing salad and is used for garnishing. One oz. to 100 feet of row. That grown in the cool of the season is best. Sow often as it soon goes to seed.

Fine Curled (Pepper Grass)

Pkt. 5c; oz. 15c; ¼ lb., 50c.

Water Cress

Must be grown by water—along the banks of ponds or streams. Seed should be started in bed and transplanted to where wanted. Pkt. 10c.

"I must say that your seeds have always given perfect satisfaction. All are first class, especially the Bells Colossal tomato. It can't be beat. Golden Plume celery, is the best there is. The Butterfly Bush and Gladiolos were beautiful."—Elizina La-fara, Box 56, Osgood, Ind.

"Those seeds I bought from you last Spring were the best I ever planted. Because every seed came up. I think they are the best I have ever bought."—Jack Miles Box 23, Polatan, W. Va.

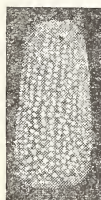

"Your Early Wonder Beets were the finest I have ever had in twenty-five years of gardening experience. They are fine for pickling for winter. They grow very fast, and I raised three separate crops last summer. Golden Plume Celery did fine. Found it very crisp and tender. Bells Colossal tomato finest tomato for all seasons. King of Picklers cucumbers, thought I never would get them all picked. Had 1 package, and had enough for family for all winter."—Mrs. M. J. Eichman, Geneva, Ill.

I have purchased seeds from your firm for several years and have always been well pleased with them. Last year I bought onion and turnip seeds. The onion seed was especially fine and I harvested a nice lot of sets from them—Mrs. David E. Hull, Osgood, Ind.

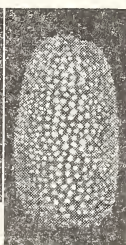

Everitt's (CK) Seed Pop Corn

Culture The same as for sweet corn except the same weight or bulk of seed will plant about twice the space. Three quarts will plant an acre.

Besides the satisfaction derived from a supply of good pop corn in the house to pop and eat and entertain your friends in the long winter evenings, it can be made a very profitable crop. Let the boys raise an acre of it to sell through the grocery stores, or otherwise for their own spending money. Be sure to obtain a good variety. We have it pop satisfactorily, it it may be too dry. Best to keep in moderately damp place.

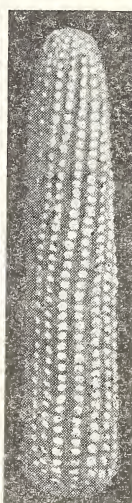

Baby Golden

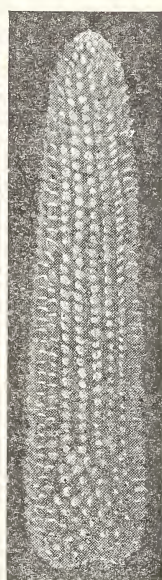

Japanese Hulless

White Rice

A Standard variety saleable on all markets. Very prolific. Pkt. 5c; 1/2 lb. 15c; 1 lb. 25c; 5 lbs. @ 20c.

Queen's Golden

The largest eared, largest grained variety. While the grains are yellow it pops perfectly white, very productive. Pkt. 5c; 1/2 lb. 15c; 1 lb. 25c; 5 lbs. @ 20c.

Japanese Hulless

A splendid variety recently introduced. Coming to be much in demand by poppers. Used exclusively in many sections where known. Yields and commands 50 to 100 per cent better price per pound from poppers than the old varieties. Pkt. 5c; 1/2 lb. 20c; 1 lb. 30c; 5 lbs. @ 28c.

Japanese Amber—Another new variety of the highest quality and very showy. Ears good size filled with transparent long white grains which pop to 20 times their original size. A coming commercial variety. Pkt. 5c; 1/2 lb. 30c; 1 lb. 50c.

Baby Golden A yellow dwarf variety. Bears several small chubby ears to a low stalk. Makes a wonderful reputation wherever offered. Easily brings double the price of White Rice. Pkt. 10c; 1/4 lb. 20c; 1 lb. 50c.

Gourd Seed Culture Start the seed early and transplant, or in open when ground is warm. The following varieties will be found very useful about every house. All are ornamental climbers.

Nest Egg They closely resemble the eggs of hens and are very useful as nest eggs, never breaking or freezing. The plant grows very rapidly, and is useful in covering unsightly places, being quite ornamental. Pkt. 10c; oz. 25c.

Dipper This variety makes a splendid tool for dipping hot liquids. The handles do not heat through. Vines attractive. Pkt. 10c; oz. 25c.

Dishcloth Makes an admirable vegetable dishcloth. The peculiar lining is the part used, which is sponge-like, porous, very tough and elastic. The vines are ornamental. Pkt. 10c; oz. 30c.

Sugar Trough Grows to great size. Cut off the top and you will have a receptacle that will hold from 1 to 10 gallons, and will be useful for many purposes. Pkt. 10c; oz. 25c.

Mixed All varieties mixed. Packet for 10c; One Ounce 25c.

Special Offer For 30c, we will send one packet of each.

Kale Seed Culture Used as "Greens" in the fall and winter and are most welcome when other vegetables are gone. With a little protection the plant will winter over out doors. Sow seed like cabbage and transplant. Sow July and August.

One packet will plant about 40 feet of row; one ounce about 200 feet.

Dwarf or Curled Scotch This is the variety usually sown in the fall for spring use. The young leaves are very tender and delicate in flavor. Pkt. 5c; oz. 15c; 1/4 lb. 35c; 1 lb. \$1.10.

Siberian A vigorous grower of spreading habit. The leaves are large, rather plain in the center, but cut and frilled at the edges. Very hardy. Pkt. 5c; oz. 15c; 1/4 lb. 35c; 1 lb. \$1.10.

Everitt's (CK) Seed Sweet Corn

Culture If you do not care for the seed that may be lost plant some sweet corn even before the ground is very warm. If it comes you will have earlier roasting ears. Ordinarily plant when ground is warm. The small early kinds plant in rows 2½ feet apart, 10 inches apart in rows. Large kinds, 3 feet by 12 inches apart. Plant frequently for succession. One pkt. will give about 200 stalks; one quart will plant about one-fifth acre.

**Grow Sweet Corn. The Home Grown is Always Better.
Our Prices Are Delivered.**

EXTRA EARLY VARIETIES

Golden Bantam It is very early, very sweet, very hardy and very productive. It becomes a favorite with all who grow it or eat it. Dwarf, can be planted closely. The prime favorite for small gardens and early market. ¼ lb. Pkt. 12c; ½ lb. 20c; 1 lb. 30c; 5 lbs. @ 28c.

White Cory The largest and best of extra early sweet corn. Ears, 10 to 12 rowed, 7 to 8 inches long, sweet, tender and white. Stalks about 4 feet high, usually producing two ears on each stalk. ¼ lb. Pkt. 12c; ½ lb. Pkt. 20c; 1 lb. 30c; 5 lbs. @ 28c.

Whipples Early See Specialties.

Ex. Early Adams This is not a sugar corn. Hardier than sugar corn; makes a small stalk; can be planted close. ¼ lb. 10c; ½ lb. 20c; 1 lb. 30c; 5 lbs. @ 28c.

MEDIUM EARLY

Golden Cream A very fine corn on the order of the Golden Bantam and following that popular sort in maturity. Ears about the same size as the Bantam, but the grain is smaller, deep and zigzagged and of a rich golden color; of excellent quality. ¼ lb. Pkt. 15c; ½ lb. 25c; 1 lb. 40c; 5 lbs. @ 35c.

Howling Mob A big-eared medium early corn with the sweet flavor of the late varieties; ears 7 to 9 inches long; usually two pearly white ears to the stalk; the shuck extends well over the tip and protects it from the green worm so destructive to early sweet corns. ¼ lb. Pkt. 12c; ½ lb. 20c; 1 lb. 40c; 5 lbs. @ 35c. Postpaid.

Bantam Evergreen Sweeter than Golden Bantam, almost as tender as Stowell's Evergreen. A cross between Golden Bantam and Stowell's Evergreen. The ear is a third larger than the Golden Bantam, but only 10 days later. Color, rich, golden yellow. A true sweet corn. Think of this: 8 acres sold at 23 to 25 cents a dozen when other kinds sold at 15 to 20 cents. ¼ lb. Pkt. 12c; ½ lb. 20c; 1 lb. 35c; 5 lbs. @ 30c.

Early Evergreen This is similar to Stowell's Evergreen, except that it is almost two weeks earlier and the ears are slightly smaller. It is of very high quality and is valuable as a second early variety. ¼ lb. Pkt. 12c; ½ lb. 20c; 1 lb. 30c; 5 lbs. @ 28c.

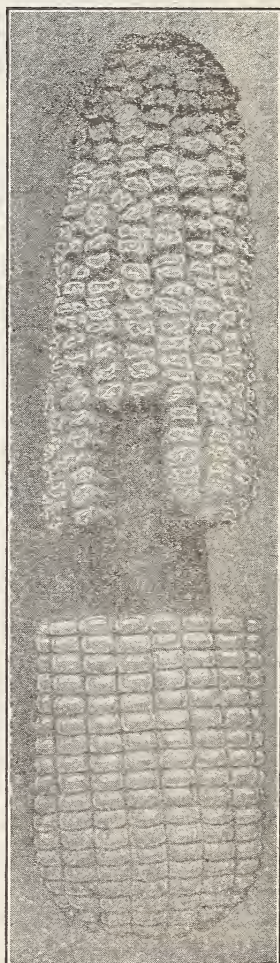

LATE VARIETIES

Stowell's Evergreen The Leading Main Crop Sweet Corn. I know that nearly every person who raises any sweet corn, plants some of this variety. Every person just dotes on the big juicy "roasting" ears when the Stowell's Evergreen comes. It is more largely grown for home, market and canning than any other kind. It remains tender a long time. Season late. Our O. K. Brand is unexcelled. ¼ lb. Pkt. 10c; ½ lb. 20c; 1 lb. 30c; 5 lbs. @ 28c.

Country Gentleman An especially fine quality corn. Ears 7 to 8 inches long, cob small, white and densely covered with long, slender, white grains in irregular rows. Season with Stowell's Evergreen. ¼ lb. Pkt. 12c; ½ lb. 20c; 1 lb. 30c; 5 lbs. @ 28c.

Black Mexican Where color is not an objection, but delicious sweetness the chief consideration this black corn (or blue corn in roasting ear stage) is unsurpassed. Recommended for home use. ¼ lb. Pkt. 12c; ½ lb. 20c; 1 lb. 35c; 5 lbs. @ 30c.

Hoosier Roasting Ear Corn This is not a true sweet corn, but is of the Early Adams type and fills the same place in the late class of table corns as the Adams does in the extra early and early kinds. This variety is of our own introduction and is now grown by the field by many gardeners and farmers and marketed in wagon loads. Pearly white, white cobs, 14 to 16 rows. Sure cropper. ¼ lb. Pkt. 10c; ½ lb. 20c; 1 lb. 30c; 5 lbs. @ 25c.

Stowell's Evergreen. Bottom shows in green state for table; next the size of cob and top, as the dry corn for seed appears.

The cannas I bought of you last year were admired by many. It was said I had the most beautiful ones ever seen. The pink ones were simply wonderful.—Mrs. J. H. Schuyler, Lapel, Ind.

ALL THE
BEST

Cucumbers

ONE PKT. EACH OF 11
VARIETIES

40 Cents

Culture

Cucumbers must have rich soil. New ground is the best. Plant when ground is warm, in hills 3 to 4 feet apart. Thin to 3 or 4 plants to the hill. As vines grow cover occasional joints to induce new roots. Do not let them ripen on the vines, or they will stop bearing. One Pkt. will make about a dozen hills, two lbs. per acre.

Can anything be nicer than cool sliced Cucumbers in Hot Summer?

Early Frame, or Short Green

(For Pickles) This is a famous pickle cucumber producing cukes of medium size and of fine quality when sliced. Medium early. Pkt. 5c; oz. 15c; ¼ lb. 40c; lb. \$1.25.

Green Prolific

Or Boston Pickling (For Pickles)—One of the most prolific varieties and is largely grown for pickles, being light size. Also splendid kind for slicing. Pkt. 5c; oz. 15c; ¼ lb. 40c; lb. \$1.25.

Everitts Selected E. White Spine

(For Slicing) The old favorite improved. If you want a good sized, plump cucumber, such as is used for slicing get the White Spine. They are also good for pickling when small. It is early, a splendid bearer, and fine crisp quality. Very productive. Forces well. Color dark green. Pkt. 5c; oz. 15c; ¼ lb. 40c; lb. \$1.25

Early Fortune

(For Forcing) The finest shipping type of White Spine yet produced. Early, very productive and disease-resistant; fruits 7 to 9 inches long, slightly tapering. Color rich, dark green, which does not fade when shipped long distance. Pkt., 5c; oz., 20c; ¼ lb., 60c; lb. \$1.75.

Everbearing

(Pickling and Slicing)—For a continuity of crop this variety is hardly equalled. It produces pickling and slicing cucumbers of medium size until frost. Fruits of all ages and blossoms may be seen on the same vines. Pkt. 5c; oz. 15c; ¼ lb. 40c; lb. \$1.25.

Improved Long Green

(Pickling and Slicing)—This is the old long cucumber that has always been the choice of thousands of gardens. Our strain gets better each year. It will grow a foot long, slender, almost seedless. Pull for pickles, when small, and for sweet pickle when full grown. Crop is very short. Pkt. 5c; oz. 15c; ¼ lb. 50c; lb. \$1.75.

Giant Pera

(Forcing and Slicing)—One of the longest of the Long Green family; fruit often 15 inches long, slender and very smooth, crisp and solid, with few seeds. Color dark green. Novel, distinct and desirable. Pkt. 10c; oz. 25c.

Chicago Pickling

(For Pickling)—One of the best for pickles. The right size, shape, color and a heavy yielder. Pkt. 5c; oz. 15c; ¼ lb. 40c; lb. \$1.25.

Early Cluster.

(Plant this for first crop)—Fruit short, chunky, small and borne in clusters in the center of the plant; light green in color; prolific. Pkt. 5c; oz. 15c; ¼ lb. 40c; lb. \$1.25.

White Wonder

Fruit, produced in clusters, is symmetrical, short, blocky and rounded at both ends; color ivory-white from time of forming until maturity. Pkt. 5c; oz. 15c; ¼ lb. 50c.

Gherkin

The fruit is two to 3 inches long, oval and closely covered with spines. Used exclusively for pickling. Pkt., 5c; oz. 20c.

I got Bells Colossal Tomatoes and China Cucumbers from you and can say the tomatoes were fine. We raised cucumbers larger than a one-half gallon fruit jar. Eula England, R. 2, Alma, Ark.

Everitt's (CK) Lettuce Seed

Culture Lettuce likes a moderately moist, fertile soil. Seed may be sown as early as the ground is fit. Sow every two weeks for succession. The heading varieties should be thinned to 8 inches apart, but if heads are not wanted leave

the plants 2 inches apart to grow in a mass. For winter use sow under a glass from November to February. Keep in moderate temperature, giving as much light and air as possible. From time of seeding to maturity is 40 or 50 days. One pkt. will produce about 600 plants, one oz. about 3,000 plants.

Black Seeded Simpson (Loose Leaf) — Black seed, crumpled leaves, recommended very highly for an early delicious lettuce. It does not form a head but a bunch of delicate green, almost white, crisp, tender and sweet leaves. It does not run to seed quickly. It is also a favorite for forcing. Largely grown for market. It is a kind that can be cut and it will come again. Pkt. 5c; oz. 15c; ¼ lb. 50c; lb. \$1.75.

Grand Rapids (Loose Leaf) Black seed, This variety looks like Simpson, but is much better for forcing. It is in fact the chief forcing variety of loose leaf lettuce. Its upright habit permits of close planting. Does very well in the garden, too. Crisp, delicious flavor. Handsome. A favorite market kind. Pkt. 5c; oz. 15c; ¼ lb. 50c; lb. \$1.75.

Black Seeded Simpson
The Hanson lettuce as long as the writer remembers and there is no likelihood of its popularity waning for some years. It is one of the best mid-summer head sorts. Light green outside, white within. Deliciously sweet. Pkt. 5c; oz. 15c; ¼ lb. 50c; lb. \$1.75.

MAY KING THE EARLIEST HEAD LETTUCE

Makes large solid heads 6 to 7 inches in diameter with broad, light green outer leaves. Grown outdoors, it is extremely early. The center blanches rich yellow. Pkt. 5c; oz. 15c; ¼ lb. 50c; lb. \$1.75.

Iceberg (Head)

An extremely hard, heading variety. Has fine appearance in leaf. There is hardly another lettuce that gives better satisfaction both for home and market. Pkt. 5c; oz. 15c; ¼ lb. 50c; lb. \$1.75.

All Seasons (Head)

A very large, medium late heading sort. The heads are a light golden tint, well folded, with inner leaves blanched to a rich, buttery yellow, which is so much desired in serving various salads with mayonnaise dressing. Quality splendid. Pkt. 5c; oz. 15c; ¼ lb. 50c; lb. \$1.75.

California Cream Butter (Head)

Black seed. One of the best of all the class of cabbage heading lettuce for Fall and Winter. It forms large, nearly round, solid heads which are green flecked with brown on outside they are a rich, cream color. Most beautiful. It is slow to run to seed. Medium early. Fine for the home gardens and market. Pkt. 5c; oz. 15c; ¼ lb. 50c; lb. \$1.75.

Imp. Hanson (Head)

Big Boston

der and sweet, and it has few outer leaves. Stands a long time. Pkt. 5c; oz. 15c; ¼ lb. 50c; lb. \$1.75.

Brown Dutch (Head)

A late heading medium - sized variety; leaves broad, very thick and smooth, with plain edges. Color dark-green, overlaid bronze red. Head firm and buttery-yellow inside. Pkt. 5c; oz. 15c; ¼ lb. 50c; lb. \$1.75.

May King

ed head. Color dark green, quality excellent. Pkt. 5c; oz. 15c; ¼ lb. \$1.75.

Kohl Rabi Seed

old quality. Pkt. 5c; oz. 25c.

COS LETTUCE

A distinct type of lettuce that should be more largely grown. Forms large oblong heads which blanch white and tender.

Trianion Self-Closing

— An extremely large, strictly self-blanching Cos Lettuce. A loaf-shaped head. Very early, small, handsome skin and flesh white. Splendid quality. Pkt. 5c; oz. 25c.

EARLY WHITE VIENNA.

Very early, small, handsome skin and flesh white. Splendid quality. Pkt. 5c; oz. 25c.

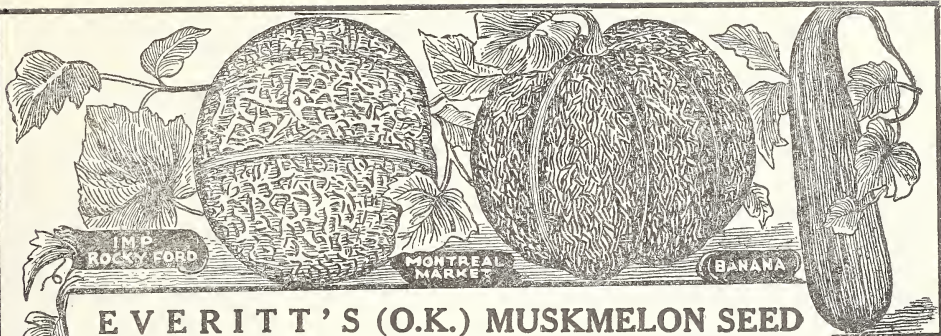

Leek Seed Culture

Sow early in April in drills one foot apart, one inch deep. When plants are 6 inches high transplant 12x16 inches. Set deep in the ground. The seed may also be sown in August or September and transplant in the Spring. Leeks are generally considered superior to onions for flavoring soups, etc. One pkt. will make about 200 plants; One oz. about 800 plants.

American Flag

The standard variety. The gardener's favorite. Pkt. 5c; oz. 20c; ¼ lb. 60c.

All the seeds purchased from you were fine. And the Canna bulbs nice, especially the yellow one, which was very beautiful.—Mrs. Coppock, B. E. 4, Elwood, Indiana.

EVERITT'S (O.K.) MUSKMELON SEED

Culture

Select a light, warm soil; a poor light soil is better than a rich, cold, heavy one. Fertilize well. Lay off hills six feet apart. Plant a dozen seeds to the hill, but thin to two plants. Pinch the ends off of vines if they encroach on their neighbors, and this will also induce bearing. One Pkt. will plant about 15 hills; an oz. 50 hills; 2 lbs. an acre.

Benders Surprise

Mr. Bender, the originator of this melon gained a wide reputation for his high quality melons amongst a number of Eastern hotels while he kept the seed away from the trade. The size of the melon is large weighing about 10 lbs. but have grown to weigh 16 lbs. Ripens medium early. Color light green and coarsely netted. The flesh is deep orange, sweet and luscious. A valuable feature is that they will keep quite a while after gathering. Delicious for home and market gardens. Pkt. 10c; oz. 20c; ¼ lb. 50c; lb. \$1.50.

HEART-OF-GOLD

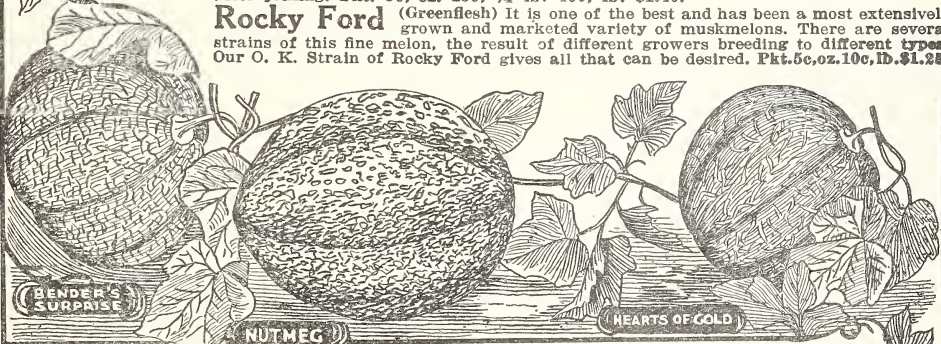

MUSK
THE BEST ORANGE FLESH MELON

The melons are almost perfectly round, thickly netted and very firm so they stand shipping well. The flesh is deep orange color, very sweet and of delicious flavor. The melons are about the size of Rocky Ford. Ripen near to the rind with very small seed cavity, very productive. An excellent melon for shipping as it "holds up" well

after picking. Pkt. 5c; oz. 15c; ¼ lb. 40c; lb. \$1.40.

Rocky Ford

(Greenflesh) It is one of the best and has been a most extensively grown and marketed variety of muskmelons. There are several strains of this fine melon, the result of different growers breeding to different types. Our O. K. Strain of Rocky Ford gives all that can be desired. Pkt. 5c, oz. 10c, lb. \$1.25.

Osage or **MILLER'S CREAM**—(Orange Salmon) Skin is dark green, slightly netted, but nearly smooth. Medium size, egg shaped. The luscious, salmon flesh is what made it famous. The flesh is heavy, juicy, sweet, luscious and so thick that there is scarcely any cavity for the seeds. Pkt. 5c; oz. 10c; ¼ lb. 35c; lb. \$1.25.

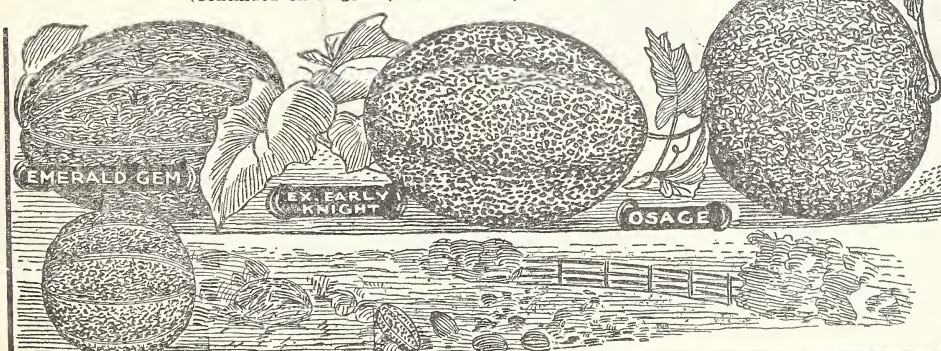

Extra Early Knight

(Greenflesh) When we tell you that this melon is earlier than size you will surely be interested in it. The melons are nearly round, skin netted, of light golden hue when ripe. The flesh is light green, blending to light pink at the center. The best early muskmelon for the North. A good shipper and just splendid for home use. Pkt. 5c; oz. 15c; ¼ lb. 40c; lb. \$1.40

Giant Montreal Market

(Greenflesh) If you want to raise the very largest muskmelon that grows, that will win the blue ribbon at your fair, and at the same time one that is good to eat, pick this one. On good ground they will average around 15 pounds each, but have often reached 20 pounds and one was reported as weighing 44 lbs. They are nearly round, heavily netted, deeply ribbed, thick flesh, season late. When they come to market they bring high prices. Pkt. 5c; oz. 15c; ¼ lb. 40c; lb. \$1.40

(Continued on Page 28, 1st. column.)

Tip Top Greatest Late Market Melon—O. K. Strain is Unexcelled—(Salmon Flesh)

This I may say is the melon for the millions to grow and sell and eat. It is a sure cropper and practically every melon is a good one, sweet, juicy, melting, if you plant a good strain of seed. Grows large, round, ribbed. Appearance is attractive. So popular is it on some markets that other kinds will not sell when it comes. The season is fairly late, but when it comes its size, appearance and good quality commands the market. Pkt. 5c; oz. 10c; ¼ lb. 35c; lb. \$1.25.

TIP TOP. Claims the Market When It Comes

Honey Dew Melon

that came from Africa with the Rocky Ford. The average size of the melon is 8 to 10 inches in diameter, solid and juicy. It has a delicious flavor all its own

One person describing it said: "It looks like a large grape fruit, tastes like sweet nectar, and has the mingling of the flavors of pineapple, banana and vanilla." A splendid shipper. Will keep many weeks after other melons are gone. Pkt. 5c; oz. 15c; ¼ lb. 40c; lb. \$1.50.

May be put away in September and served on Christmas

Winter Muskmelon A melon from Russia. It can be stored in September and used up to Christmas, therefore its name. Medium size. Besides being a great novelty it is of excellent quality and flavor. Pkt. 10c; oz. 20c; ¼ lb. 50c.

Banana Muskmelon Novel Appearance; a Prize Winner; Good Quality; Succeeds on Ground Where Others Will Not. A Curiosity and Prized by Many. Shape and appearance somewhat like an overgrown banana. It attains a length of from 18 inches to 3 feet, and a diameter of about 2 inches at the stem end to 4 to 6 inches at the largest part. The flesh is salmon, firm, juicy and sweet. The flavor is liked by many people better than the regular musk-

melons. It is not merely a curiosity, but many growers find they bring higher prices on the market than the regular muskmelons. Also this is a melon where others cannot be grown. Price — Pkt. 5c; oz. 10c; ¼ lb. 35c; lb. \$1.25.

"Amongst the seeds obtained from your house was the Banana Muskmelon which proved the finest I ever saw!" — Bonnie Strodemire — Peak, S. C. 46.

Burrell Gem

This is the yellow-flesh Rocky Ford. It has the same shape and about the same appearance, but the flesh is salmon colored. It is a great yielder and of good qualities. One of the very best shippers. Pkt. 5c; oz. 10c; ¼ lb. 35c; lb. \$1.25.

Emerald Gem (Salmon color) About the size of Rocky Ford, but with smooth skin. Shape oblong. The flesh is very thick, good almost to the rind with a very small seed cavity. A poor melon of this kind is a rarity. Not suited for shipping. It is delicious. Pkt. 5c; oz. 10c; ¼ lb. 35c; lb. \$1.25.

Early Sugar Nutmeg (Greenflesh) — Medium size, deeply ribbed, shape of nutmeg. Skin dark green, covered with a shallow netting. Flesh thick, sweet, light green color. Very early. Pkt. 5c; oz., 10c; ¼ lb. 35c; lb. \$1.25.

WATERMELONS

Halbert Honey Shape oblong, well filled to the ends, skin very dark green showing a faint longitudinal tracing, or indentation in the rind; medium, early and fairly large; flesh crimson and very sweet. Pkt. 5c; oz. 10c; ¼ lb. 30c; 1 lb. \$1.00; 5 lbs. @ 85c.

Citron Colorado Preserving Grown for making preserves. This is the best variety. Pkt. 5c; oz. 10c; ¼ lb. 30c; lb. \$1.00.

Peerless or Ice Cream Very early, of uniform size, and one of the best for growing in the North, a short oblong in form; rind thin, light green, mottled and finely veined with a darker shade; flesh bright scarlet and very sweet; seeds white. Pkt. 5c; oz. 10c; ¼ lb. 30c; lb. \$1.00.

Everitt's (CK) Culture One of the best fall and winter salads. Sow as soon as ground can be worked in the Spring for early crop. For the main crop, sow in August, in drill 15 inches apart, 6 to 8 inches in row. To blanch, tie the leaves, when dry, in matting or any soft material, or invert something over the plants, or even tie them together at top. One Pkt. to 20 feet of drill, one oz. to 100 feet.

Endive Seed Moss Curled Very ornamental as well as good. Pkt. 5c; oz., 15c; ¼ lb. 40c.

Green Curled Winter A standard variety. Hardy and productive. Pkt. 5c; oz. 15c ¼ lb. 50c.

Want to say that the coxcombs I had were of the finest I ever saw. So many pretty colors and some were 18 inches across. It sounds big, but it is the truth just the same. My Butterfly Bush did fine. My pepper was good also and also the cut flower seed. I had a real flower garden out of them. I had my picture taken with coxcomb for proof, also my little flower garden. Mrs. James L. Wade, Edinburg, Ind. 209 N. Main St.

WATER MELONS

HARBERT HONEY

KECKLEY

EVERITT'S

One Ounce will plant 20 to 25 hills; 4 to 5 pounds per acre.
ORANGE—See Specialties.

Everitt Earliest and Sweetest The best home watermelon
 sweet. It fairly melts in your mouth. This melon is the earliest and sweetest
 of all. It has been selected for many years for these qualities. The size averages from 10
 to 12 pounds. The flesh is scarlet, of extra sweetness. It is also one of the most prolific
 known. Is adapted to grow on ground that will not produce other melons, and northern
 latitudes where larger and later kinds will not succeed. Wherever you live plant some
 of them. Pkt. 5c; oz. 15c; $\frac{1}{4}$ lb. 30c; lb. \$1.00.

Indiana Sweetheart There are two general classes of watermelons—
 round and long. Some prefer a round melon, others
 the long, but this preference is not so positive, except quality goes with the choice. Of
 round melons the Sweetheart is the choice of many. It grows large, is early,
 heavy, a long keeper, fine quality and a good shipper. Skin mottled green. It is
 very productive. Sweethearts usually bring a good price when others will be
 neglected. This is because of their handsome appearance and fine qualities. This
 melon remains in good condition longer than most others, even improving in its
 quality for a time. Pkt. 5c; oz. 15c; $\frac{1}{4}$ lb. 30c;
 lb. \$1.00.

EXCEL

KECKLEY SWEET

COLORADO PRESERVING

TOM WATSON MOST POPULAR WATER MELON

The large, delicious fruits. It has a tough rind and ships to long distances. Wonder-
 fully productive. Pkt. 5c; oz. 10c; $\frac{1}{4}$ lb. 25c; lb. 80c; 5 lbs. or more @ 75c.

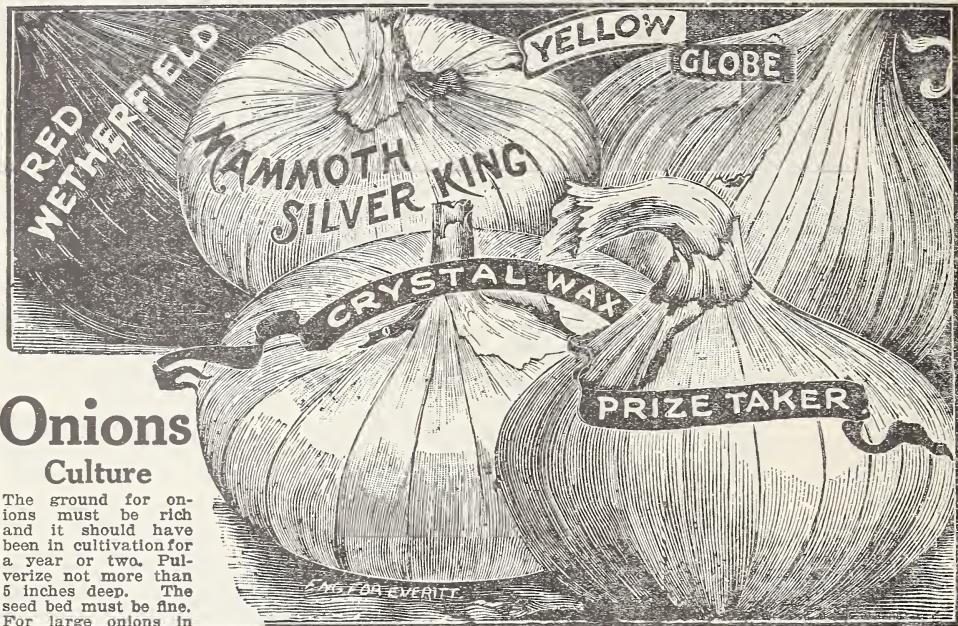

Gypsy or Rattlesnake Large and oblong; rind very tough and in color
 a distinctive pale, light green, much mottled and
 striped very dark green; seeds white; an attractive and fine shipping melon. An old
 favorite. Pkt. 5c; oz. 10c; $\frac{1}{4}$ lb. 30c; lb. \$1.00.

Keckley Sweet or MONTE CRISTO (Long)—I
 may sum the good qualities of
 this melon up in these words—unsurpassed in productiveness
 for nearby market selling and for eating quality.
 Its popularity is increasing each season. It is early, but
 grows very large. Skin is rich, dark green shaded with
 faint lines of lighter green. Very handsome. It is not a
 shipping melon. Pkt. 5c; oz. 10c; $\frac{1}{4}$ lb. 25c;
 lb. 85c; 5 lbs. @ 75c.

(Continued on Page 28, 2nd. column)

TOM WATSON

SWEETHEART

Onions Culture

The ground for onions must be rich and it should have been in cultivation for a year or two. Pulverize not more than 5 inches deep. The seed bed must be fine. For large onions in fall, drill about 4 lbs. per acre in rows 14 to 15 inches apart. Weeds must be kept out. Pull when tops begin to dry down. For sets, sow 40 to 60 lbs. per acre in drills 12 inches apart. We offer onion plants in our Specialty List. The advantages of setting plants are distinct and the plan will become more general. In this way earlier and larger onions can be grown.

Note The onion seed crop in this country was nearly a failure which condition is reflected in the high prices all seedsmen are asking for seed. We cannot tell how long we can supply seed at any price. To help out this situation we are offering onion plants at very moderate prices. See our offers in specialties.

THE THREE SOUTHPORTS

Southport Yellow Globe ^{Globe shaped} All that can be asked for in table and market and keeping qualities it possesses. Extensively grown for best market demand and home gardens. Pkt. 10c; oz. 60c; ¼ lb. \$2.00; lb. 7.00.

Southport White Globe ^{Identical in appearance} with the Southport Yellow Globe, except it is as white as a clean snowball. Pkt. 10c; oz. 75c; ¼ lb. \$2.50; lb. \$9.00.

Southport Red Globe ^{And this also is identical in appearance to the Yellow and White, except its color, which is Red.} The three colors of Southport Globe Onions are reliable to grow and market making heavy yields and getting the top prices. Pkt. 10c; oz. 60c; ¼ lb. \$2.00; lb. \$7.00.

Yellow Globe Danvers ^{Our O. K. strain is always a heavy yielder. Fine symmetrical shape, large size. Quality just what an onion should be. They grow rapidly and attain full size from the seed the first year, and early in the season. They keep well in Winter. A favorite for home garden and field cultivation.} Pkt. 10c; oz. 60c; ¼ lb. \$2.00; lb. 7.00.

Large Red Wetherfield ^{Noted for its productiveness and keeping qualities. This is the largest}

of the red onions. Grows to full size from seed the first year. The bulbs are large, flat in shape, purplish, red skin. Flesh a purplish white color, not too strong flavored to meet the popular taste. One of the best keepers. It succeeds almost everywhere. Very productive. The O. K. Strain of seed is unexcelled. Pkt. 10c; oz. 50c; ¼ lb. \$1.75; lb. \$6.00.

Yellow Strasburg or Dutch ^{All-time} darker than the Danvers, more flattened and a little later. This is sown largely to raise yellow sets because of its splendid keeping qualities. Pkt. 10c; oz. 40c; ¼ lb. \$1.35; lb. \$5.00.

White Portugal ^{or SILVER SKIN—Very early, grows to large size, flat, mild flavor. Largely grown for white sets, also is extensively used for bunching and pickles.} Pkt. 10c; oz. 45c; ¼ lb. \$1.65; lb. \$6.00.

Prizetaker ^{Magnificent onions can be grown from black seed planted in the Spring. It grows quickly, attaining a large size. It is beautiful and the table quality, delicate and mild. Also any that can be spared for sale always brings an extra price. No sets are required of Prizetakers, as they grow large from the seed. This is one of the best to raise plants and transplant to gardens or field, when they may be made to weigh 4 to 5 lbs. under favorable conditions.} Pkt. 10c; oz. 45c; ¼ lb. \$1.65; lb. \$6.00.

Mammoth Silver King ^{This mammoth white variety is one of the largest in cultivation. It is of uniformly large size and fine shape, being flattened but thick. The skin is of a beautiful silvery white, flesh snowy and tender, of a mild, sweet flavor. Its large size and handsome appearance recommend it for exhibition at fairs, for the fancy market, as well as for the home table.} Pkt. 10c; oz. 40c; ¼ lb. \$1.25; lb. \$4.50.

Crystal Wax ^{This is of the class Bermuda Onion and is the most attractive onion of all. It is beautiful, pure waxy white, which can sell "sight" in any market and at high prices. Tender and deliciously sweet. Eat it from hand like an apple, or just make a sandwich with it and it will tickle your palate.} Pkt. 10c; oz. 60c; ¼ lb. \$2.00; lb. 7.00.

Yellow Bermuda ^{Another Bermuda Onion. The description of the Crystal Wax will apply to this except the}

color, which is light straw color. Both these Bermuda Onions are of quick growth and large sizes. They are also suitable for pulling green. Pkt. 10c; oz. 60c; ¼ lb. \$2.00; lb. \$7.00.

Onion Sets

By planting sets you can have onions to eat, or market in one-fourth the time required from seed. Set onions come off so early that a second crop can be grown on the ground.

White, lb. 35c; 5 lbs. @ 30c.

Yellow, lb. 30c; 5 lbs. @ 25c.

Red, lb. 30c; 5 lbs. @ 25c. all postpaid.

Ask for prices on larger quantities.

Egyptian or Winter Plant as early as possible, even in the Fall. They produce green onions for the table and top sets to plant. Also the old planting year after year continues. lb. 25c; 3 lbs. 50c, delivered.

MUSTARD

Culture Sow in drills 1 foot apart. Cover lightly. For a succession sow each two weeks. Water copiously if weather is dry. Cut when not over 3 inches high. Used for salads.

SOUTHERN GIANT CURLED — The best kind. Leaves about twice the size of the old kind. Pkt. 5c; oz. 10c; ¼ lb. 25c; lb. 80c.

OKRA

Its green seed pods are used in soups or stewed like asparagus. Sow seed in drills 2 ft. apart. Thin to stand 9 inches apart. Draw soil to stems as they grow.

White Velvet A good kind. Pkt. 5c; oz. 15c; ¼ lb. 50.

Perkins Mammoth (Long Green) very early and productive. Plant grows 3 feet high. Pods green, very long and slender. A fine variety. Pkt. 10c; oz. 20c; ¼ lb. 60c.

Parsley Seed Culture Have the soil rich. Drill one foot apart, cover one-eighth inch. Seed germinates very slowly so have patience. To soak the seed a few hours in warm water will hasten its germination. Thin to four inches when two inches high. A small

plat sown broadcast, thinly, will do very well for a family supply. Prized for garnishing and for flavoring soups. One pkt. will produce many plants.

Moss Curled An elegant decorative variety. Also has high flavoring properties. Pkt. 5c; oz. 15c; ¼ lb. 45c.

Plain or Single This has plain leaves instead of curled. Pkt. 5c; oz. 15c; ¼ lb. 45c.

Hamburg Turnip Rooted This forms a root resembling a small parsnip. It is this root that is used for flavoring and is highly esteemed for soups, stews, etc. Pkt. 5c; oz. 15c; ¼ lb. 45c.

Parsnip Seed Culture Give rich soil, and to the long kinds deep soil. Plant very early in rows 18 inches apart. Cover seed one-half inch. Thin to 3 to 5 inches. Will keep in the ground over winter and improves in quality. One pkt. for 50 feet of drill; oz. 200 feet; 5 lbs. per acre.

Imp. Hollow Crown or Large Sugar This is the best table variety. Also is a great producer and profitable to grow for stock. Pkt. 5c; oz. 10c; ¼ lb. 30c; lb. \$1.00.

Guernsey Not so long, but thick. Suited to shallow ground. Heavy yielder. Pkt. 5c; oz. 10c; ¼ lb. 30c; lb. \$1.00.

PEANUTS

Peanuts are chiefly grown in the Southern States, commercially and for stock food. Hogs will harvest them and will fatten on them. The Spanish Peanut is the best in the North.

Spanish Peanut This is the earliest kind and is particularly recommended for the Southern States. It grows upright and can be cultivated with machinery. Small but plump nut. ¼ lb. 10c; lb. 35c; 5 lbs. @ 30c, Postpaid.

Long Podded This is later and larger. It is one of the kinds in general commerce and is not early enough to mature in the North. ¼ lb. 10c; lb. 35c; 5 lbs. @ 30c Postpaid.

MEDICINAL HERBS

The varieties marked with an asterisk (*) are perennial, and when once started in the garden will continue for years with but little care.

ANISE—Used for cordials, garnishing and flavoring. Pkt. 5c; oz. 25c.

BASIL (Sweet)—Leaves used for flavoring soups, stews and highly seasoned dishes. Pkt. 10c; oz. 40c.

***CATNIP**—Leaves and young shoots are used for seasoning. Cats delight to roll in it. Is a good bee pasture. Pkt. 10c; oz. 60c.

***CARAWAY**—Grown for the seeds, which are extensively used for the flavoring of bread, pastry, candy, etc. Pkt. 10c; oz. 25c.

DILL—Leaves used for pickling cucumbers. Pkt., 5c; oz. 25c.

FENNEL (Sweet)—The leaves boiled are used in fish sauces. A beautiful garnish. Pkt. 10c; oz. 25c.

***HOREHOUND**—Used for seasoning, also in cough remedy. Horehound tea is a remedy for cold. Pkt. 10c; oz., 40c.

LAVENDER—Valuable for its perfume. The flowers are used. Pkt. 10c; oz. 40c.

***MARJORAM (Sweet)**—Leaves and ends of shoots highly esteemed for seasoning. Dry for Winter use. Pkt. 10c; oz. 40c.

***PENNYROYAL**—A tea made from it is valuable for colic. The fresh plant placed close to people chases mosquitoes. Pkt. 10c; oz. 50c.

SAGE—Extensively used for seasoning and dressing. Pkt. 10c; oz. 30c.

SAVORY (Summer)—The leaves and flowers are used for flavoring soups and dressings and string beans. Pkt. 10c; oz., 30c.

***THYME**—For seasoning; a tea from the leaves is a remedy for headache. Pkt., 10c; oz., 50c.

"I am well satisfied with all the seeds I ever got from you. They were all anyone could expect. Dwight Faulk, P. O. Box 23, Negley, Ohio.

Will say that the Mortgage Lifter Corn produced the best corn I ever raised. And have sold the corn all for seed. Also the pumpkins were extra large.—Henry Ontrop, E. R. 4, Fort Recovery, Ohio.

Everitt's (CK) Seed Peas

Write for prices of Peas by larger quantities.
Our prices include delivery. We do not put up smaller packets than ¼ lb.

Extra Early and Early Sorts

Alaska (2 ft. smooth)—A pea of fine quality. Largely grown for market, commercial canning and in the home garden. ¼ lb. Package, 12c; ½ lb. 20c; 1 lb. 35c; 5 lbs. @ 30c.

Little Marvel (14 in., wrinkled)—A peculiarity is in it bearing many twin pods. The pods contain five to seven peas and are of excellent flavor. ¼ lb. Package 12c; ½ lb. 20c; 1 lb. 35c; 5 lbs. @ 30c.

American Wonder (1 ft. wrinkled)—The well-known dwarf pea. Extra early and exquisite quality. ¼ lb. 12c; ½ lb. 20c; 1 lb. 35c; 5 lbs. @ 30c.

Gradus, or Prosperity (2½ ft. wrinkled)—Extreme earliness, only three to five days later than the early smooth peas. Finest quality and great productiveness are combined in this pea. These things recommend it to the home and for market gardener. ¼ lb. 12c; ½ lb. 20c; 1 lb. 35c; 5 lbs. @ 30c.

Nott's Excelsior (1½ foot. wrinkled)—Considered by many the best extra early wrinkled pea. It is nearly as early as American Wonder, while the pods are larger, with 6 to 7 peas, and many more of them. The quality is very fine. ¼ lb. 12c; ½ lb. 20c; 1 lb. 35c; 5 lbs. @ 30c.

First and Best (2½ ft. smooth)—This is of the Alaska type, but is a little later with larger pods and much more productive. Very largely planted for home and canning. ¼ lb. 12c; ½ lb. 20c; 1 lb. 35c; 5 lbs. @ 30c.

Thomas Laxton The favorite large-podded market gardeners variety and probably more generally grown for market purposes than any other sort. Vine 2½ feet in height, bearing numerous well-filled pods 3½ inches long, nearly round, square ended and of high quality. Noted for its productiveness and dependability. ¼ lb. 12c; ½ lb. 20c; 1 lb. 35c; 5 lbs. @ 30c.

Culture Plant peas early in the Spring so the crop will be off before hot, mid-summer. Peas never do well in mid-summer, but may be planted late to grow in the cool Fall. Plant the dwarfs in rows 2½ feet apart; the tall ones 3 feet apart, plant three to four inches deep. A pound will plant about 100 feet; 120 to 150 pounds for an acre. The wrinkled peas are the sweetest.

Gradus or Prosperity

Quantity and Quality This pea was so named because of its large productiveness and splendid table qualities. It is medium early and grows about 24 inches high. Pods are large and of blocky shape. The peas are wrinkled, green and for eating are near perfection, being rich, buttery and marrow-like. With a large canner it holds the record for producing the largest number of bushels of shelled peas per acre. The home and market gardener will find this a most profitable variety. ¼ lb. 15c; ½ lb. 25c; 1 lb. 45c; 5 lbs. @ 40c.

LATE VARIETIES

Champion of England

(4 to 5 feet wrinkled)—Highly prized by those who are fond of a large, tender and luscious pea. Hardy and vigorous in growth; pods 3 inches long. Or delicious flavor; a very profuse bearer. ¼ lb. 12c; ½ lb. 20c; 1 lb. 35c; 5 lbs. @ 30c.

White Marrowfat

(5 to 6 ft. smooth)—An old variety. A heavy and sure cropper. It is a smooth pea and while the quality is not as good as the wrinkled peas, its heavy yields, long bearing and productiveness are qualities to recommend it. Requires support. ¼ lb. 12c; ½ lb. 20c; 1 lb. 35c; 5 lbs. @ 30c.

Horsfords Market Garden

(3 ft. wrinkled)—It is a very heavy cropper. In a test of 28 kinds it doubled all other in yield. A single plant bore more than 150 pods. It is extensively grown for canners. Grows 2 to 3 feet, but is stiff and does well without support. ¼ lb. 12c; ½ lb. 20c; 1 lb. 35c; 5 lbs. @ 30c.

Alderman

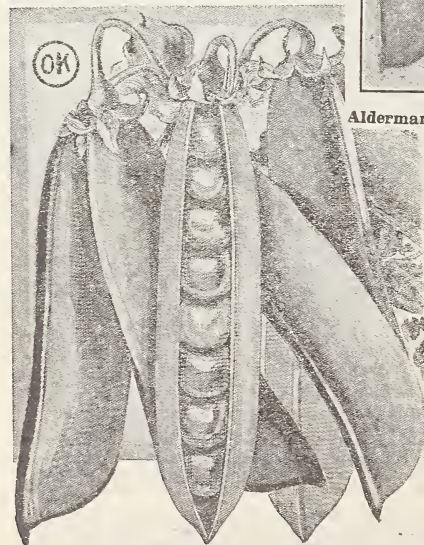

(4 ft. wrinkled)—A fine mid-season variety, maturing just after the extra early ones and before the late kinds come in. It grows 4 and 5 feet tall, hence should have support. The pods are four to six inches long, borne in pairs and contain 7 to 9 large green peas in each. Extraordinarily productive. ¼ lb. 12c; ½ lb. 20c; 1 lb. 35c; 5 lbs. @ 30c.

Sugar Pea (Edible Pods)

(3 ft. smooth)—This distinct pea is used like stringless beans. The pods are tender and are broken and cooked with the peas. Very sweet and delicious. Try them and you'll like them better than shelled peas alone. ¼ lb. 15c; ½ lb. 25c; 1 lb. 45c; 5 lbs. @ 40c.

Alderman or Imp. Telephone

Cincinnati Market

WRITE FOR PRICES OF PEAS IN LARGER QUANTITIES

Everitt's (CK) Pepper Seed

Culture Start in cold frame, hot bed or house. Transplant to garden when warm weather has come to stay. The rows may be 18 inches apart and plants 12 inches apart in row. One pkt. will produce about 250 plants; 1 oz. about 1000 plants.

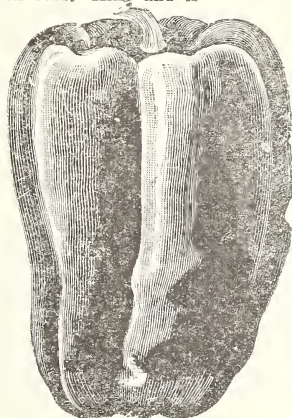

World Beater The introducer of this pepper said, "It is the finest introduction of a pepper in ages." It is a cross of Chinese Giant and the Ruby King. Its chief improvement is in the fact that it is much more prolific than the Chinese Giant, some plants having yielded two dozen marketable peppers. The flavor is so mild that it can be sliced and eaten raw. The fruit is green until it ripens, when it takes the scarlet color. The flesh is so thick that it holds up a long time making it one of the best shippers. Order this and have something you will be proud of. Pkt. 10c; 3 Pkts. for 25c; oz. 40c.

Chinese Giant One of the very largest of the mild red varieties. Plant of short stocky growth, with light green foliage; fruits pendant, thick, blocky and square ended, 4 to 5 inches in diameter and of equal length; color, brilliant, glossy scarlet. Pkt. 10c; 3 for 25c; oz. 50c;

Golden Dawn, or Golden Queen If you want a yellow mango as well as the red, select this one. It is the same shape as Ruby King and is

as good in every respect, the only difference is in its color. It is not too much to say that the red and yellow mangoes ought to be served together as they are then very ornamental. Pkt., 10c; oz. 40c; ¼ lb., \$1.25.

Royal King This new sweet sprang from a plant found growing with a crop of Ruby Kings. The old Ruby King does not compare favorably with this new pepper in any particular. The Royal King averages nearly twice as much meat as the old Ruby King. It is also a heavy bearer, is most beautiful in color and its shape is all that can be asked for, while it also has all good qualities for shipping to distant markets. So fine is this pepper that it can usually be sold at good prices even when markets are "glutted" for others. Pkt. 10c; 3 Pkts., 25c; 1 oz. for 30c.

Royal King

Perfection Pimento

Golden Dawn Best Yellow Pepper

PERFECTION PIMENTO

THIS new pepper is becoming very popular because of its valuable qualities. It grows quite tall. Its productiveness, bearing until killed by frost, makes it very profitable to the market gardener, while its desirable size and shape, thick flesh and agreeable flavor makes it a favorite in every kitchen. The form is distinct as shown in illustration. Color, crimson-scarlet. The fruit grows from 3 to 3½ inches across and about three inches long. Very fleshy. Their meat is never hot, but of a very agreeable sweet flavor. If you want the finest pepper and one that makes the best mangoes, just the right size for individual serving send for the Perfection Pimento. Pkt. 10c; 3 Pkts. 25c; oz. 30c; ¼ lb. \$1.00.

Ruby King A very good old variety. Productive. Handsome and very good. Bright ruby red color when ripe. Pkt. 10c; oz. 30c; ¼ lb. \$1.00.

Large Bell or Bull Nose An old standard sort, mild flavor. Red color when ripe. Excellent for mangoes. Pkt. 10c; oz. 35c; ¼ lb. \$1.25.

Cayenne This is the hot pepper, used for seasoning. Long and tapering. Very yieldy. Pkt. 10c; oz. 35c.

Red Chili Sharply conical, about 2 inches long, brilliant scarlet, very hot; used for chili and pepper sauce. Pkt. 10c; oz. 35c; ¼ lb. \$1.25

Coral Gem Bouquet See Specialties.

Harris Earliest See Specialties.

The seeds I bought from you were just fine. The sweet corn was fine and the Cannons Supreme Pumpkins were the best we ever raised. Had early wonder Cabbage, King of Picklers Cucumbers, Golden Champlain Muskmelons and New York, Wawayhead Lettuce, Peppers, Radishes, and Tomatoes. They were all of the best. Mrs. Ella Rose, E. F. D. No. 5, Anderson, Ind.

A PAGE OF GOOD PUMPKINS.

Culture Plant when the ground is warm in hills 6 to 10 feet apart depending on the variety. Some varieties like large Cheese, Tennessee Sweet Potato, Sugar Pie and Big Tom may be planted in the corn field. A pkt. will plant about 10 hills; one oz. about 50 hills; two to three lbs. to acre.

(The numbers identify the illustrations)

King of Mammoths (1)—If you want to grow pumpkins of mammoth size, from curiosity or to exhibit, or even to make pies pick this one, or the Mammoth Tours. This K. of M. grows to enormous size, often 2 feet or more in diameter. The flesh is salmon color and finer grained than you would think, considering its size. To get the largest specimens, allow only one vine to the hill and only one or two pumpkins on the vine. Pkt. 10c; oz. 20c; ¼ lb. 40c, 1 lb. \$1.25.

Mammoth Tours (2)—A French variety which also grows to immense size. The pumpkins may be either long or round. Are very heavy if well grown frequently exceeding 100 lbs. Quality very good. Pkt. 10c; oz. 20c; ¼ lb. 40c; 1 lb. \$1.25.

Mammoth Etampes (3)—Another French kind that is quite an attraction. The skin is bright, glossy red and excites favorable comment on exhibition or on sale. Flesh very thick. Heavy. Quality is excellent. Attains very large size. Pkt. 5c; oz. 15c; ¼ lb. 40c; 1 lb. \$1.25.

Large Cheese or Kentucky Field (4)—This is the large flat, solid, heavy, cream-colored "sweet" pumpkin, extensively grown in corn field for stock, but is only second to the Sugar Pumpkin for pies. Sells well on the market. It is the variety used by most canners. Keeps well in winter. Pkt. 5c; oz. 10c; ¼ lb. 15c; 1 lb. 50c; 5 lbs. @ 40c.

Tennessee Sweet Potato (5)—A pear-shaped variety of splendid qualities. The flesh is white, fine-grained, solid and thick. When cooked has the appearance of sweet potatoes and some people say it tastes better. Excellent for pies and custards. Prolific. Keeps well until late Spring. Pkt. 5c; oz. 10c; ¼ lb. 25c; 1 lb. 75c; 5 lbs. @ 65c.

Sugar Pie (6)—The chief end of pumpkins is to make pies, and I consider this is the best pie pumpkin. It is small, perhaps it was made small so enough good quality could be supplied. Very solid, orange skin, fine grained and exceedingly productive. Even every small garden should have a hill of Sugar Pie pumpkins. A good keeper. Pkt. 5c; oz. 10c; ¼ lb. 25c; 1 lb. 75c.

Big Tom (7)—An improved strain of the Connecticut Field or Yankee. Grows to large size and extremely productive. Their chief value is for feeding stock. Pkt. 5c; oz. 10c; ¼ lb. 15c; 1 lb. 50c; 5 lbs. @ 40c.

Golden Oblong (8)—A medium size, solid, productive, long-keeping variety. Keeps as well as the hard-shell squashes. Excellent variety for cooking Summer and Winter. Pkt. 5c; oz. 10c; ¼ lb. 30c; 1 lb. \$1.00.

Japanese Pie (9)—The best crook-necked pumpkin. Called marked with characters like Japanese writing. The flesh is salmon color, fine grained and more dry than some sweet potatoes when baked. First class for pies, etc. This is a good kind to cut in strips, or pieces and dry like apples, for future use. Pkt. 5c; oz. 10c; ¼ lb. 30c; 1 lb. \$1.00.

Cushaw, or Golden Crookneck (10)—A popular variety with a hard shell. The pumpkin often grows two feet in length with small seed cavity in the bowl, while the long neck is solid meat. Flesh golden yellow. Fine for pies and, because of great productiveness, profitable to grow for stock feed. Pkt. 5c; oz. 10c; ¼ lb. 30c; 1 lb. \$1.00.

65 CENTS WORTH FOR 50c

Here are ten splendid, interesting varieties of pumpkins. One pkt. of each is priced for 60 cents. but we will send the collection and include a pkt. of the new Canners Supreme pumpkin (see page of squashes) for only 50c—11 Pkts for 50 cents.

Everitt's (CK) ^{TRADE MARK} Radish Seed

FIRE-BALL—See Specialties.
FIRST CROP—See Specialties.

Early and Forcing

VICKS SCARLET GLOBE THE BEST GLOBE RADISH

quick growth, fine size, has small top. It is always crisp and tender. Very popular with market gardeners who know it. Pkt. 5c; oz. 10c; ¼ lb. 30c; lb. \$1.00; 5 lbs. @ 85c.

French Breakfast Extremely early olive - shaped, scarlet with white tip. This is a popular radish for first on the table. Crisp when young, but soon becomes pithy. Pkt. 5c; oz. 10c; ¼ lb. 30c; lb. \$1.00; 5 lbs. @ 75c.

Scarlet Turnip Extra early. A famous variety for forcing. Pkt. 5c; oz. 10c; ¼ lb. 25c; lb. 85c; 5 lbs. @ 75c.

Scarlet Turnip White Tipped The name describes it. A beautiful extra early radish of fine quality. For forcing

and garden. Pkt. 5c; oz. 10c; ¼ lb. 25c; lb. 85c; 5 lbs., @ 75c.

White Turnip

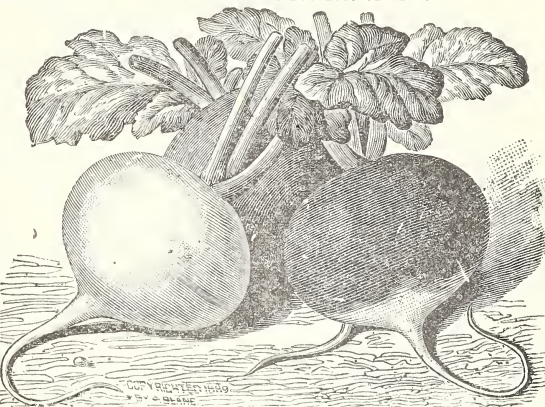

Both skin and flesh are pure white. Pkt. 5c; oz. 10c; ¼ lb., 25c; lb. 85c; 5 lbs. @ 75c.

Sparkler Ready in 25 Days. I consider it a little better and a little prettier than any of the other little radishes that come extra early. It is globe shaped, brilliant cardinal with more white tip than the old S. T. White Tipped. Ready to use in about 25 days. Pkt. 5c; oz. 10c; ¼ lb., 25c; lb. 85c; 5 lbs. @ 75c.

Cincinnati Market

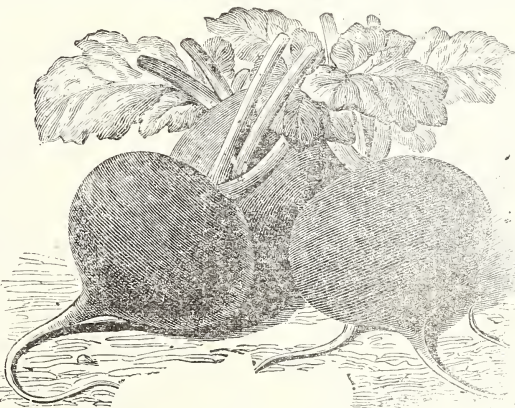

Culture All varieties of radishes thrive best in a rich, not too heavy soil, and a sandy loam is best. For early use, sow in the hot bed in February or outdoors as soon as the ground can be worked in rows 6 to 10 inches apart, covering the seed ½ inch deep. Thin to 1 inch apart in row. The Summer varieties may be sown at the same time, coming on after the earlier sorts are gone. The winter varieties should not be sown until about August 1st. Sow every week or 10 days for succession until hot weather comes on. One oz. of seed will plant 100 feet of drill.

White Turnip

Scarlet Turnip

Scarlet Turnip, W. T.

Crimson Giant

Crimson Giant

A new intermediate radish that grows very large, often 5 to 6 inches in circumference, but never gets pithy. It is good for garden but top is too large for best forcing. Nearly round, crisp and juicy. You better get this one. Pkt. 5c; oz., 10c; ¼ lb., 30c; lb. \$1.00; 5 lbs. @ 85c.

Later Varieties

Long Scarlet

(Short top)—This is the old popular, long, slender, dark - red, quick-growing radish. It comes very early.

25 to 30 days and is one of the choicest quality. The O. K. Strain seed is unsurpassed. Pkt., 5c; oz., 10c; ¼ lb. 25c; lb. 85c; 5 lbs. @ 75c.

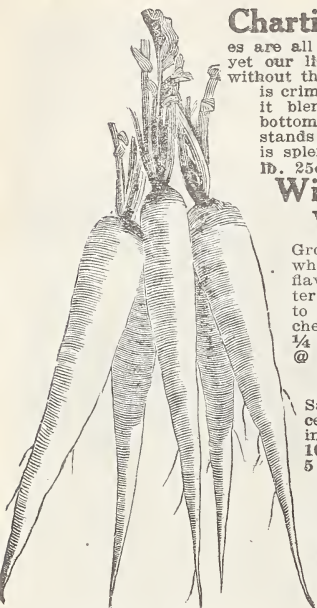

Cincinnati Market

(Also called GLASS RADISH)—Very similar to L. S. S. Top, but preferred by many growers. It is a darker color, a little larger and a little smaller top. Preferred by Southern and Western growers. Pkt., 5c; oz., 10c; ¼ lb. 25c; lb. 85c; 5 lbs. @ 75c.

SELECTED ICICLE THE BEST LONG WHITE RADISH

If you want the best long white radish, select this one, which in all respects, except color, is like the scarlet ones. It is very handsome, attractive and good. The flesh is about as brittle as an icicle, which suggested its name. Extremely quick growth. Pkt. 5c; oz. 10c; ¼ lb. 25c; lb. 85c; 5 lbs. @ 75c. (See illustration on next page)

White Strasburg This is semi-oblong, thick at top and tapers regularly. Very late but can begin to use it when young and small. In this respect it is truly an all season variety. It never gets pithy. Pkt. 5c; oz. 10c; ¼ lb. 25c; lb. 85c; 5 lbs. @ 75c. (See illustration on next page.)

Selected White Icicle

Chartier While the early long scarlet radishes are all similar in some respects, yet our list would not be complete without this handsome one. The top is crimson, about half way down it blends off to pink and the bottom runs to waxy white, stands a long time and quality is splendid. Pkt. 5c; oz. 10c; ¼ lb. 25c; lb. 85c; 5 lbs. @ 75c.

Winter Radishes White Chinese

Grows large oblong. Color white. Fine texture and flavor. One of the best Winter Radishes. Roots grow 6 to 8 inches long and 3 inches thick; Pkt. 5c; oz. 10c; ¼ lb. 25c; lb. 85c; 5 lbs. @ 75c.

Rose Chinese

Same as the former except in color. Roots 4 to 5 inches long. Pkt. 5c; oz. 10c; ¼ lb. 25c; lb. 85c; 5 lbs. @ 75c.

We used your flower seeds and canna, gladiola, tube rose, narcissus and other bulbs with fine results. The Butterfly Bush is a very fine flowering bush.—N. W. Keeter, Culver, Ind.

Round Black Spanish

Like the former, except the shape. Keeps crisp until Spring. Pkt. 5c; oz. 10c; ¼ lb. 25c; lb. 85c; 5 lbs. @ 75c.

Long Black Spanish

Like the former, except the shape. Keeps crisp until Spring. Pkt. 5c; oz. 10c; ¼ lb. 25c; lb. 85c; 5 lbs. @ 75c.

California Mammoth

The largest long Winter variety. Roots grow 10 to 12 inches through. Color white. Quality good. Pkt. 5c; oz. 10c; ¼ lb. 25c; lb. 85c; 5 lbs. @ 75c.

Everitt's (CK) Culture Sow the seed in drills 18 inches apart and cover ¼ inch. Thin to 4 or 5 inches, leaving the strongest. In fall or spring following set in permanent beds, 4 feet each way. The soil must be deep and rich. A good way to buy the roots and set as above.

Rhubarb Seed An old, satisfactory variety. Pkt. 5c; oz. 15c; ¼ lb. 40c; lb. \$1.50.

Rhubarb Roots Each 15c; ½ doz., 65c; doz., \$1.25 **Postpaid.**

Everitt's (CK) Culture This plant is used as a substitute for oysters, and many like it fully as well as the oysters themselves. It is either used in soup or scalloped with best results. Sow early in the Spring on rather light, fertile ground, in drills 18 inches apart; thin the plants to 1 or 1½ inches in the row. Light freezing greatly benefits the flavor. One ft. for about 25 feet of row; one to 75 feet.

Salsify Seed **MANMOTH SANDWICH ISLAND**—The best variety Pkt. 10c; oz. 25c; ¼ lb. 70c; lb. \$2.50.

I wish to say that the Cannas I purchased from you were the most beautiful I have ever seen. The pink ones were simply wonderful.—Mrs. J. H. Schuyler, Lapel, Ind.

Everitt's (CK) Culture Sow as soon as you can in the spring, in drills 1 foot apart, 1 inch deep, and every two weeks for a succession. For Winter and early spring, sow in late August and September and protect with straw during severe weather. The ground for spinach cannot be too rich. One pkt. sows about 20 feet of drill; one oz., 100 feet; eight to ten lbs. per acre.

Spinach Seed One of the best for Summer, as it is slow to turn to seed. Also sown in the Fall, but should have protection in winter. Leaves are large, thick and crimped. Pkt., 5c; oz., 10c; ¼ lb., 20c; lb., 50c; 5 lbs. @ 40c.

Long Standing For sowing in the Fall. Thick leaved. A hardy winter variety. Pkt. 5c; oz., 10c; ¼ lb. 20c; lb., 50c; 5 lbs. @ 40c.

Prickly Winter Another hardy Winter variety. Leaves, numerous, curled, blistered and succulent. Glossy, dark green color. Sow in early Spring and use before hot weather, or in Fall for Winter use. The most largely grown variety. Pkt., 5c; oz., 10c; ¼ lb., 20c; lb., 50c; 5 lbs. @ 40c.

Bloomdsdale, or Savoy I received Butterfly Bushes from your place and they sure did fine and hope they continue to do so. They bloomed until frost.—Mrs. H. Wilhelm, 1248 Van Buren St., Hammond, Ind.

Plant Nasturtiums

They will give you an abundance of flowers with hardly any trouble. Plant them for yourself and neighbors to gather. Everybody knows these lovely, and universally popular flowers. They are probably more universally planted than any other kind. If you have not had liberal beds of them heretofore start this season and there will be many pleasant times coming to you and your friends. Succeed everywhere, even on poor soil. a.

Tall Sorts Price of each Tall variety, Pkt. 15c; oz. 15c; ¼ lb. 50c.
ATROPURPUREUM—Dark Purple.
HEINEMANNI—Chocolate color. **ASA GRAY**—Cream yellow.
VON MOLTKE—Rosy bl. **SCHENERMANNI**—Scri. striped.
VESUVIUS—Salmon Rose.
EVERITT'S CHOICE MIX.—Pkt. 5c; oz. 10c; ¼ lb. 35c.
Dwarf Sorts Price of each — Packet 5c; oz. 15c; ¼ lb. 50c.

COVERULEO—Rose.
CHAMALEON—Cream White, spotted and veined with scarlet.
BEAUTY—Yellow, spotted scarlet.
GOLDEN KING—Dark Leaved, golden yellow flowers, very fine.
GOLDEN ROSE—Golden Leaves with pink flowers.
EVERITT'S CHOICE MIXTURE—Dwarf. Pkt. 5c; oz. 10c; ¼ lb. 35c.

Petunias This is one of the most popular annuals, because they succeed everywhere and bloom constantly and profusely from June to frost. They will also flower freely in sunny windows in the house. We sell only the large flowering kinds.
HOWARD'S STAR—Crimson-Maroon with a five pointed star of blushing white. Pkt. 15c.

VENOSA—Light red veined. Pkt. 12c.
ROSY MORN—Deep Rose Pink. A very splendid sort. Bears profusely, 10c.
ROSE OF HEAVEN—Single, rose color 10c
LARGE FLOWERING—Single Mixed, Pkt. 15c.
LARGE FLOWERING—Double Mixed, Pkt. 25c.

GIGANT FRINGED AND RUFFLED—A strain of unexcelled beauty and unequaled in size.

Giant Fringed and Ruffled Petunia They comprise almost every color and shades of color and are fascinatingly beautiful in shape. Pkt. 20c.

Poppies **Glowing Beauties**—One of the most admired of our annual flowers. They are easily grown and display themselves in almost numberless shades. The seed should be sown thinly where they are to bloom, and sow at intervals for a season's succession. a. and p.

Shirley Poppies An extra fine strain, single and double flowers, in colors from white to deepest crimson, and some striped, mixed. a. Pkt. 5c; ¼ oz. 20c; oz. 60c.

Iceland Poppies —p. Elegant free-flowering, hardy plants. Bear all summer, height 15 inches. Separate colors, yellow 8c; orange red 8c; orange, double, 8c; Single mixed, 6c; Double mixed, 7c; (For Plants see perennials.)

Oriental Poppies —p. Produce the most gorgeously colored flowers. — Hardy. (For Plants see perennials.)

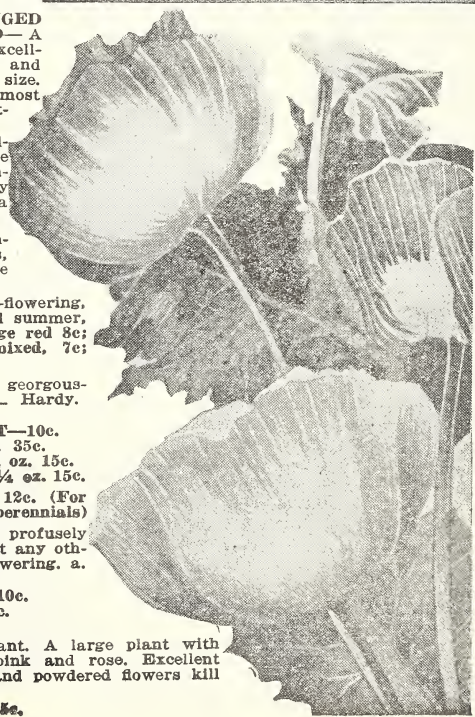

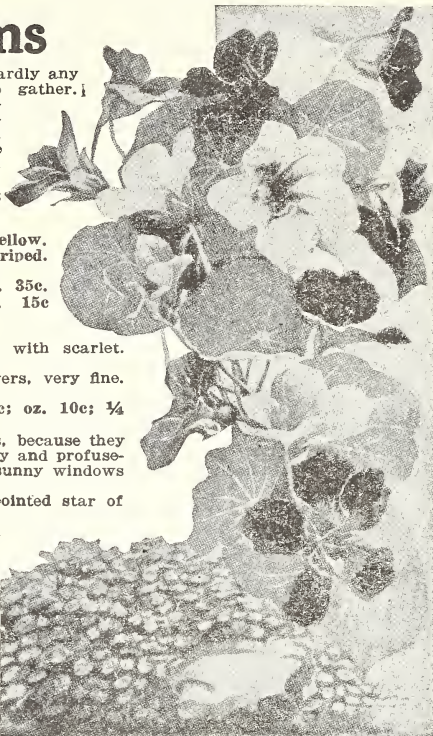

BRILLIANT DARK RED—10c. **SCARLET**—10c.
EVERITT'S CHOICE MIXTURE—10c; ¼ oz. 35c.
ANNUAL POPPIES—Mixed Single, Pkt. 5c; ¼ oz. 15c.
ANNUAL POPPIES—Mixed, double, Pkt. 5c; ¼ oz. 15c.

Phlox Perennial Sorts Fine mixed 12c. (For Plants see perennials)

Portulaca (Moss Ross) Will grow and bloom profusely in dry hot situations where almost any other plant would perish. Brilliant in colors. Large flowering. a.
SINGLE WHITE 10c; **DOUBLE WHITE** 10c.
SINGLE YELLOW 10c; **DOUBLE YELLOW** 10c.
SINGLE BRONZE 7c; **DOUBLE BRONZE** 10c.
SINGLE MIXED 7c; **DOUBLE MIXED** 7c.

Pyrethrum This is the insect powder plant. A large plant with daisy-like flowers in white, pink and rose. Excellent for cutting. Blooms may and June. The dried and powdered flowers kill insects when they breathe the dust. p.

SINGLE MIXED 10c; DOUBLE MIXED, 15c.

Everitt's (CK) Tomato Seed

RED VARIETIES

Culture

For the first sowing, select the earliest types. Sow the seed in the house or hot bed in February or early March. When two inches high, transplant. If time will permit, transplant again in two weeks. This will induce root growth. Each time giving more room. When ground is warm, set in garden 3 to 4 feet apart. For main crop, start later and transplant once or twice. As they grow you can let them trail on the ground or build frames about a foot high to carry them, or trellises. One pkt. will produce about 300 plants. an oz. about 2,000 plants.

Chalk's Jewel

An exceptionally fine variety. about ten days later than Earliana; fruit uniformly smooth, round and solid; color crimson; a good canning sort for the North. Pkt. 10c; oz. 25c.

John Baer

Beautiful Tomatoes in 30 days from setting the Plants. Probably the best Extra early and a strong competitor for late honors. It is wonderfully productive, often yielding 50 to 100 fruits to a plant. Every tomato ripens evenly right up to the stem with no "crisps." The flavor is mild and deliciously sweet. Plant a package of this tomato and it will help you to have the best garden you ever raised. NOTICE—The John Baer has produced perfect solid, brilliant deep red tomatoes in 30 days from well developed strong plants that were set from the hot bed in veneer boxes and with the roots undisturbed.

Pkt. 10c; oz. 35c; ¼ lb. \$1.00; lb. \$3.50.

Wayahead

This new variety of tomato has the peculiar

tato leaf foliage. In season, it is a few days earlier than Earliana. Color red, surface smooth, solid and heavy. The fruit is medium size and borne in abundance. We recommend it highly for home and market gardens. Pkt. 10c; oz. 35c.

Earliana

One of the best early tomatoes, taking into account season of ripening, size, productiveness and quality. Earliana grows in clusters, is bright red, as round as a ball, solid and splendid quality. Pkt. 10c; oz. 35c; ¼ lb. \$1.00; lb. \$3.50.

Bonny Best

This tomato is very beautiful scarlet color. Perfectly good flavor. Plants very productive, as they set in clusters of 4 or more at frequent intervals. One of the best for forcing. Excellent for all purposes. Pkt. 10c; oz. 35c; ¼ lb. \$1.00; lb. \$3.25.

The Stone

This is the standard late or main crop tomato. The fruit is bright scarlet, very large, smooth, solid, heavy, of the finest quality. The plant is a strong grower and very productive. This variety is in great favor for home, market, and canning, North and South. Bears shipment to distant markets. Pkt. 10c; oz. 30c; ¼ lb. 85c; lb. \$3.00.

Dwarf Stone

The best stiff-stalked, upright dwarf tomatoes in size of fruit and productiveness. The fruit is produced in clusters of 3 to 5 and each plant produces quite a number. The color is deep scarlet. Quality, the best. Pkt. 10c; oz. 35c; ¼ lb. \$1.00; lb. \$3.50.

Pink or Purple and Yellow Varieties

Beauty Color, a glowing crimson, with a tinge of purple. Shaped perfectly round, large size, solid. Quality splendid. Medium early, productive. Pkt. 10c; oz. 35c; ¼ lb. \$1.00; lb. \$3.50.

Golden Queen This is a large, beautiful, yellow tomato of superior qualities. Very showy and very good. It is the best yellow tomato. Pkt. 10c; oz. 35c; ¼ lb. \$1.00; lb. \$3.50.

Small Fruited Sorts

These are used for preserves.

Yellow Plum Plum shaped. Pkt. 10c; oz. 35c.

Red Cherry Looks like large cherries. Pkt. 10c; oz. 35c.

Greater Baltimore

The Canner's and Market Gardeners' Favorite—This has come to be the great canning tomato. Since its introduction many canners make it obligatory on their growers that this

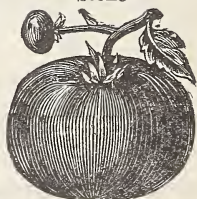

Chalk's Early Jewel

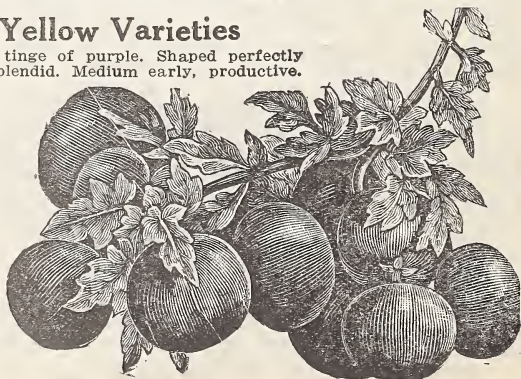

Golden Queen

Stone

Beauty

variety be raised for them. The color is brilliant red. The vines have great vigor, are healthy, grow compact and bear a cluster of tomatoes at every other joint. It is an immense yielder. They are as fine for the home and market garden, where they are sure to meet your expectations. Pkt. 5c; oz. 25c; ¼ lb. 85c; lb. \$3.00. If you want more than a pound get our price.

PONDEROSA

Wonderfully Popular, Has Been the Most Popular of the Mammoth Tomatoes.

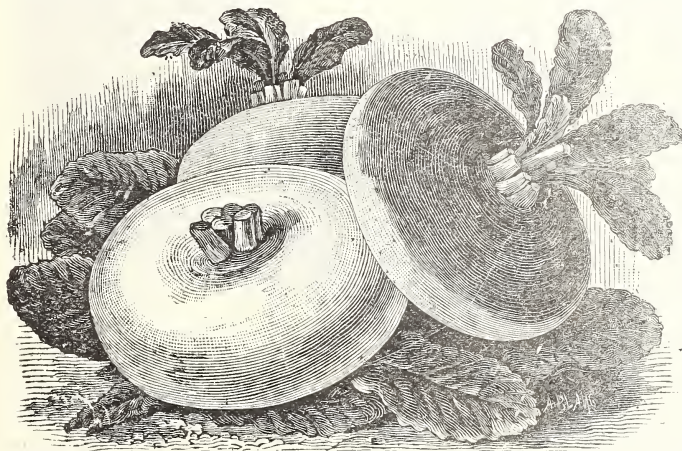

A popular way to raise the Ponderosa is to plant it by a fence or trellis, then it will grow higher than a man and bear fruit all along many weighing a pound or more. The quality is splendid, especially good for slicing. Pkt. 10c; oz. 45c; ¼ lb. \$1.25.

TURNIP SEED

Culture For early sow as soon as ground will permit in drills 14 inches apart. The Ruta-Baga, 24 inches apart. Thin the plants to 6 inches and Ruta-Baga to 12 inches, or sow broadcast. For Fall and Winter sow July and August for turnips, one month earlier for Ruta-Baga. Use one to three lbs. per acre.

Extra Early Milan This is the earliest variety for early. Purple top and white root. Pkt. 5c; oz. 10c; ¼ lb. 30c; lb. \$1.00.

Early Snowball A pure white, very early variety. It makes sizeable turnips in 6 to 7 weeks. A fine garden variety. Pkt., 5c; oz., 10c; ½ lb. 25c; lb. 70c.

White Egg Medium early white, splendid quality. A favorite for the home garden. Pkt. 5c; oz. 10c; ¼ lb. 30c; lb. \$1.00.

Purple Top Strap Leaf This is the most popular flat variety. Good for early Spring, Fall and Winter. Top is purple, bottom white. Very beautiful. We cannot recommend it too highly. Pkt. 5c; oz. 10c; ¼ lb. 25c; lb. 70c; 5 lbs. @ 60c.

Purple Top White Globe A large purple top globe-shaped turnip of choice quality and is very productive. A long keeper. Pkt. 5c; oz. 10c; ¼ lb. 25c; lb. 70c; 5 lbs. @ 60c.

Large White Globe (Strap leaved) — A perfect globe in shape; skin and flesh pure white, firm and sweet. Pkt. 5c; oz. 10c; ¼ lb. 25c; lb. 70c.

Early White Flat Dutch Differs from the Purple Top Strap Leaf only in color. Pkt. 5c; oz. 10c; ¼ lb. 25c; lb. 70c.

Bell's Colossal When we say that Bell's Colossal Tomato is the very best tomato for the home garden, we are only emphasizing what our customers have found to be true. It combines the best qualities—great size, great productiveness, great solidity of flesh and delicious flavor, when eaten raw, or cooked, or canned. It is a tomato that wins on exhibition or in the kitchen. So if you want a tomato to exhibit in your garden or at a fair, or just for use, by all means have some plants of Bell's Colossal. Grows on the ground but better to let it climb. Plant it in every home garden. Pkt. 10c; oz. 50c.

NORTON BEAUTY—See specialties.

WIN-ITS-WAY—See 4th cover page and Specialties for description.

A new vegetable "TO-PEP-O" See specialties.

Amber or Yellow Globe Grows to a large size. Yellow flesh. Very productive. Good quality. Keeps until Spring. Pkt. 5c; oz. 10c; ¼ lb. 25c; lb. 70c.

Cowhorn If you want a large, coarse heavy-yielding turnip for stock pasture or winter feed, also to improve your ground, sow this one. It grows about one-half above ground and 12 to 15 inches long. Also will be eaten by cattle, sheep and hogs in the field. Sown with rape the pasture and fertilizing value of the crop is considerable. Pkt. 5c; oz. 10c; ¼ lb. 25c; lb. 70c.

Golden Ball or Orange Jelly

If you want a yellow-fleshed early, garden turnip, select this one. Tops are small, roots round, smooth, deep yellow color. Pkt. 5c; oz. 10c; ¼ lb. 30c; lb. \$1.00.

Seven Top Grown for the tops, which are used for greens. Very extensively grown in the South. Pkt. 5c; oz. 10c; ¼ lb. 25c; lb. 70c.

Ruta Baga Seed

Adapted to Northern States only. Good for table, but used chiefly for stock feed.

Improved American A hardy, productive variety with a small neck. The roots are large, oblong or globular, with very little tap root. Color bright yellow with a purple top. Very solid and heavy. Pkt. 5c; oz. 10c; ¼ lb. 25c; lb., 70c.

Large White French Bulbs grow to large size, very solid, and are excellent for table as well as make a cheap feed for stock. The

skin and flesh are white. Pkt. 5c; oz. 10c; ¼ lb. 25c; lb. 70c.

TOBACCO Culture Sow the seed in early Spring on a clean bed. A favorite way is to burn brush or trash on the bed to kill weed seeds. Wood ash is the best fertilizer. When plants are 4 to 5 inches high, set in hills 4 to 5 feet apart. Give clean, thorough cultivation. An ounce of seed will produce plants for one acre.

HAVANA—One of the earliest. Fine texture and superfine flavor. Pkt. 10c; oz. 25c; ¼ lb. 85c.

WHITE BURLEY—A great favorite. Fine quality and commands high prices. Pkt., 10c; oz., 25c; ¼ lb. 85c.

CONNECTICUT SEED LEAF—A popular variety. Much esteemed for cigar wrapper. Pkt. 10c; oz. 25c; ¼ lb. 85c.

I bought my garden seed from you and sure had a fine garden. They have the right name of O. K. seeds."—Mrs. Eliza Hommel, Needham, Ind.

A Select List of Flower Seeds

EVERY person, whether in country or city, can raise flowers... The expense for seed need be but a trifle, while the labor will be so interesting that it will really be recreation and a real pleasure. I believe the most interesting flower garden I ever saw was in Indianapolis, and it was cultivated on a narrow strip of ground between the sidewalk and the street. This would seem to suggest that there is hardly any person so situated that he or she cannot indulge in this highly educational, refining, pleasant and frequently profitable pastime or business. In our list we have aimed to present the popular, easy growing kinds that are sure to respond to the care that the amateur can give them, rather than the varieties that demand the skill of the expert to insure satisfactory results.

Any amateur who wishes a colorful garden, or even a bed, can have it at trifling cost and little delay. The annuals give all the brilliant colors desired. Sown in the Spring some can be made to produce lovely blossoms in a short time and with many kinds, continue this bloom until killed by frost. To supplement the bedding kinds use the annual Climbers—Moonflowers, Morning Glories, Cypress Vine, Etc.

In the following list "a" stands for annual, "b" for biennial and "p" for perennial; "c" with any of these means climber.

Annuals These are plants that flower and mature the first year and then die.

Biennials These are plants that flower the second and sometimes the third year after the seed is sown and then perish.

Perennials These generally do not bloom until the second year from seed and then live outdoor and bloom yearly.

Seeds for Special Purposes

If you want **PLANTS OF TALL GROWTH**, suited for backgrounds and centers, select Asters, Balsams, Larkspur, Marigold, Hollyhock, Scabiosa, Stocks, Sweet Williams, Zinnias, etc.

If you want **CLIMBING PLANTS**, select Canary Bird Flower, Cypress Vine, Gourds, Impoemas, Nasturtiums (Tall), Sweet Peas, etc.

If you want **SPREADING AND TRAILING PLANTS** for vases, hanging baskets, etc., select Alyssum, Lobelia, Verbenas, etc.

If you want **LOW GROWING PLANTS OF SPREADING HABITS, ADAPTED TO SMALL BEDS, RIBBONS, MASSING OR BORDERS**, select Ageratum, Alyssum, Calliopsis, Campanula, Candytuft, Lobelia, Mignonette, Nasturtiums (Dwarf), Pansy, Verbena, Petunia, Phlox, Poppy, Portulaca, etc.

If desired to have **BEDS OF SINGLE KINDS THAT BLOOM A LONG TIME**, select Phlox, Pansy, Petunia, Stock, Balsam, Verbenas, Zinnias, etc.

If you want **FRAGRANT FLOWERS**, the Mignonette, Sweet Pea, Alyssum, Carnation and Heliotrope should be selected.

Select \$1.25 worth of seeds in Pkt. oz., and $\frac{1}{4}$ lbs., and remit \$1.00. This means for each dollar you pay for Pkts., ozs., and $\frac{1}{4}$ lbs. select 25c worth extra. This covers both flower and vegetable seeds.

What our Customers say

Last year I sent for some Canna Bulbs, and they did fine. They sure had some fine blossoms on them and everyone said "The President" was the finest they had ever seen.—Mrs. W. L. Huffaker, R. R. 2, Kodak, Tenn.

With pleasure I write you concerning the won't you last year. The Petaia cabbage was a new thing to us, but liked it very much. The Everbearing mixed seeds were all just fine. Everyone that passed by my home admired my flower garden and vines. My sweet corn was also wonderful. Words can't express the success I had from your seed. Mrs. Payton Martin, R. 3, Pendleton, Ind.

With reference to the seeds purchased from you last year, The Petaia cabbage was a new thing to us, but liked it very much. The Everbearing Cucumber, Yard Long Beans, and Lettuce, Celery, etc., were all that we could like for them to be.—Mrs. C. Walker, Pendleton, Ind.

I find your seeds all first class and true to name. The Harris Earliest Pepper I got of you last year was the finest pepper I ever raised and the earliest.—I. E. Welker, Bloomdale, Ohio.

This girl's parents buy O. K. Flower Seed and she has loads of flowers all summer.

THEY JUST CAN'T HELP BUT TALK ABOUT O. K. BRAND SEEDS

I want to write and thank you for the shrubs and plants that I received, because they had the best roots of any plants that I have ever put out. The Butterfly Bushes that I bought last spring were the prettiest that I have ever seen. Everyone stopped to ask about them. I was more than pleased with the Gladioli and I will need more in the Spring.—H. B. Albright, 128 S. 3rd St. Decatur, Ind.

I have used Everitt's O. K. seeds for a number of years and have always been well pleased with them, and have never bought better seeds. And I especially want to recommend Bella Colossal Tomato and Early Wonder Beet.—Mrs. Floyd Dabbenmire, Thurston, Ohio.

I was very much pleased with my Butterfly Bush this year. It was very pretty.—Mrs. Anna Bowland, Lansing, Mich.

Fountain Grass, a. Pkt. 5c.

Mixed Ornamental Grasses—Annual 5c.

Mixed Ornamental Grasses—Perennial 10c.

Morning Glories and Moonflower

There are tens of thousands of places where rapid climbers are wanted to cover unsightly places or furnish cool shade. For such purposes no climbers are better than these two. They all grow very rapidly and to a length of 15 to 25 feet, bearing thousands of flowers. Do not sow seed until trees start their leaves.

Japanese Morning Glory Bears very large flowers in many soft and delicate colors and shades. Pkt. 6c. oz. 25c; ¼ lb. 75c.

Fringed Japanese Morning Glory Pkt. 10c; oz. 40c.

Brazilian Morning Glory This variety quickly makes a thick foliage of great lobed leaves and is brilliant with a great profusion of rose-colored flowers, with a satiny five-pointed star center. Pkt. 5c; oz. 35c.

Bona Nox Blue Morning Glory, also called Evening Glory. Pkt. 5c; oz. 20c.

Moonflower This may be started in the house and transplanted when the weather becomes warm and settled or sown in open ground. The flowers open at sundown and some have a delightful fragrance. Pkt. 10c; oz. 35c.

SAKATA'S GIANT FLOWERING MORNING GLORIES. See specialties.

Momordica (Balsam Apple) — A beautiful vine. Grows about ten feet and bears large creamy-white, dotted with

Helianthus

black flowers, or pure white with red pistils. The flowers are succeeded by sulphur yellow fruits which burst when ripe and show the large blood-red seeds. As the flowers and fruit are borne at the same time the effect is striking. The fruit has medicinal properties, as a healing liniment or salve. Pkt. 8c; ¼ oz. 30c.

Helichrysum Of all Everlastings, this is the best known. The plants grow 2 to 3 ft. high and are covered with fine large double flowers. The colors are most brilliant including white, pink, yellow and scarlet. They are attractive when grown in beds in the garden and keep well as cut flowers or dried for winter bouquets. a.

Separate colors—White 6c; Yellow 6c; Rose, 6c; Finest Mixed, 6c.

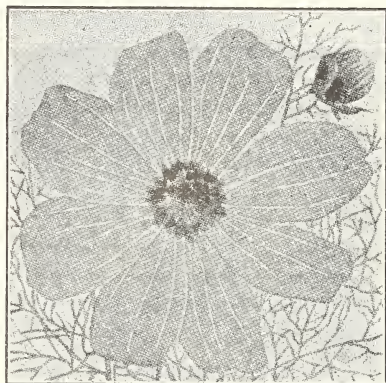

Momordica

DWARF VARIETIES—Mixed Pkt. 5c; oz. 25c. **MINIATURE VARIETIES**—These bear beautiful small flowers, fine for cut flowers. Mixed Pkt. 10c oz. 40c.

Kochia (Burning Bush and Summer Cypress)—Early in the Fall this popular ornamental shrub turns to a bright scarlet. Quick growing. Let plants have 3 feet of space. a. Pkt. 5c; $\frac{1}{4}$ oz. 20c.

Lantana This is a shrubby plant with Verbena-like flowers that make a fine display in garden or porch boxes the first season from seed. They flower freely the entire summer and then may be potted for winter blooming, height 18 inches. Seed requires 4 weeks to germinate. The time can be hastened by soaking seed in warm water 48 hours. a.

Hybrida Mixed, Pkt. 5c; $\frac{1}{4}$ oz. 20c.

Lathyrus (Hardy Sweet Pea)—A very decorative climbing vine. Suitable to grow on fences trellises, as floral screens. Blooms all summer. Good for cutting, etc. p. c.

PINK BEAUTY—Pink, white variety. Pkt. 7c; $\frac{1}{4}$ oz. 25c.

RUBRA—Bright Crimson, Pkt. 7c; $\frac{1}{4}$ oz. 25c.

MIXED—All colors, Pkt. 6c; $\frac{1}{4}$ oz. 20c.

Linum (Crimson Flax)—The rich crimson flowers last only a day but they come continually until frost. Makes a splendid show in bed or border.

ROSY RED, Pkt. 5c; $\frac{1}{4}$ oz. 20c.

Lobelia (Cardinal Flower)—Bears brilliant, fiery scarlet flowers. Plant in moist place. a.

TALL VARIETIES, mixed Pkt. 6c; $\frac{1}{4}$ oz. 25c.

DWARF VARIETIES, mixed, Pkt. 6c; $\frac{1}{4}$ oz. 25c.

Lupines The Lupines are of easy cultivation and in addition to their value as border plants, are admirably adapted for cutting. They attain a height of 15 inches, producing long flower-spikes which keep a long time in water. a. and p.

ANNUAL KINDS, mixed, Pkt. 5c; $\frac{1}{4}$ oz. 20c.

PERENNIAL KINDS, mixed, Pkt. 6c; $\frac{1}{4}$ oz. 20c.

Marigold —Blooms in late summer when many other plants are past their best and then affords a wealth of color. a.

DOUBLE AFRICAN—Tall Mixed, 5; $\frac{1}{4}$ oz. 20c.

DOUBLE AFRICAN—Dwarf Mixed, 5c; $\frac{1}{4}$ oz. 20c.

DOUBLE FRENCH—Tall Mixed, 5c; $\frac{1}{4}$ oz. 20c.

DOUBLE FRENCH—Dwarf—7c; $\frac{1}{4}$ oz. 30c.

Mignonette One of the principal uses of this fragrant flower is for cutting and combining in bouquets with other flowers. a.

VICTORIA—A very fine red sort, 7c; $\frac{1}{4}$ oz. 25c.

GIANT FLOWERING Sweet scented, 5c; $\frac{1}{4}$ oz. 20c.

Mimosa (Sensitive Plant)—This plant is most interesting from its nature to fold up and drop when touched, then after a short period it assumes its natural position. Small flowers. a. 6c.

Nigella (Love-in-a-Mist)—Very odd flower but one of the prettiest and adds charm to any garden. Always does well. Flowers blue and white. Plant in beds or border. Fine cut flower. 12 to 15 inches. Blooms 8 to 10 weeks after sowing. a. 8c.

Pansies These lovely flowers are everybody's favorite and are so well known as to not need lengthy description. Our varieties are among the best. a. b.

GIANT ICE KING—Snow white with dark spots. 10c.

JUPITER—Skyblue, 8c; $\frac{1}{4}$ oz. 50c.

MARCH BEAUTY—Dark velvety purple, 9c; $\frac{1}{4}$ oz. 50c.

WINTERSUN—Golden with dark spots. 15c; $\frac{1}{4}$ oz. 50c.

CELESTIAL QUEEN—Skyblue, 9c; WOTAN—Blk. 9c.

EVERETT'S CHOICEST GIANT MIXED, 10c; $\frac{1}{4}$ oz. 50c.

GOOD BEDDING MIXED 7c. $\frac{1}{4}$ oz. 25c.

Phlox Drummondii Comes into flower in early summer and is not excelled for brilliancy and continuity of blooms. They make beautiful borders. When sown in beds colors are beyond description.

GRANDIFLORA LEOPOLDI—Rosy pink with white eye.

GRANDIFLORA WARRIOR—Red.

GRANDIFLORA Separate colors—white 7c; dark red, 7c; Fiery Red 7c; Mixed 6c.

Platycodon (Japanese Bell Flower)—One of the finest hardy plants. Produced from July until frost, very showy, violet blue flowers almost rivaling the charming Jackmanii Clematis, 1 to 2 feet high. Each 25c; 5 for \$1.00; doz. \$2.25.

Phlox Beauty and usefulness bring these hardy border plants among those of greatest importance. For massing they are very effective and their great variety of color add a brilliancy to the landscape. Their flowering season begins in July and if the past bloom spikes are removed, the blooming period may be prolonged until fall.
Separate colors—White, Pink, Lavender, Red, each.

Pyrethrum Hybridum Hardy Daisy. A group of graceful free-flowering plants that are unequalled for cutting. Colors range from pure white to most brilliant scarlet. Bloom practically all summer.

Rudbeckia (Golden Glow) An old favorite in the "Old Fashioned Garden." Fine for cutting. Five feet high. Blooms July-September.

Shasta Daisy A much improved hardy daisy, bearing a great profusion of large white flowers from early summer until late in the fall. Fine for cut flowers. Two to two and a half feet high.

Tritoma (Red Hot Poker)—A beautiful late-flowering plant, having handsome reed-like foliage. Flowers are of a rich orange scarlet color three feet high. Blooms Sept.-Nov. 25c; 5 for \$1.00; doz. \$2.25.

Price of any Hardy Perennials, unless priced with the description: Each 25c; 5 for \$1.00; dozen, \$2.00; per 100, \$12.50. An order for a dozen or more may include two or more varieties. Delivered by express or parcels post paid at these prices.

HONEYSUCKLE

AMPELOPSIS VEITCHII
(BOSTON IVY)

CLEMATIS

WISTARIA

MATRIMONY VINE

Without climbing vines many homes would lack much of their beauty. Then it follows that many homes that are still dull and unattractive can be made beautiful from early spring, when the tendrils of hardy climbers take on new life till Winter comes again.

If by mail add 10c for one; 20c for three.

Ampelopsis, Veitchii (Boston Ivy)—Clings to any wall, no matter how hard or smooth. The leaves change in Fall to a vivid autumnal tinge. Each 50c; 3 for \$1.00.

Clematis, Paniculata (White Flower) — 2 years. Each, 75c; 3 for \$1.25.

Clematis, Jackmanii (Blue Flower) — 2 years. Each 75c; 3 for \$2.00.

Chinese Wistaria Purple Flowers are borne in large drooping clusters. Grows to great length and dense foliage. Each 60c; 3 for \$1.50.

Honeysuckle, Hall's Japan Pure white and creamy yellow. Very fragrant. Each, 50c; 3 for \$1.00.

Kudzu Vine — One of the best hardy climbers, will run 30 to 40 feet in one season. Profuse rosy-purple, flowers in small racemes in August. Makes dense shade. Each 35c; 3 for \$1.00.

Matrimony Vine — Flowers from June to purple; very fine for trellises and fences. Each 35c; 4 for \$1.00.

Trumpet Vine (Begonia Radicans) — A very strong growing shrubby vine with rich foliage, profusely set with trumpet-shaped flowers that are bright red. Blooms a long time. Entirely hardy. Each 50c; 3 for \$1.25.

Bittersweet (Celastrus Scadens) — A rapid growing vine, which has yellow

low flowers in early summer that produce bright, orange colored fruits by autumn which remain on the stems all winter unless eaten by the birds. They are useful for bringing bright orange and scarlet to the home in winter. Each 65c; for \$1.50.

Evergreen Bittersweet (Evonymus Radicans) — Said by some authorities to be "the best vine in the world." Here are some of its merits. Judge for yourself: (1) Evergreen, therefore beautiful 365 days in the year; (2) easy to grow, trailing on the ground or climb to 30 feet; (3) harder than ivy; (4) its beautiful red fruits which redeem our winters from their bleak and cheerless moods; (5) it will climb on almost any wall, be it stone, concrete or brick, smooth or rough, if it is first helped to start up. Water liberally the first year and protect over first winter. Each, 75c; 3 for \$2.00.

Maderia Vine A rapid growing vine that makes a dense foliage. Bears sweet white flowers. Grows well everywhere, but is partial to sunny location. Tubers. Each 10c; dozen, 75c. Protect tubers in winter or take them up and keep over in cellar.

"The seeds which I got from you proved very satisfactory, especially your cut flower mixture. I can heartily say that nearly every seed sprouted and came through the ground."—Carl H. Richenbush, Pendleton, Ind. R. E. 1.

Salvia (Scarlet Sage)—This is a universally grown bedding plant that keeps the garden bright with color until late in autumn.

BONFIRE—Fiery Scarlet 7c.

ZURICH—Very Dwarf with large brilliant flower spikes 10c.

Scabiosa (Mourning Bride)—Also known as the Pin Cushion plant. When the seed pods are kept picked off it will bloom through the whole summer. Great bee pasture.

TALL DOUBLE—Choice Mixed, 5c; $\frac{1}{4}$ oz. 20c.

DWARF DOUBLE—Choice Mixed 5c; $\frac{1}{4}$ oz. 20c.

Statice—Bears masses of clear mauve flowers, easily dried and prized for winter decorations, 15 inches. Mixed 7c; $\frac{1}{4}$ oz. 30c.

Stocks (Ten Weeks)—Adapted for massing, bedding, borders and of special value for pot culture. Profusion of bloom, brilliant and varied colors. Giant perfection Strain, a.

EVERITT'S SUPERIOR MIXTURE—Double, all colors 12c.

EVERITT'S SUPERIOR MIXTURE, single, all colors 8c.

Sweet William (Dianthus Barbatas)—A beautiful class of easily grown and beautiful plants with flowers of rich colors. Hardy. p. See also Perennial Plants.

PINK BEAUTY—Fine Deep Pink, 5c; $\frac{1}{4}$ oz. 20c.

SCARLET BEAUTY—Brish scarlet, 5c; $\frac{1}{4}$ oz. 20c.

EVERITT'S DOUBLE MIXED—Extra fine, 5c; $\frac{1}{4}$ oz. 20c.

EVERITT'S SINGLE MIXED—5c; oz. $\frac{1}{4}$ oz. 20c.

Sweet Peas—Universally admired and desired. Everybody who has a little space should plant a row and share with neighbors who are less fortunate. Plant liberally. The two leading classes are the Spencers, early and late, and Eckfords Grandiflora.

The Giant Late Spencers listed below are recommended for spring and summer blooming and will thrive in any climate where any sweet peas will grow. This strain of Sweet Peas bears three and four very large flowers on long stiff stems.

There is always a space in the garden or back yard for a row of Sweet Peas.

Everitt's Hardy Perennials

"THE FLOWERS GRANDMOTHER LOVED TO GROW"

The perennials we sell you are strong field-grown. Planted in the spring they will flower the same year and will continue for years, ever increasing in number of plants and blooms. In three years the bed should be thinned—the plants divided and the surplus transplanted. With a start of a dozen plants, your home and your friends' homes may be supplied with beautiful flowers from early spring until freezing winter. Price of all varieties in this list unless priced with description; one, 25c; 5 for \$1.00, dozen, may be of one or more kinds, \$2.00; per 100, one or more kinds, \$12.50. All delivered Parcel Post or Express.

Aquilegia (Columbine)—All colors, fine for border and rock garden. Excellent cut flower. Two feet high. Blooms June-Oct. Double and Single Mixed.

Bleeding Heart An old fashioned favorite. Its long racemes of graceful heart-shaped flowers are very attractive. It is perfectly hardy and does well even when planted in shade. Each 60c; 3 for \$1.50; doz. \$5.00.

Chrysanthemum (Hardy October Rose)—The development of the hardy Chrysanthemum has made it possible to have color, life and beauty in the garden when the other hardy plants have passed. Fine for cut flower. Large Flowering Varieties. Autumn Beauty—Golden Brown. Autumn Glow—Red. Quinola—Large Golden Yellow. Old Homestead—Soft Pink.

Coreopsis (Tickseed)—The flowers are a rich, golden yellow of slender graceful form, making an excellent cut flower. Two feet high. Blooms all summer.

DAISY—(See Shasta Daisy.)

Delphinium (Larkspur.)—It is almost impossible to convey anything like an adequate description of the improved Delphiniums. Their greatest charm lies in the wonderful stateliness of growth, and the rich colors and tints of their striking flowers. Nothing in blue can compare with Delphiniums, and for their value in hardy borders they are unsurpassed.

Belladonna—Sky blue flowers. English Hybrids—Colors range from light blue to dark purple.

Dianthus Barbatus

(Sweet William)—Certainly one of the most popular old-fashioned garden plants. Their freedom of blooming, striking color and pleasing fragrance make them a favorite of all flowers. Fine for cutting.

Everitt's Special Mixture—Will give an array of beautiful colored flowers, unrivaled for display in solid bed, borders or for cut flowers.

Newport Pink—A beautiful pink variety.

Dianthus Plumarius (Clove Pink)—Low growing, sweet scented, early blooming. Should be planted in quantities in beds or borders.

Digitalis (Foxglove)—One of the most popular perennials. Throws a flower spike, tall and stately, to a height of 4 to 6 feet. July-Aug. Mixed.

Gaillardia The most glorious of our true "Old-Fashioned Flowers." Flowering constantly from June till October in many rich and brilliant colors of orange, crimson and red. Unexcelled as a cut flower. Mixed.

GOLDEN GLOW—(See Rudbeckia.)

Gypsophila (Baby's Breath)—Masses of minute flowers produced throughout the summer, very fine for cutting and drying. Paniculata Grandiflora—Pure White.

Hemerocallis Lily-like flowers with very ornamental foliage, color pure yellow. Three feet high. Blooms June-July. Thunbergia—Funnelshaped flowers of rich buttercup yellow.

Hibiscus Very robust, growing plant, having large flowers of rich shades of red, pink, and white. Height, six feet.

Marvel Mallow—Produces flowers of immense size of colors far surpassing the old types. Red, Pink and White. Separate colors. (See descriptions and prices in Specialties and illustrations on second cover page.)

Hollyhocks Our Hollyhocks are produced by a method that insures them free from rust. If you buy them elsewhere you may have that trouble. Double Mixed. Single Mixed.

ALEGHENY—Flowers seldom less than 6 inches across and fringed. Constant bloomers. Each 30c; 4 for \$1.00; dozen, \$2.50.

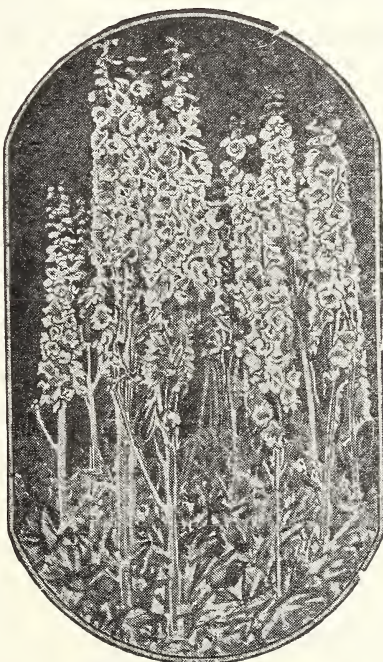

Lily of the Valley

This flower is well known and appreciated by all. We sell field-grown clumps that will give immediate effect. Some of the roots can be taken up and bloomed in pots in the house.

Lathyrus (Hardy Sweet Peas.—Red, Pink, White. Separate Colors. each.

Poppies Oriental and Iceland (See department of Flower Seeds. We do not attempt to ship the plants on account of their perishable nature.)

(Perennials cont'd page 37)

Delphinium (Larkspur)

that nearly every seed sprouted and came through the ground."—Carl H. Richenbush, Pendleton, Ind., R. R. 1.

"I had the most beautiful bed of cannas from ones purchased from you and my narcissus and Chinese Lilies are now in full bloom and very lovely."—Mrs. W. E. Leonard, Rochester, Ind. R. 8.

"Your seeds and bulbs did fine. We had the prettiest flower garden in town and want to order more for this year."—Mrs. Laura Ray, Clayton, Ind.

"The flower seed and the mixed cannas I got from you in the Spring were very nice and was well pleased with them. My flowers were the talk of the neighborhood. Mrs. Thomas H. Wisler, Elwood, Ind.

Hardy Flowering Shrubs

SNOWBALL
ROSE OF SHARON

GOLDEN ELDER

HYDRANGEAS

LILAC

A few dollars invested in shrubs now will soon make your home a beauty spot and a greater joy to live in, and if you should later desire to sell it you will find it worth several hundred dollars more. So plant hardy flowering and ornamental shrubs without further delay. All of our shrubs are well developed, not seedlings.

Add for postage and packing 10c for one, 20c for three, 50c a dozen.

Athea (Rose of Sharon) Blooms August and September. In separate colors, White, Red, Pink, and Purple. Each 50c; 3 for \$1.25.

Barberry Thunbergii 12 to 18 inches. Each 30c; 3 for 75c; dozen, \$2.75; 18 to 24 inches. Each 40 cents; 3 for \$1.00; dozen, \$3.50.

Calycanthus (Sweet Shrub)—Flowers purple, double deliciously fragrant. Foliage rich, dark green. Very desirable. Each 60c; 3 for \$1.50.

Deutzia Pride of Rochester Large white flowers tinged with rose. Profuse bloomer and one of the earliest hardy plants to bloom, following right after Spirea Van Houttei. Succeeds everywhere. Each 50c; 3 for \$1.25.

Dogwood (Cornus)—Grows 6 to 10 feet tall. Bears clusters of small white flowers in early summer, followed by whitish blue berries. Each 50c; 3 for \$1.25.

Golden Bell or Forsythia This is the shrub which when it blooms very early in the spring everybody admires and many people seek for the name of it. Small bell-shaped, beautiful, bright-yellow flowers appear before the leaves. One of the most ornamental. Succeeds everywhere. Each 50c; 3 for \$1.25.

Honeysuckle (Bush)—Forms beautiful tall bushes, with handsome foliage and beautiful pink flowers. Its flowers are followed by orange or red berries which cover the plant in Summer and Autumn. Each 50c; 3 for \$1.25.

Hydrangea Aborescens Large round white flowers, July to September. Each 65c; 3 for \$1.50.

Hydrangea Grandiflora The well known hydrangea. Each 60c; 3 for \$1.50.

Hydrangea Paniculata (Tree Form) this type is most valuable for specimen planting because of its form and height which is 7 to 8 feet. Each \$1.50.

Syringia or Lilac An old favorite loved by all. We offer them in the following colors; Red, White, and Purple. Each 75c; 3 for \$2.00.

Privett California 1 year, dozen 75c; 50 for \$3.00; 100 for \$5.00; 2 year, dozen, \$1.25; 50 for \$4.00; 100 for \$6.50.

Privett Amoor River This is the hardiest of all. Just as pretty as the California, but never winter kills. 1 year, dozen \$1.25; 50 for \$6.00; 100 for \$10.00. 2 year dozen, \$2.00; 50 for \$7.00; 100 for \$13.00.

Philadelphus (Mock Orange) Grows 8 to 10 ft. high. Creamy white flowers in May. Each 50c; 3 for \$1.25.

Snowball This class of shrubs includes the well known Snowball seen on many lawns. Also we offer some improved kinds.

Snowball Opulus Sterile The well known favorite SNOWBALL bush which is loaded with large white balls in clusters in May. It is found on nearly every lawn or should be. Grows 6 to 8 feet. Each 60c; 3 for \$1.50.

Snowball Pilicatum (Japan Snowball) Of even better habit than the old form. Flowers whiter and in clusters followed by red fruit. Each 75c; 3 for \$2.00.

Snowball High Bush Cranberry Still another form of Snowball. Grows 8 to 10 feet high, white flowers in May followed by scarlet berries which hang on until in winter. Each 60c; 3 for \$1.50.

Spirea Anthony Waterer Blooms from early Spring to late Fall and has crimson blooms. Each 50c; 3 for \$1.25.

Spirea Thunbergia This variety is spreading in growth, with slender arching branches, that bear a perfect mass of white flowers followed by yellowish green foliage. Each 50c; 3 for \$1.25.

Spirea Frobeli (See illustration on 2nd cover.) prices in Specialties

Spirea Van Houttei (Bridal Wreath) heavy plants Each 30c; dozen \$3.25; 2 to 3 ft. Each, 50c; dozen \$4.50.

Weigelia Eva Rataka (Blooms continuously throughout the summer and autumn. Each 75c.

ROSES (Climbers)

(Concluded from Page 51.)

Dr. Van Fleet Dainty soft flesh-pink. Flowers full and double buds pointed and open to a great diameter. A new variety and one of the best. Each 40c; 3 for \$1.10.

Gardenia A beautiful yellow climbing rose. Buds bright yellow, opening double flowers of cream color. Each 50c; 3 for \$1.40.

Paul's Scarlet Climber The flowers, a vivid scarlet, are of good size, semi-double, very freely produced in clusters of from 3 to 20 flowers each on a much branched cane, the plants being literally covered from top to bottom with bloom. Each 50c; 3 for \$1.40.

Yellow Rambler —Orange-yellow shaded yellow and rose in clusters. 40c Each; 3 for \$1.10.

TAKE NOTICE The Rose Bushes we priced are 2-year field grown. They must not be compared with Greenhouse bushes catalogued by some others at lower prices. If you want green house grown roses We have them and will send them at two-thirds above prices. They give fine satisfaction.

I have been using some of your seeds for several years, and I have found them to be first class in every respect. Especially the China Cucumber, which is the best in the world. I have recommended them to hundreds of truckers. M. S. Fleming Harrison, Tenn.

Roses

While our list of roses is not large it is made up of those kinds that are the most certain to succeed, will give the most satisfaction and will be the most highly prized by the average grower. You can make your selection from the following list and be assured that you will get only the truly meritorious varieties. We send out two-year field grown bushes guaranteed to arrive in good condition and that will go right to growing, and soon give you an abundance of blooms. When planting be sure to firm the ground around the roots.

Orders for 3 or more need not be all of one variety but may be of different varieties and the price for 3 will apply. We deliver at the prices quoted.

QUINCES

PRICE—Each \$1.00; 3 for \$2.75; dozen \$9.00.

Champion—Greenish yellow.

Meeche's Prolific—Bright yellow.

APRICOTS

PRICE—Each 85c; 3 for \$2.25; dozen \$8.00.

Superb—Early.

FRUIT PLANTS

If Fruit Plants are to go by mail add 15 cents per dozen; 50 cents per 100 for postage and packing.

RASPBERRY

PRICE—of all Raspberries—Each 10c; 3 for 25c; 12 for \$1.00; 100 for \$4.50.

Columbia—Red.

Cuthbert—Red.

Plum Farmer—Black, large berries, one of the best early sorts for home and market.

Gregg—Black, well known market sort, large and very productive.

St. Regis—Crimson.

BLACKBERRY

PRICE of all Blackberries—Each 10c; 3 for 25c; 12 for \$1.00; 100 for \$5.50.

Blower—Jet black, large size, best quality. Home or market.

Eldorado—Very large, fine.

Snyder—The hardiest.

CURRENTS

PRICE—Each 25c; 3 for \$1.00; 12 for \$3.00.

Fay's Prolific—Red, very large.

Wilder—Red, an unsurpassed variety for all purposes.

White Grape—White, large, excellent quality.

We can sell Currants only in Indiana.

Particular Notice If you live in Georgia, Oklahoma or West Virginia, don't send us any orders for any kind of Nursery Stock as your State Laws make it impracticable to deliver it to you. This does not refer to Perennials and Bulbs, which we can send.

You Can Own a Grape Arbor Like This

There is scarcely a country or city yard or garden so small that space cannot be found to plant from 1 to 12 or more grape vines. When once planted they will last a lifetime with very little care and bear freely of the healthiest, most delicious, most profitable and most satisfactory fruit.

BLACK GRAPES

Concord—Black, large, very yielding. Most popular of all grapes.

Moore's Early—Black early. Like the Concord, as large and good but earlier.

Worden—Resembles Concord, but larger. Ripens earlier.

Ives—Black, Best for red wine.

RED GRAPES

Catawba—Red, late; a great wine grape.

Delaware—Red, exquisite little grapes, highest quality. Best for white wine.

Lutie—(New) Catawba is the latest red grape, and this is the earliest. If you have room to plant both

you can at once see the advantage. Lutie is new. Large bunch and berry; flesh tender, juicy, sweet, sprightly flavor. Very hardy vine, very productive. One of the best for jelly and juice. Each 40c; 3 for \$1.00; doz. \$3.50.

WHITE GRAPES

Niagara—White. The standard white grape, as large as Concord.

Winchell—Comparatively new. One of the earliest of all, hardy, productive. Ea. 40c; 3 1.00, doz. \$3.50.

PRICE—2 year old vine, each 30c; 4 for \$1.00; 12 for \$2.50, unless priced otherwise. Delivered.

Blaze of Beauties Cannas

A bed of Cannas is a veritable bit of tropic foliage and bloom transferred to the temperate zone. Stalks stiff. Foliage beautiful, with flaming flowers. They bloom early and increasingly until frost, each week adding to their beauty. The following list comprises the cream of the varieties. If you are at all acquainted with varieties you will agree with us when you look at the names.

PRICE OF ALL CANNAS Unless priced different: One, 12c, dozen, \$1.25; 25 for \$2.25; 100, \$5.00; per 1,000, \$40.00. Delivered.

Charles Henderson 4 foot. Flowers brilliant crimson-scarlet with yellow throat. Green leaves.

City of Portland 3½ ft. Flowers very large, pink, born in heavy trusses. Will please all. Each 20c; doz. \$2.00; 25 for \$3.50; 100, \$10.00.

Eureka 4 ft. A white canna, and is the best white for general purposes. The large flowers are freely produced. Plant strong. Green leaves.

Fiery Cross 4 ft. Flowers vivid scarlet shading to crimson. Foliage is lustrous blue green. A grand canna.

Florence Vaughan 4 ft. Flowers large, golden-yellow, dotted crimson. Green foliage.

Grandiflora 3 ft. Crimson flowers, changing to carmine—rose edged with gold. Variegated foliage.

Indiana 6 ft. Rich golden orange flowers sometimes 7 inches across. An orchid flowered variety. Green leaves.

Karle Merkle 4 ft. Flowers pure yellow with a tinge of orange and flecked with pink to red in throat. Fine flowers on large truss. Green foliage.

King Humbert 4 ft. The plants are crowned with an immense flower head, velvety orange-scarlet, rose tinted and margined at the base. The bronze leaves are large, heart-shaped. A combination of leaves and flowers, very beautiful.

Madam Crozy 3½ ft. Brilliant vermilion flowers, with narrow edge of bright golden yellow. Green leaves.

Marvel 2½ ft. A splendid dwarf. Flowers light velvety red with edging of orange held well above the green foliage.

The President 4 ft. Flowers rich, glowing scarlet. The great flower heads are produced well above the heavy green foliage. This canna is probably the very best red variety.

Wyoming 5 ft. Magnificent orange-colored flowers. A true orchid-flowered variety. Leaves purple.

Mrs. Alfred Conrad 4 ft. Salmon pink, green leaves. Magnificent head of perfectly formed flowers of great size. A grand canna. Satisfaction guaranteed. Each 20c; dozen, \$2.00; 25, \$3.50; 100, \$10.00.

Olympic a rich oriental red. 5 ft. The flowers are shaded lighter toward the center. The flowers and trusses are very large. Blooms freely.

Susquehanna 3 ft. Early bloomer. Flowers old-rose-pink color, borne on strong bronzy stems. Foliage green. Valuable kind. Each 20c; doz. \$2.00; 25 for \$3.50; 100 for \$10.00.

Caladium (Elephant's Ear)

This is one of the most effective plants for the lawn or flower garden and may be used singly or in groups, rows or beds. To obtain the best results they should be planted on rich ground where they will have an abundance of water. Under such conditions they will grow 3 to 4 feet long by one-half the width. They must be removed to the cellar in the Fall and replanted the next Spring. Each year they will get larger.

PRICE—Medium sized bulbs, postpaid; Each 20c; 3 for 50c; dozen, \$1.75. Large size; Each 25c; 3 for 60c; dozen \$2.00. Extra large: Each 35c; 3 for \$1.00; dozen \$5.00. Delivered.

Double Pearl Tuberose Nearly everyone knows and prizes this beautiful fragrant flower, that is so easily raised from the bulb, planted in the Spring. By planting some of these bulbs in the house and setting them out about May 1st, and then setting bulbs in open ground at intervals from May 1st. to June 25th, a succession of the prized blooms can be had all Summer. **Price**—Each 10c; dozen 75c; 100 for \$4.50; 50 at the 100 rate. Postpaid.

Uncle Sam 6 ft. A magnificent Canna. Flowers deep orange, borne in large clusters. Foliage handsome, magnificent green. Very tropical looking.

Venus 4 ft. A gay rosy pink with a border of creamy yellow. Green leaves.

Yellow King Humbert 4 ft. Golden-yellow flowers, blotched red. A grand Canna. Green leaves. One, 12c; doz. \$1.25; 25 for \$2.25; 100 for \$5.00; per 1000, \$40.00, unless priced different. for \$7.50 delivered.

Mixed Cannas Good varieties in mixture. This mixture consists of bulbs grown by various people and we cannot tell the customer anything of their merits. They are sold at lower prices, but this cannot make up for the loss of attractiveness where grown in future years. For real satisfaction buy our named varieties. Each 10c; doz. 75c; 25 \$1.25; Per 100 \$4.00.

"I was very well pleased with the seeds and plants that I purchased from you. I purchased as follows: Ky. Wonder beans, Lima beans, Japanese Hulless pop corn and Butterfly bushes." — A. G. Means, Alton, Ind.

Double Pearl Tuberose

The Flower Beautiful

Gladiolus

Any person who does not plant liberally of Gladiolus misses many a Summer treat from a few dimes invested. I think the Gladiolus is the peer of all Summer flowers and there is absolutely no danger of failure. Plant liberally, even by the hundred or one-half thousand and plant at intervals from early spring till June 15th for a constant succession of blooms. Being of the simplest possible culture, and the bulbs inexpensive, the Gladiolus deserves a place in every garden, small and large.

CHOICE NAMED GLADIOLI

The prices below include delivery charges.

ALICE TIPLADY—New. A grand Primulinus variety with beautiful orange-saffron flowers. Ea. 12c; doz. \$1.00; 25 \$2.00; 100 \$7.50.

AMERICA—Beautiful, soft flesh pink. Magnificent in its size. One of the best. Each 5c; dozen 50c; 25 for 75c; 100 for \$2.75.

AUGUSTA—Blush white with lavender anthers. The strong plants often have two flower spikes. Each 7c; Doz. 75c; 25 for \$1.25; 100 for \$4.50.

ANNA EBERIUS—Rhodamine purple. Entirely self-color except for deep amaranthus purple blotch on lower petals. Brilliantly beautiful. 15c; doz. \$1.25; 25 for \$2.50; 100, \$7.00.

BARON J. HULOT—Dark Pansy violet, shading to purplish white throat, carmine stripe in center of lower petals, ending in a short slender yellow stripe. 12c; doz. \$1.00; 25 \$2.00; 100 \$7.00.

EMPRESS OF INDIA—Deep burnt lake, shading to a Bordeaux. Lower petals are Bordeaux red and have a white stripe in center and a white and carmine throat. 12c; doz. \$1.00; 100, \$7.00.

EVELYN KIRTLAND—Geranium pink, shading to a pale pink. Lower petals blotched brilliant scarlet. Spike strong and straight. 10c; doz. \$1.00; 25, \$1.75; 100, \$6.50.

EVERITT'S CHOICE MIXTURE

—To the person who does not care to keep track of the names, but grows gladioli for the beauty of the flowers, we recommend our choice mixture, at reduced prices. There is a great variety of colors, also there are early, medium and late. So you will be treated to new surprises over a long period. Plant at intervals for a succession, up to July 1. Dozen 50c; 25 for 85c; 100 for \$5.00 delivered. Not delivered, \$2.50 per 100.

HERADA—Magenta shading to pink in throat. Lower petals blotched bright rose. Strong spike. An unusual color. 10c; doz. \$1.00, 25, \$1.75; 100, \$6.50.

LOVELINESS—Cream pink. Many flowers open at the same time, very large, broad and showy spike. 12c; dozen, \$1.00; 25, \$2.00; 100, \$7.50.

LOUISE—A very popular lavender variety. Dark rose purple with a light purple blotch on lower petals. Throat shaded darker. 12c; doz. \$1.00; 25, \$2.00; 100, \$7.00.

MRS. FRANCIS KING—By some considered the

best of all. Flowers often 5 inches across. Jasper red, lower petals deeper red. Each 5c; dozen 50c; 25 for \$1.00; 100 for \$3.50.

MRS. FRANK PENDLETON—Flushed salmon-pink, with maroon blotch on lower petals. Probably the most popular with florists, which should recommend it also to others. Each 7c; dozen 75c; 25 for \$1.25; 100 for \$4.50.

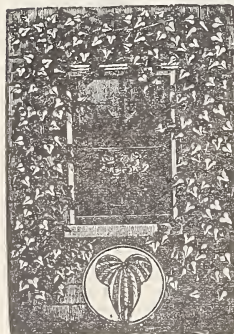

MRS. DR. NORTON—La France Pink shading to a very pale pink throat. Lower petals have creamy bases with carmine penciling. Large flowers of fine substance and arrangement. Strong straight spikes. One of the most beautiful Glads. 12c; doz. \$1.00; 25, \$2.00; 100, \$7.50.

PRINCE OF WALES—Large flowers of most charming coral pink. It is a sport of Halley but of stronger growth. Each 10c; dozen \$1.00; 25 for \$1.75; 100, \$6.50.

I write to you to say that I have the finest China Cucumbers that I ever saw grow. The Greater Baltimore tomato is a fine tomato. The Farmers Interest, and Mortgage Lifter were fine but the drought cut them short and I hope I have better luck next season, which I know I will with your seeds. —Mrs. W. A. Koontz, Steubenville, Ky.

THE FRAGRANT

Cinnamon Vine

The Cinnamon Vine is one of the most popular vines in cultivation. No other vine more completely fills the want of a rapidly growing, beautiful, fragrant vine than the Cinnamon. It succeeds well anywhere. This climber has dark green foliage, and late in the season bears a profusion of small white flowers of a delicious cinnamon fragrance. Although the vines die down to the ground each autumn, they grow up very rapidly in the early spring, soon covering any trellis or arbor. Where you wish covering to a porch or to hide unsightly places we suggest planting the Cinnamon Vine. Plant any time in spring. Strong Tubers, each 10c; 6 for 50c; 15 for \$1.00. Large Tubers, 15c each; 4 for 50c; 10 for \$1.00. Mammoth size tubers 20c each, postpaid.

Tuberous Rooted Begonias

This is a wonderful bedding plant admired by all, but which, in recent years, has been difficult to obtain. They are finely adapted to grow in shady or much shaded places where few other plants will succeed. If planted in a sunny place, be sure to keep the ground moist. Rich Colors. Mixed: 30c each; 4 for \$1.00; per doz. \$2.00 Delivered.

I have found the Wayhead lettuce to be a fine early lettuce, splendid flavor, and fine quality and a very quick grower. The China Cucumber was fine for the table and market. I raised some 20 inches long. The Knight or Maryland Muskmelon was a good bearer and of very sweet flavor. I was very much pleased with the O. K. Seeds. —Marion Richmond, Meadow Creek, W. Va.

Please send me a seed catalogue. I have tried elsewhere for five years to get watermelon seed and have never got any pure seed since I ordered from you. —J. W. Wilson, Pyron, Okla.

I bought 6 weeks market potatoes and they did fine and I got fine results also with my sweet corn. My neighbors thought it was wonderful. Ray Mills, Sand Run, W. Va.

I planted numerous of the O. K. Flower seeds last season. They grew very good, but particularly the Cut Flower seeds produced more flowers than I have ever seen from that amount of seed before. —Ralph Allwine, Shelby, Ohio.

DAHLIAS

The Most Wonderful Flower Creations

GET THE NEWEST
AND BEST FROM US
AT LITTLE COST

White House Grounds. Flowers pale golden yellow, blending to sulphur yellow at the tips of petals. Blossoms are "gigantic" and in great profusion all season. Regular price \$5.00 each. Our price 75c; 3 for \$1.75.

Decorative Dahlias

This class is the pride of all growers. The plants are strong, sturdy, vigorous. They bloom in great profusion and the colors and forms are beautiful and varied. Our varieties have long, straight stems.

DARLENE—The finest pink and white Decorative Dahlia to date. Earliest to bloom. Regular price \$1.00. Our price, 50c; 3 for \$1.00.

WAR—A flaming, deep-red flower on the sturdiest stalk. Very impressive. Regular price \$1.50. Our price 50c; 3 for \$1.00.

Cactus Dahlias

These have long, narrow in-curved and sometimes twisted petals which give them a very inter-

Iris

These have appropriately been called the "Orchids of the Hardy Flower Garden." They are of the simplest culture, succeeding in almost any soil or position. The bulbs should be planted 4 to 6 inches apart in the autumn when they will bloom some in the spring or plant in the spring when they will become well established and bloom abundantly the following spring.

We do not offer the Japanese Iris for shipping on account of its very perishable nature.

Dahlias

An entirely new list from last season. New Colors—New Forms—The Aristocrat List at unexpected prices. Dahlias are well-known Summer and Autumn flowering plants. Good varieties like we list produce flowers abundantly. Also, from our list, you can get every imaginable shape. Our varieties are modern and possess unusual merit. **WE DELIVER AT PRICES.**

Peony Flowered

These are large, fluffy and show that beautiful golden centre so characteristic of the type. They are semi-double with long, wavy, and curling petals.

BERTHA BAILEY—Scarlet and gold. Flowers very large on long stems. A new seedling listed regularly at \$2.00. Our price 50c; 3 for \$1.00.

FERNA—Beautiful large, rose pink flower born in greatest abundance. Listed regularly at \$1.00. Our price 50c; 3 for \$1.00.

MRS. M. W. CROWLEY—New orange yellow. A very large flower of striking beauty. Regular price \$2.50. Our price 50c; 3 for \$1.00.

PRESIDENT HARDING—This is strictly a new peony-flowered dahlia and it is bound to be a great favorite. It is grown on the

est and graceful appearance. No collection can be considered acceptable without some of this class. **ADVANCE**—A new giant, scarlet, red variety. Regular price \$1.00. Our price 50c; 3 for \$1.00.

LIBELLE—Rosy purple flower. Regular price 50c. Our price 35c; 4 for \$1.00.

MRS. STERN—Orchid-pink; fringed petals. Very beautiful. Regular price, 60c. Our price 35c; 4 for \$1.00.

PIERROT—A unique and striking novelty. Chrysanthemum-like flowers. Color amber, occasionally tipped white. Giant flowers. Regular price, \$1.00. Our price 50c; 3 for \$1.00.

Ball-Shaped, or Show Dahlias

The old-fashioned double Dahlia. The improved varieties are very popular on account of their long stiff stems and lasting qualities as cut flowers. Also these kinds are very beautiful.

A. D. LIVONI—Clear, bright-pink. 35c; 4 for \$1.00.

BRIDE—Rose, lilac, Each 35c; 4 for \$1.00.

MONTAGUE WOOTAN—A deep crimson. Miniature flower. Each 35c; 4 for \$1.00.

STORM KING—Pure White. Very dependable kind. Each 35c; 4 for \$1.00.

Orders for 3 or more named kinds may be made up of one or more of different kinds at the rate of 3. We Deliver At Prices.

Rainbow Mixture

Comprises all types, forms and colors, and is made up of varieties of genuine merit. If you will be too busy to keep the record of the named kinds, then this mixture will give you fine satisfaction. Each 20c; 6 for \$1.00; Doz. \$1.50.

German Iris

These are among the earliest grown and most beautiful of our early Spring flowers. They bloom in May and early to late kinds cover several weeks.

PRICE of all German Iris—Each, 15c; 3 for 40c; dozen, \$1.50; 25 for \$2.50; 50 for \$4.50; per 100, \$7.00. 12 may be made up of more than one kind.

CAPRICE—Rosy red, falls of a deeper red.

CELESTE—Beautiful sky blue; one of the best blues

HELGA—Lemon yellow with pearl shading. Huge flowers.

BROOKSINIA—Rose lilac; charming flowers.

INGERBORG—The only pure white variety, beautiful.

MIDNIGHT—Deep purple; the finest of the purples.

MRS. ALAN GRAY—Lavender pink; early.

HER MAJESTY—Rose-pink.

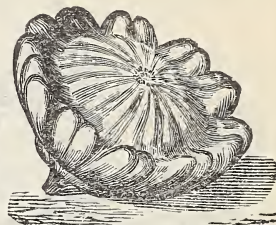

FAIRY—White bordered, soft blue; grows tall, 40 in.

PERFECTION—Light blue and dark velvety-violet black. Very handsome.

Everitt's (CK) Squash¹ Seed

Culture

Keep in mind that all vine crops delight in warm, rich soil. Plant squash in hills the same as melons and cucumbers. The bush kinds 4 feet apart, the others 10 to 12 feet, 8 to 12 seeds to the hill and later thin to 2 to 4 to the hill. Some kinds can be grown with corn. A pkt. will plant about 10 hills; one oz. to 50 hills; three to four lbs. per acre.

Type of Bush Scalloped

BLUE HUBBARD—See Specialties. **ESSEX HYBRID**—See Specialties.

Mammoth White Bush Scalloped

A SUMMER VARIETY. This is about twice the size of the old variety and not much later. Quality fine. Pkt. 5c; oz. 10c; ¼ lb. 35c; lb. \$1.25.

Golden Summer Crookneck Bush

Much larger than the old Crookneck, but just as early. Has all its good qualities and far more productive. The flesh is thick and yellow. Most popular of all summer kinds. Often grows 2 feet long. Pkt. 5c; oz. 10c; ¼ lb. 35c; lb. \$1.25.

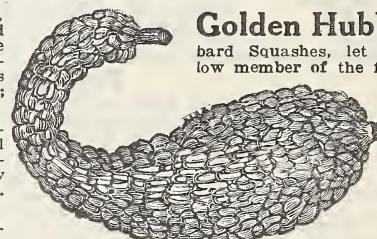

Boston Marrow This is a standard Fall variety and is without a peer for canning and pies. A rich orange color. Very productive. Pkt. 5c; oz. 10c; ¼ lb. 35c; 1 lb. \$1.25.

Delicious A very early maturing variety that is also one of the best Winter sorts. The shell is very thin. Moderately hard. Unapproached for fine grain, dryness, sweetness, and richness of flavor 5 to 10 lb. It is in its prime from mid-fall to mid-winter. Plant some Delicious for some treats. Pkt. 5c; oz. 15c; ¼ lb. 40c; lb. \$1.50.

Fordhook Small, oblong excellent for Summer and Winter. Fruits grow 8 to 10 inches long, slightly ridged; skin smooth, thin, yellow. Flesh straw color, very thick, exceptionally dry and sweet. The skin is so thin it need not be peeled for cooking. Deserves a place in every garden. Pkt. 5c; oz. 15c; ¼ lb. 40c; lb. \$1.50.

Warted Hubbard

This is a new and enlarged edition of the Hubbard and is coming to be a great favorite.

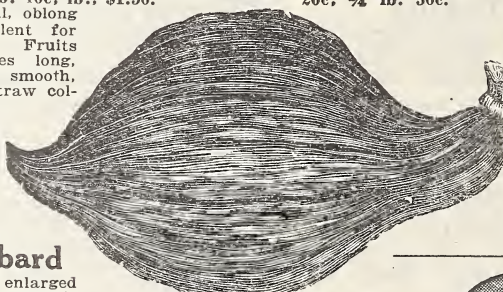

Golden Summer Crookneck

Golden Hubbard Now, while we are dealing with Hubbard Squashes, let us present also the yellow member of the family. This Golden Hubbard is the same as the original, with the exception of color, which is rich orange red, instead of dark bronze green. The flesh is a little deeper orange and equally fine-grained and sweet. All of the Hubbards are long keepers.

Pkt. 5c; oz. 10c; ¼ lb. 35c; lb. \$1.25.

Mammoth Chili The Jumbo of the squash family. Sure to get the prize for the largest squash at the fair. Sometimes grow to weigh 200 lbs. Pkt. 7c; oz., 20c; ¼ lb. 50c.

Type of Hubbard

Imp. Hubbard

The genuine Hubbard has more than held its own against all comers as a winter squash. Vines grow strong and set fruit quite numerously. Frequently specimens weigh 25 to 30 lbs. Shape oblong; color bronze green. Pkt. 5c oz 10c; ¼ lb. 35c; lb. \$1.25.

Canners Supreme Pumpkin

This variety originated by a canner who operates on a large scale. Years ago he felt the need of a better pie and canning variety so he crossed the large Connecticut Field Pumpkin and a little pie pumpkin. He then made selections until he produced this variety of which he says:

"We have developed a large pumpkin, which is the best for canning purposes. For large size, thick meat and heavy weight they are not equaled by any other. More tons can be grown per acre of this variety, whether by themselves or with crop, than of any other."

Mr. S. J. Galbreath of Valley O., wrote us: "I must say that I never before grew so many pumpkins, on so little ground, with so few seeds as from your O. K. seeds. They are the finest and best for pies that I ever saw."

Price, Pkt. 5c; oz. 10c; ¼ lb. 30c; lb. \$1.00; 5 lbs. or more @ 80c per lb.

NOTICE—This should be page 37, but an unfortunate transposition by the printer threw it out of position in a few Catalogues. Perhaps it will bring more orders because of this.

Everitt's Farm Seeds

It is not possible to quote prices on farm seeds that will be good during the season therefore, when you are ready to buy tell us what you want, and get our offers. The prices quoted below were current when the copy for this catalogue was prepared. The O. K. Brands are the highest type.

We ask our customers to inoculate their seeds of legumes, which will mean bigger crops and better satisfaction. Bags cost extra—45c for cotton. Prices per lb. and 4 lbs. include delivery.

CLOVER SEED

We want the orders of large buyers of CLOVER SEED. Let us know your wants, get our prices and we will try to save you money. The Clovers have justly been called the "Corner stone of Agriculture" in the Northern, Eastern and Central States.

SOY BEANS

The cultivation of this crop is increasing rapidly. Wherever it has been introduced, it is proving to be one of the most valuable grain and forage for stock. Also, a crop of Soy Beans equals a crop of clover for enriching the soil. Soy Beans as a feed take the place of oil or gluten. Fed to milk cows and for fattening hogs, they give wonderful results.

COW PEAS

THE GREAT SOIL IMPROVER. Cow Peas, like Clover, Vetch, Soy Beans, etc., have the property of taking nitrogen from the air and storing it in the soil. Whether the whole vine and root are used for fertilizer, or the vine is used for feed, any land that produced a crop of Cow Peas has improved in its contents of fertility.

INOCULATE

It will pay to inoculate all clover, vetch, cow peas and soy beans. Directions for using on all packages.

All legume crops can be inoculated. Inoculation with new and virile bacteria is an advantage even on soil that is capable of producing the crop reasonably well. Therefore, we claim every time a legume crop is planted on the farm or in the garden, it will be a benefit to apply a good inoculant to the seed. The expense will be only a trifle and the directions show how it can be done with little trouble. The crops to inoculate are as follows:

CLASS A—Garden Crops. Peas, Beans, including Lima Beans, and Sweet Peas. Four-in-one. This means the same package does for all.

CLASS B—Field Crops. (Small Seeds) Alfalfa and Clovers.

CLASS C—Field Crops. (Large Seeds) Cow Peas and Soy Beans.

Always say what crop to be used on and we will send the right kind.

A brand with a great many friends. It is manufactured by a farmer in Ohio, who has brought a worn out farm to a high state of fertility through legumes and his robust bacteria inoculant. Garden size, Class A—20c. Class B—for 30 lbs. of seed 50c; 60 lbs. \$1.00. Class C—for 50 lbs seed 50c; 100 lbs. seed \$1.00, delivered.

One of the old and time tried bacteria cultures that can be relied upon. Garden size, Class A—20c; Class B—¼ Bu. 40c; ½ Bu. 60c; 1 Bu. \$1.00; 5 Bu. \$4.75. Class C—½ Bu. 40c; 1 Bu. 70c; 5 Bu. \$2.50.

The harvest of corn depends more upon the seed you plant than on all other things combined. Prepare now for the best crop that you can possibly raise by getting your seed from the Nation's breeding center. CENTRAL INDIANA CORN is the best grown in the country and suited to growers over a wide territory.

WE ARE HEADQUARTERS FOR THE BEST SEED CORN

FARMERS INTEREST WHITE DENT

Has been awarded more Gold and Silver Medals and Cash Prizes than any other Corn that ever existed. 28 years of continuous breeding.

This world-famous Farmer's Interest White Dent corn originated in Central Indiana and was named and introduced by us 27 years ago. This variety, more than all others, made this section famous as a corn growing and corn breeding district and for "Corn Kings." A strain of it is also known as Johnson County White Dent.

It is adapted to the latitude of Indianapolis,

about 50 miles North, in an average season, and all South.

We want to emphasize that this is the variety par excellence, for raising in the Southern States like Virginia, Tennessee, Missouri and all South. But get your seed from Indiana each 3 or 4 years to retain its great vigor.

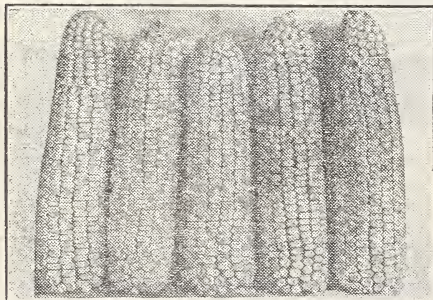

PRICE—By mail postpaid: Select ear 30c; 1 lb. 25c; 5 lbs. \$1.00. By freight or express, 1/4 bu. \$1.25; 1/2 bu. \$2.25; 1 bu. \$4.25; 5 bu. or more @ \$1.00. Bags included. Select ears not tipped or butted at same price whenever we can furnish them.

MORTGAGE LIFTER CORN

is the corn that will make such big yields as that you can pay off the mortgage if there is one. It is a strong grower and on rich soil makes yields 80 to over 100 bu. to the acre. Mortgage Lifter is taking a place among yellow corn that the Farmers interest occupies among whites—the most productive, hence the most profitable variety to grow.

We want to sell enough of this corn to each corn grower who receives this catalogue to plant at least one field, where our claims will be proved and favorable comparisons made with the varieties you are now growing.

PRICE—By parcel post, sample ear, 30c; 1 lb. 25c; 5 lbs., \$1.00. By freight or express, 1/4 bu. \$1.25; 1/2 bu., \$2.25; 1 bu., \$4.25; 5 bu., or more @ \$4.00.

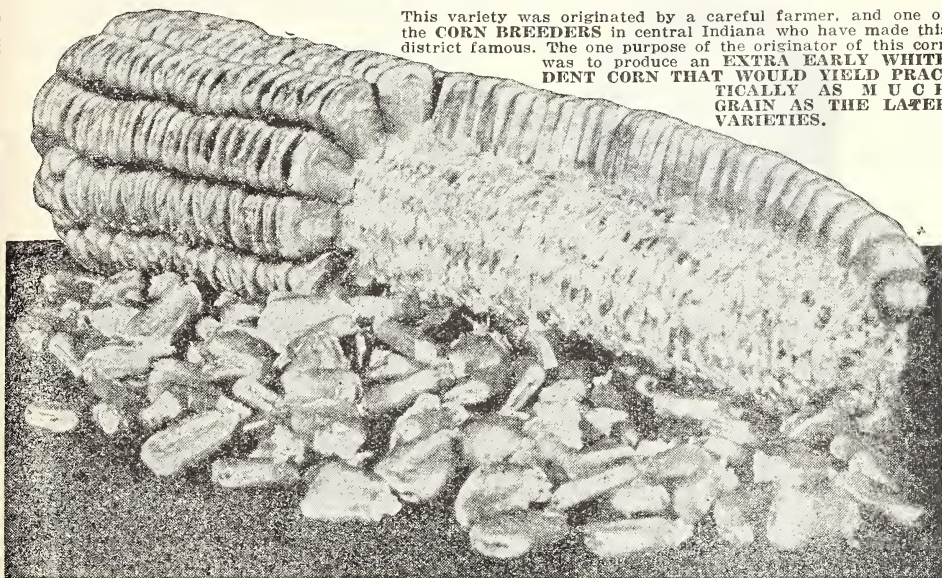

Mortgage Lifter Corn

Ten-to-One [10-2-1] White Dent

THE NAME MEANS 10 LBS. OF CORN TO 1 LB. OF COB—SEE ILLUSTRATION.

This variety was originated by a careful farmer, and one of the **CORN BREEDERS** in central Indiana who have made this district famous. The one purpose of the originator of this corn was to produce an **EXTRA EARLY WHITE DENT CORN THAT WOULD YIELD PRACTICALLY AS MUCH GRAIN AS THE LATER VARIETIES.**

There is a place on nearly every farm for this valuable corn. Some farmers now plant no other kind. While it is early maturing, it is not exactly a small-eared variety. Ears frequently grow 10 inches long and weigh 12 to 14 ounces. The illustration above, from a photograph, but reduced in size, shows very well the appearance of an ear, the shelled corn and the cob. Ten-to-One is a 90-Day Corn.

PRICE—By mail postpaid; Sample ear, 30c; 1 lb. 25c; 5 lbs. \$1.00. By freight or express ¼ bu., \$1.25; ½ bu. \$2.25; 1 bu. \$4.25; 5 bu. or more @ \$4.00. Bags and package free.

Improved Reid's Yellow Dent

This fine yellow corn has been winning nearly all the high awards for yellow corn at shows and expositions for years, and such awards quite uniformly have been to breeders and farmers of this—Central—part of Indiana. Our Reid's Dent occupies as high a place among yellow corns as our Farmers Interest does among white varieties.

PRICE—By mail postpaid; Select ear 30c; 1 lb. 25c; 5 lbs. \$1.00. By freight or express; ¼ bu., \$1.25; ½ bu. \$2.25; 1 bu. \$4.25; 5 bu. or more @ \$4.00.

Boone County White

This valuable white corn is a strong grower, and a drought resister. It grows large ears with deep grains, on a medium to white cob. On good ground, which this variety delights in, the ears grow 7 to 11 inches long and 7 to 8 inches in circumference holding their size well to the tip.

PRICE—By mail postpaid; Select ear 30c; 1 lb. 25c; 5 lbs. \$1.00. By freight or express; ¼ bu., \$1.25; ½ bu. \$2.25; 1 bu. \$4.25; 5 bu. or more @ \$4.00.

Improved Leaming

EARLY YELLOW DENT. Produces very well on thin soils where it would not pay to plant other kinds. The stalk is medium size and grain always sound. In season it is a 100 day corn and is largely planted in Southern Michigan and Wisconsin and Southern Canada. It is highly recommended for late planting farther South. Also extensively grown for fodder and ensilage, particularly in the North. This variety can be planted earlier than others as the grains will endure more cold and wet weather. We have an exceptionally fine strain of this early corn.

PRICE—By mail postpaid, Sample ear 30c; 1 lb. 25c; 5 lbs. \$1.00. By freight or express; ¼ bu.,

\$1.25; ½ bu. \$2.25; 1 bu. \$4.25; 5 bu. @ \$4.00.

Long Measure

This is one of Indiana's premier varieties of white corn. A strong grower, leafy stalk. Ears unusually long with broad, deep grains. Matures in 100 days. We will have much more to say about this fine corn, with illustrations, in the circular referred to below.

PRICE—By mail postpaid; Sample ear, 30c; 1 lb. 25c; 5 lbs. \$1.00. By freight or express not paid, ¼ bu. \$1.25; ½ bu. \$2.25; 1 bu. \$4.25; 5 bu. @ \$4.00.

Pride of the North

EXTRA EARLY YELLOW DENT. This is frequently called "90 Day" Corn because of its rapid growth and early maturity. It is a variety that is suited right up to the Northern border of the corn belt and to very late planting in Southern latitudes.

Price—By mail postpaid; 1 lb. 25c; 5 lbs. \$1.00. By freight or express, ¼ bu. \$1.00; ½ bu. \$1.75; 1 bu. \$3.25; 5 bu. @ \$3.00.

St. Charles White

THE FAMOUS RED COB ENSILAGE CORN. This is a double standard or double purpose corn. While it is probably planted more extensively for ensilage than any other corn, its value as a grain-cropping corn should be kept in mind.

PRICE—By mail postpaid; 1 lb. 25c; 5 lbs. \$1.00. By freight or express; ¼ bu. 75c; ½ bu. \$1.25; 1 bu. \$2.25; 5 bu. @ \$2.00.

Bag included in prices of seed corn.

N. B.—We will issue a Special Seed Corn Circular about February 15th. It will list some varieties not mentioned here. This circular and price list will be valuable to any person who intends to put out a crop of corn. We would like for you to send your name for a copy.

Baby Chicks

Tens of Thousands by Parcel Post—Guaranteed 100 Per Cent Alive—No Shipments sent C. O. D.—Not less Than 25 Sold.

TERRITORY — NORTH TO CANADA, EAST TO N. J., SOUTH TO ALA., WEST TO KAN.

In offering you these sturdy, quick growing, selected chicks at such reasonable prices, we have solved your greatest problem—that of getting good stock at the least cost and trouble. Just think how easy it is to have all the baby chicks you need brought to your door at one time by the mailman. No bother of setting hens—often at a great loss. No taking care of five or six different flocks of all different ages.

Chicks shipped by prepaid parcels post, 100 per cent live delivery guaranteed. Cash with order—Never sent C. O. D.

White Leghorns, Barron Big English; Buff Leghorns, Egg-Basket strain; Brown Leghorns, Light Brown strain; Anconas, Sheppard strain; 25 chicks, \$4.50; 50, \$8.00; 100, \$14.00; 500, \$65.00; 1,000, \$125.00.

Barred Plymouth Rocks, Bred to Lay strain; White Plymouth Rocks; Fishel strain; Buff Plymouth Rocks; Rhode Island Reds, single or Rose Comb, Owen-Thomkins strain; 25 for \$5.00; 50, \$9.00; 100, \$16.00; 500 \$75.00; 1000, \$145.00.

White Wyandottes, Martin-Keeler strain, Buff Orpingtons, Byers-Mayslake strain, Black Minorcas, Pape strain; 25 for \$5.25; 50 \$10.00; 100, \$17.00; 500, \$80.00; 1,000, \$155.00.

Deduct 2c a chick for orders sent after June 1st.

You can rely on our chicks. We never buy surplus, or job lots, because they are cheap. Our chicks are hatched in the best incubators and for our trade.

Chicks shipped by prepaid parcels post, 100 per cent live delivery guaranteed. Cash with order—Never sent C. O. D.

Eggs for Hatching

These eggs are produced by the same high grade flocks from which we hatch our famous Quick Growing Baby Chicks. They are fed right and kept on free range insuring strong fertility, yet we do not guarantee any certain number to hatch, of shipped eggs. Eggs packed securely in baskets and sent by express or parcels post transportation charges collect.

To the folks who prefer to hatch their own chicks and for those who have their own incubators we quote the following prices:

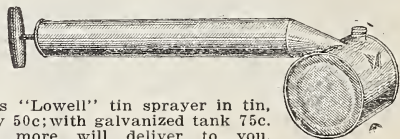

Any of the above breeds	30	50	100	500
	\$2.25	\$3.50	\$7.00	\$34.00

SPRAY AND DUST DUST SPRAY

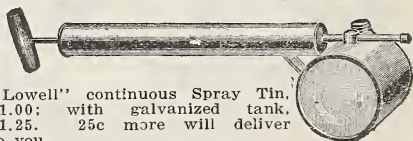

IN THE POULTRY HOUSE ON THE CROPS

Mr. Planter There are many crops which if you don't make up your mind to spray or dust, you might just about as well not plant. You know it. So we just say it here as a sort of reminder and suggestion for you to purchase some of our good sprayers and dusters.

SPRAYERS

This "Lowell" tin sprayer in tin, only 50c; with galvanized tank 75c. 25c more will deliver to you.

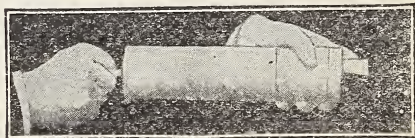

"Lowell" continuous Spray Tin, \$1.00; with galvanized tank, \$1.25. 25c more will deliver to you.

DUSTERS

This type and machines for dusting vines, plants, trees, etc., to kill insects is coming in vogue very rapidly. On some kinds of crops, for instance, melon and cucumber vines, and for insects that infest them, this is the only successful method.

THE "FEENY" DUSTERS

Models B and C

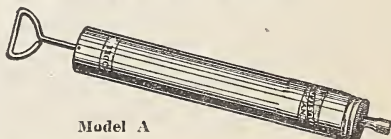

MODEL "B" is the right size for a moderate size garden. Price \$1.00; 25c for delivery.

MODEL "C" is the proper one for insect powders, house plants, roaches, etc. Price 75c; 25c for delivery.

Model D

MODEL "D" for vine crops, beans, small trees, etc. Has extra powder chamber, long tube to put the dust where wanted. For truckers, tobacco growers, etc. Price \$1.50. 50c for delivery.

Model A

MODEL "A" Same as "D" without the extra powder chamber. Price \$3.50, 50c extra for delivery.

Department of Insecticides and Fungicides

We solicit the orders of large users of INSECTICIDES and FUNGICIDES. Let us know your needs, get our prices and we'll try to save you money.

The cost of spraying material and the time to apply it represents the smallest part of the whole expense of growing a crop. Labor, seeds, fertilizer and everything that enters into the production of fruits, vegetables and potatoes are high; therefore, after the heavy investments are made, no wise person will abandon his crops to the numerous insects and fungi and blight to destroy. But he

will send his order for what he needs of the following insecticides and fungicides and exterminate them off the earth. The preparations and the spraying machine we offer are unexcelled.

All powders and dust should be applied when the foliage is wet.

Poisons are not admissible to the mails, so they must be sent by freight or express.

PARIS GREEN

For Leaf Eating Insects

Paris Green is the old standard and reliable poison that has been used for years by potato, tobacco, cotton and fruit growers and others. PRICE— $\frac{1}{4}$ lb. 20c; $\frac{1}{2}$ lb. 30c; 1 lb. 50c; 14, 28, or 56 lbs. @ 45c a lb.

ARSENATE OF LEAD (Powder)

For Leaf Eating Insects

This is one of the most efficient forms of lead in powder form that has ever been offered for the control of plant, vine and tree insects. This lead has high poison value and is absolutely safe for use in the orchard or on vegetables, flowers, etc. as far as injury to that plant is concerned. It can be applied in the form of a spray or mixed with lime or plaster or other bases or can even be applied in its original form without fear of injury. The fact that it never "burns" the foliage and has extraordinary adhesive qualities accounts for it being preferred by many to Paris Green. It adheres a long time to the foliage. PRICE—1 lb. 35c; 4 lbs., \$1.25; 12, 25 or 40 lbs. @ 25c.

BORDO MIXTURE (Powder)

For Blight and is a Plant Stimulant

The use of this preparation will stimulate plant life and prevent blight or rust on any kind of plants during the growing season and the rot of potatoes in the field or after storing. It is also valuable in repelling the little flea-beetles which give leaves the appearance of being shot full of holes with fine bird shot. Merely by the addition of water it is made ready. It is coming to be in demand all over the country. If you need one pound or 1,000 pounds of concentrated Bordo Mixture, let us supply it. PRICE—1 lb. 35c; 4 lbs. \$1.25; 12, 24 or 48 lbs. @ 30c.

LIME-SULPHUR (Powder)

For Scale Insects and Fungicide

One lb. to 12 to 15 gal. hot or cold water as a Winter Spray, 30 to 50 gallons as a Summer Spray. PRICE—1 lb. 35c; 5 lbs. \$1.30; 25 lbs. \$4.50; 100 lbs. or more @ 15c.

PYROX (Liquid)

Kills Leaf Eating Insects, Prevents Blight, Keeps Plants Healthy

This is an insecticide, also a fungicide. Pyrox kills all leaf-chewing insects and at the same time protects the crops against fungus diseases, such as potato blights, apple scabs, etc. By preventing and curing fungus diseases, it keeps the foliage of the plants healthy and green throughout the growing season. Some growers lose more from plant diseases than they do from the destruction wrought by bugs and worms. Wetting seed corn with Pyrox before planting will prevent crows and blackbirds from pulling it up and will prevent moles and field mice from eating it. Full directions for use with each package. PRICE—1 lb. 45c; 5 lbs. \$1.75; 10, 25 or 50 lbs. @ 23c; 100 lbs. @ 18c.

BLACK LEAF 40. (Nicotine-Sulphate)

For Sucking Insects

This is the most generally used remedy for all sucking insects, such as Aphids, on apples, pears, peaches, currants, strawberries, melons, cucumbers, peas, beans, peppers, potatoes, cabbage, egg plant, cauliflower, Brussels sprouts, tomatoes, flowers and shrubs. To kill these insects their body must be wetted by the spray made from Black Leaf 40. It is also widely used for dipping sheep, cattle, hogs, etc. to rid them of vermin. 1 oz. makes 6 gallons of spray. 35c; 8 oz. makes 50 gallons of spray, \$1.25; 2 lbs. \$3.50; 10 lbs. \$13.50.

SLUG SHOT (Powder)

For Leaf Eating Insects

This is the old standard preparation for the eradication of insects injurious to house and garden plants, trees, vines, potatoes, melons, cabbage, currants, fruits and vegetables generally. It is a combin-

ation of the most potent insecticides and soluble plant foods. The preparation does not injure the foliage. PRICE—5 lbs. 60c; 10 lbs. \$1.25; 25 lbs. \$2.00.

LIME

O. K. lime for gardens, whitewashing, etc. 10 lbs. 25c; 25 lbs. 50c; 50 lbs. 75c; 100 lbs. \$1.25.

GYPSON OR LAND PLASTER

20 parts of gypsum with 1 part Calcium Arsenate, applied with a Fleury Duster. Protects vines from striped beetles. 10 lbs. 20c; 25 lbs. 45c; 50 lbs. 75c; 100 lbs. \$1.25; Ton \$20.00.

TOBACCO DUST (Dust)

For Leaf-Eating Insects

This dust destroys some kinds of leaf-eating insects. It is particularly valuable against rose slug, lice, cut worms, vine bugs; tomato worms, currant worms and cabbage worms. Tobacco dust will not burn or injure the plants. PRICE—Lb. 15c; 5 lbs., 40c; 10, 25 or 50 lbs. @ 6c.

HELLEBORE

For the destruction of slugs, worms, caterpillars, etc. Loses its strength when exposed to the air a few days, making it safe for use when vegetables or fruit are about ripe. $\frac{1}{2}$ lb. 35c; 1 lb. 65c.

SCALECIDE

For scale insects. Kills by contact. Spray in Spring before leaves or blossoms appear, also in Fall or Winter after leaves fall and when weather is not freezing. Qt. 60c; Gal. \$1.40; 5 Gal. \$6.25.

TREE TANGLEFOOT

A paste preparation for painting around the trunks of trees, in the form of a band. Caterpillars and other crawling pests cannot get over it. Lb. 50c; 5 lb. can \$2.25; 10 lb. can. \$4.25.

PARADICHLOROBENZENE

(Write it "Para" for short.) Kills peach tree borers. Don't use on trees younger than 6 years. One pound to 16 trees. Directions on packages. Lb. 55c; 5 lbs. \$2.25; 10 lbs. \$3.80.

DUPONT SEMESAN

Possesses the property of sterilizing seeds, roots etc., of parasitic diseases; also stimulates germination and growth of plants. Full directions. 2 oz. 60c. 4 oz. \$1.00; 8 oz. \$1.60; Lb. \$2.75; 5 lbs. \$13.00.

WHALE OR FISH OIL SOAP

For Sucking Insects

For mild forms of scale, and is an excellent summer spray, when something stronger cannot be used, where the San Jose Scale exists. Good for washing off ferns, plants, lemon trees, oleanders and almost anything that would be infected with a soft-shelled or in fact almost any kind of insect. Dissolve in water according to directions. $\frac{1}{2}$ lb. 15c; lb. 25c; 5 lbs. \$1.10. 10 lbs. \$2.00.

FERTILIZERS (Not Postpaid)

NITRATE OF SODA

If you want to see your garden and lawn at their very best, top dress with this fertilizer. It makes grass and crops hump themselves, or can be applied in liquid. 1 oz. to 1 gal. of water. 1 lb. 15c; 5 lbs. 50c; 10 lbs. 75c.

SHEEP MANURE

The most popular garden and lawn fertilizer. 10 lbs. 50c; 25 lbs. \$1.00; 50 lbs. \$1.75; 100 lbs. \$3.00; 500 lbs. \$12.00.

PHOSPHATE

A safe, effective fertilizer. Apply liberally. It is very lasting. 10 lbs. 30c; 25 lbs. 60c; 50 lbs. \$1.00; 100 lbs. \$1.75; 500 lbs. \$8.00.

BONE MEAL (Fine Ground)

Is pure animal bone finely ground. Unusually rich in nitrogen and phosphoric acid. Unexcelled for permanent results on lawns and in gardens. 10 lbs. 45c; 25 lbs. \$1.00; 50 lbs. \$1.75; 100 lbs. \$3.25; 500 lbs. \$15.00.

Poultry Remedies We Recommend

(Mailed postpaid to your address at the following prices)

AVICOL Stops Chicks Dying

Guaranteed For **WHITE DIARRHEA** in Chicks
and **Black-Head** in Turkeys

Almost from the very moment you put Avicol in the drinking water, the sick chicks start to get well. Usually within 48 hours, the very ones that seemed too weak and sick to live, are running around as lively as crickets. After a few days it will be hard for you to tell just which chicks had been sick and dying. They will all be so lively and active, the very picture of health

Use Avicol for Prevention and Treatment

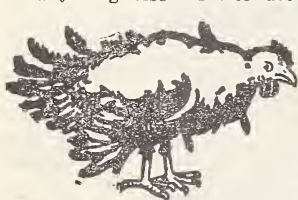

Don't sit back and say your loss of baby chicks can't be stopped. It **CAN BE STOPPED**—easily, quickly, and at almost no expense. All you need do is drop an Avicol tablet in the water occasionally. Avicol is a special bowel antiseptic. It stops disease and prevents its spread by

destroying germ life and helping the chick withstand infection. Price, 50c; special large size (almost 3 times 50c size), \$1.

Best Thing For Lice

U. S. Government recommends new chemical
Destroys even young lice
as they hatch

After many tests the U. S. Department of Agriculture has found Sodium Fluoride superior to anything else for lice destruction. It kills

"I Need T. S. F."

both old and young lice, including unhatched lice present at time of treatment. Talcumized Sodium Fluoride (called "T. S. F.") is made especially for poultry use. It is less irritating than straight Sodium Fluoride, thoroughly, and comes packed in a moisture-proof, shaker-top package bearing the U. S. Government's directions for use. It is convenient—never cakes or loses strength—and always does the work. Prices: Small size (for 50 chicks), 40c; large size (twice 40c size), 70c; special size (5 times 70c size), \$2.65. These prices include packing and postage.

DON SUNG Chinese for Egg-Laying

Makes Hens Lay in any weather

"Hens won't lay in Fall and Winter," used to be accepted as a fact. But anyone who has tried Don Sung knows that hens will lay right through the zero spells of winter, and all other cold or wet seasons. Don Sung is not an ordinary stock or poultry powder. It is a concentrated medicine—no needless bulk or filler—ready to add to your mash feed. It has a direct tonic action on the egg-laying organs and doesn't force or hurt the hen in any way. It produces more eggs by first putting the hen in good health, and then helping to maintain that health.

Roup-Over

"The Over-Night Roup Remedy"
For ROUP
COLDS and CANKER

Use Roup-Over at the very first symptom of Roup or colds in your flock. It clears the air passages and brings relief with magic quickness. Easily used, both for individual treatment and in the drinking water for flock prevention. Leading poultry raisers everywhere now use Roup-Over, the over-night roup remedy. It's so easy! So sure! There's no other remedy like it—nothing "just as good." Have a bottle ready to use when you need it.

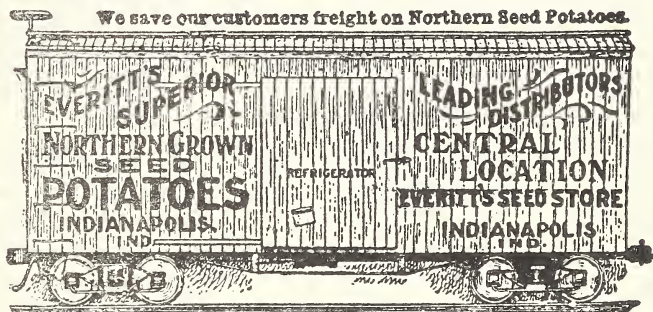

Price, 50c; large size (3 times 50c size), \$1.

Don Sung Costs Nothing to Try

Every poultry raiser is invited to try Don Sung—at our risk. Separate 15 hens and give them Don Sung for one month. Then watch results. If Don Sung pays you, keep on with it. If you don't think it has paid you, tell us and back comes your money. No argument to it. Don Sung is guaranteed—try it, at our risk. Prices of Don Sung Tablets: Small size, 50c; large size (3 times the 50c size), \$1; special size (6 times the \$1 size), \$5. We can also supply **POWDERED** Don Sung (for large flocks) at these prices: 3 lbs. (same quantity as 65 package of tablets), \$5; 10 lbs., \$10; 25 lbs., \$20; 50 lbs., \$35; 100 lbs., \$65.

Everitt's Seed Potatoes

**Northern
Grown
Seed
Potatoes
A
Specialty**

On account of the uncertainty of the supply of seed potatoes and lacking knowledge of a fair price that they can be sold at next Spring, we have omitted descriptions and attempts to price them in this catalogue. About February first, and as frequently as necessary through the season, we will issue a price list of seed potatoes, and other seasonable seeds. If you want it please send your name in. It will be free.

Read How O. K. Seeds are Praised by All

The Farmers Interest Seed corn I purchased from you last Spring did fine and made a better crop than any other corn. C. L. Norwood, Dutton, Ala.

I think the Mortgage Lifter Corn is fine and it stands the drought. Elenzo Caylor, R. 4. Talking Rock, Ga.

The Farmers Interest and Mortgage Lifter Seed Corn are the best white and yellow corn raised in this country according to my experience, and I am using no other kind. In fact, all seeds I ever bought from you were first class without exception. F. P. Jordan, College Grove, Tenn.

Your seed corn was fine. Should I plant a garden, will send to you for seed. Mrs. M. F. Hunt, 313 N. 3rd. St. Lafayette, Ind.

Am well pleased with results of my Farmers Interest Seed corn, especially for early planting. W. P. Hampton, Sorento, Ill.

We got five bushels of yellow seed corn and was well pleased with results. Had big yield of big eared corn. James W. Reavis, Rossville, Ind.

The roses I bought of you came in good condition and were fine healthy plants. They grew fine and bloomed all summer. I was very much pleased with them. Mrs. J. J. Hoffman, Loogootee, Ind.

Purchased some shrubs and rose bushes, and am glad to state that they proved very satisfactory both in price and quality and expect to purchase more this year. C. L. Singleton, Bloomingdale, Ind.

I have planted O. K. Seeds since 1885 and find none better. Stringless Green Pod beans are the best we can get and do well here. The 10 to 1 corn I got does well and all the other of your seeds that I have used. Ohio King, Meridian, Ohio.

The 10 to 1 white dent seed corn I ordered from your Seed Store was fine. Makes the best bread of any corn I ever used. W. S. Cannan. West Union, W. Va.

I have been using your seeds and shrubbery for a number of years and have had wonderful success, and have always found them true to name. O. F. Hamieson, Pershing, Ind.

The seeds purchased from you for 1925 were cucumbers, lettuce, sweet corn, radishes, and beets. To our experience there is no better on the market than what can be bought from your store. Walter J. Davis, Exchange, W. Va.

Wish to say that your seeds were all very satisfactory. The wonder beet surely bears the right name. For I never raised such beets, and did not see their equal any place for size. Also the cucumbers, king of picklers, were a great yielder. You

can count on me for a regular customer and will be looking for your 1926 catalogue. I. M. Frank, Cherrytree, Pa.

I want to say that I cannot speak enough praise of your China Cucumbers. I had only one packet and not only did it bear until the vines were killed by the frost, but I must say I never tasted such delicious crisp, fine grained cucumbers before. Nothing but China cucumbers for me henceforth. They are wonderful. I also got a fine crop of Early Wonder Beets and liked them very well too. Mrs. Paul Wright, Madison and 23rd St. Hammond, Ind.

I planted some of your white and everbearing cucumber seed last year and raised a bountiful crop of the nicest, uniform cucumbers my neighbors said they ever saw. Mrs. E. E. Gossett, R. R. 1, Lizton, Ind.

Your beets were fine, cucumbers were excellent; muskmelons the best I have ever seen, watermelons were extra, peppers can't be beat and your radishes were extra. If I ever raise another garden, I will certainly order my seed from you. 22 years ago I bought seed of your house and had a real garden that year (1903) but I must say that we haven't had a real garden since then until 1924 when we used your seeds again. I can't recommend them too highly. Homer Johnson, 821 W. Maple St., Herrin, Ill.

Having used your seeds for the past three years. I find them to give very satisfactory results. I planted the Early Wonder Beet, and found that they were very good. The King of Picklers Cucumbers, Green Mountain Potatoes, and my Butterfly Bush all did well. Fred H. Cook, Cromwell, Conn., 89 S. St.

I wish to say that the sugar peas were wonders. The quality and quantity were just fine. The Wagonhead lettuce grew immense. The mangoes and Yard Long beans were wonderful bearers. The Golden Acre cabbage was the best ever. W. W. Scott, Roachdale, Ind.

We got some onion sets from you and they did exceedingly well. They were the best sets we ever had of the yellow kind. They were an extra quality also. Fred Williams, R. R. 5, Martinsville, Ind.

I have always had more or less trouble in getting seed for my garden that would come up and grow well until last year when I ordered my seeds from you. I was more than pleased with the results. The seed came up so well and were such strong healthy plants. I tried your Early Wonder Beets and it sure is a fine quality beet. I also planted First Crop Radish, Harris Earliest Pepper and Tom Watson Watermelon all with equal success. Mrs. Altho L. Wiles, Lebanon, Ind.

CORRECTIONS—Through an unfortunate error our printer put Nasturtiums—page 37 and part of Perennials—Page 47, out of position in a few catalogues which made it necessary to put squashes—page 56 out of its position. We hope these things will not bother you much.

A Few Last Words

REMEMBER the prices of Pkts., ozs., ¼ lbs., lbs. and up to 5 lbs., include delivery to you. Have this in mind when comparing prices.

WRITE TO US for latest prices on Farm Seeds and Seed Potatoes and a **SPECIAL CIRCULAR** we will issue on Seed Corn.

AND IN CONCLUSION We are going to look for this catalogue to bring us an order and will be disappointed if it does not.

MAY GOOD CROPS and Prosperity be yours all through 1926.

"Win-it's-Way" Tomato

*Unsurpassed in Size, Solidity,
Quality, Productiveness—for an Early Tomato*

EVERY HOME GARDENER, EVERY MARKET GARDENER, EVERY SHIPPER,

will find in this tomato his ideal. It is only a few days later in ripening than the extra early varieties, but when it does arrive, it excels them all for size, all-season bearing and solidity. Brilliant red. Full description will be found on page 5 of SPECIALTIES.
Price—Pkt., 20c; 3 for 50c; 8 for \$1.00; Oz., \$1.25.
